POETICAL.

THE GIRL WITH THE CALICO DRESS.

A fig for your upper-ten girls,
With their velvets and satins and laces,
Their diamonds and rubies and pearls,
And their milliner figures and faces;
They may shine at a party or ball,
Emblazoned with half they possess,
But give me in place of them all
My girl with the calico dress.

She is plump as a partridge, and fair
As the rose in its earliest bloom,
Her teeth will with ivory compare,
And her breath with the clover perfume,
Her step is as free and as light
As the fawn's whom the hunters hard press
And her eye is as soft and as bright,
My girl with the calico dress.

Your dandies and foplings may sneer
At her simple and modest attire,
But the charms she permits to appear
Would set a whole iceberg on fire!
She can dance, but she never allows
The hugging, the squeeze and caress,
She is saving all these for her spouse,
My girl with the calico dress.

She is cheerful, warm-hearted and true,
And kind to her father and mother,
She studies how much she can do
For her sweet little sisters and brother;
If you want a companion for life,
To comfort, enliven and bless,
She is just the right sort of a wife,
My girl with the calico dress.

A CALIFORNIA WIFE.

We have been told that when John Bigler, late Governor of the State of California, was a member of the State Legislature, Mrs. Bigler, his wife, absolutely washed the clothes of the honorable gentleman for so much a dozen. At the time of his election Bigler was very poor, and his per diem was hardly enough for himself and his wife to live on in those prodigal times. To make both ends meet, and save something against a rainy day, Madame Bigler put her shoulder to the wheel as above related.

Now, won't this be rather startling to the pale-faced attenuated damsel of the East, who scream and faint at the sight of a wash tub or a cob web. Think of it. The wife of an ex-governor, with her sleeves and gown tucked up, bending over the wash tub, while her husband with his clean dickey standing upright chafing his ears, rose to a question of privilege,—"Mr. Speaker! Mr. S-p-e-a-k-e-r!"—And think of the ex-washer-woman being feted, three years after, as the wife of the Governor of California, worth $1,500,000—money enough to make the heads of universal snobdom duck and dive like an affrighted water-fowl in a storm!

Good for the Pennsylvania Dutch girl. Five hundred years hence when the historian lifts the veil from the catacombs of the past and write the history of the unforgotton dead, he may, perhaps, append this little episode to the history of one of California's Governors, and the little ragged girls that then go down to dip water from the Rio Sacramento, may think better of their mothers who have to labor, because a long time ago Mrs. Bigler, the Governor's wife, filled her wash tubs from this noble river.

These are the pioneer women of California; there are many such, as strong willed and as true, who quail not at their own foot steps in the woods, whose hearts swell with hope at

The banging of the hammer
And the creaking of the crane.

* * * * *

Two Scotchmen thus discoursed:

"I say, Georgie, man, I hear thou's been makin' a fule o' theeself."

"Ah, man, I've gotten a wife."

"Why, did'nt ye know I've dun that same thing meself? What kind o' body hast thou gotten?"

"A parfect deeval, man, a parfect deeval."

"Smash me, man, I wish mine wur na warse than that."

"Warse than that," responded Georgie, "how can she be warse than that? Isn't Beelzebub the warst crittur a man could have for an akwentence in this world?"

"Nought o' the kind, man—nought o' the kind. Did'nt ye knaw that the Bible says (and thou knawest it can not be wrong) to 'Resist the deeval, and he'll flee from you;' but bless thy soul' simple lad, if ye resist my wife, she'll flee right at ye."

☞ Not long since Dr. Oliver Wendell Holmes delivered a lecture, in which he took the ground that the people of New England were degenerating for want of limestone out of which to manufacture the necessary bone and muscle. The Albany Atlas disputes the theory of Dr. Holmes. The editor says that the trouble with the men of New England is, "that they are (like sharks) running all to head, and the head running all to mouth." "When doctors disagree who shall decide?"

Extract from a poem just published in England:

Farewell, Torrengower! and Ganawarra!
Farewell, Wagra Barjarg! and Irrawarra!
Farewell, Burra Burra! Poliah! Morang!
Farewell, Merrimingo! and thee Burnewang!
And thee, Booroondara! and Goomalibee!
Farewell, Narab Narab! and Himamongy!
And Wimmera plains, by Tongoomungie!

If it is all like the foregoing, the poem must be a rich and ingenious work—a sort *o'high* art production.

HIGH SOUTHERN GROUND.—Captain Jones, United States Army, a Virginian by birth, stationed not long since at Benecia, California, had with him as body servant a slave named Joe. One morning the Captain was startled by the news of Joe's having shot another negro, and sternly asked him how he dared to do so. Joe seemed at first cast down, but rallying himself and looking the Captain full in the face, replied "De fact is, massa, dat ar nigger was one of dem New York free niggers. He'sulted me, and I had to take high sadron ground wid him."

A FINE PLACE TO LIVE.—According to Humboldt there is a tree in the South Sea Islands which produces ready made shirts. The natives cut off pieces of the tree about two feet long, from which they draw off the bark as of chestnut to make whistles. Each man selects a tree near his own diameter, so that the shirt may be a good fit. When the bark is off they cut a hole in each circle to admit his arms. The shirts do not require any washing, starching, or ironing and a more convenient article for loafers could not be imagined. The same country produces bread fruit, so that a fellow may get his board and clothes gratis.

Benj. Franklin and Prof. DeGrath.

Franklin brought electricity from the heavens to earth, but it remained for Prof. De Grath to apply that electricity to the relief of diseased and suffering mortals—diseases that heretofore baffled the physician's old treatment, such as Neuralgia, Rheumatism, Pains, Stiff Joints, Deafness, Swellings, Palsy, Piles, Skin Diseases, &c., are now cured by Prof De Grath's electric oil in *one and two days*. Read this letter from a physician who has practised since 1826—(too well known for comment):

Prof. DE GRATH, Philadelphia.

Sir:—At intervals, during thirty years past, my wife has been subject to rheumatism of the most violent cast—[say four times a year]—sometimes so severe as to make it necessary to administer large doses of the tincture of guiacum and morphia, and to rock her like an infant in a large rocking chair, to induce any repose. Having frequent correspondence with my son, (No. 103 Chesnut street, of your city,) I informed him of an attack she had about the middle of last month, [January,] which was of such severity as to completely paralyse the system. He, in his anxiety of his mother's welfare, sent me a bottle of your Electric Oil; but as I am one of the practitioners of medicine in our place, and not a proselyte to any kind of patent medicine, I did hesitate to give it a trial; however, on reflection, I concluded to try it, which I did, *et persiona*, directly up the letter, and after the third or fourth application she became rather passive, and before one-third of the bottle was used, not a single vestige of the disease remained in the system, and she still continues well, although she rode out a distance of fourteen miles without a renewal of any of the symptoms. I therefore feel it my duty, for the sake of suffering humanity, and also fully believing that merit, under all circumstances, should be rewarded, to forward this testimonial. I am yours, truly.

EAR AND EYE. DRS. LeBRUN AND DUFTON,

OCULISTS AND ARTISTS.

DR. LeBRUN offers to those suffering from Deafness his infallible Aural Remedies, which have been successful in nearly three thousand cases of confirmed Deafness. These remedies have been pronounced by Drs. Khramer, of Berlin; Itard and Deleau, of Paris; and Curtis Fletcher and Yearsly, of London, as the most wonderful ever applied for diseases of the internal and middle ear. They comprise different courses for the various diseases that affect the external, internal and middle ear. If the disease is confined to the external ear, their effects are apparent on the fifth or sixth day. Dr. LeBrun warrants a cure in every case, when the ear is perfect in its formation. He has eighteen certificates from those who have been deaf from infancy, whose hearing is now completely restored, and they are now enabled to learn the language. Over twenty-seven hundred cases of deafness have been successfully healed by him. Certificates to that effect may be seen on application.

In nervous affections, inflammation and mucous accumulation in the *Eustachian Tube and Tympanum*, thickening and inflammation of the *Membrana Tympani* or "drum," *Otorrhœa* or discharges of matter from the *Auditory Canal;* when the deafness has been produced by Scarlet, Typhus, Bilious, or Remittent Fever, Colds, use of Quinine or Mercurial Medicines, Mumps, gatherings in the Ears, etc., or when it is accompanied with noises like falling water, chirping of insects, whizzing of steam, rustling of leaves, ringing of bells, pulsations, etc., etc., the disease can be radically and permanently cured.

Dr. Dufton is the only practitioner in the United States who practices the new, painless, and successful method in treating all the diseases to which the Eye is subject. Where every other means has failed to afford relief, he asks from such a fair and impartial trial.

TESTIMONY.

The undersigned practitioners of Medicine in the city of New York, having had occasion to witness the practice of Drs. LeBrun & Dufton, in diseases of the Ear and Eye, laying aside all professional jealousy, freely admit that the course pursued by them in treating diseases of these delecate organs, from the unparalleled success attending it, is well worthy the attention of our professional brethren throughout the United States, believing as we do, that Aural Surgery has not met with that attention which its importance demands.

Their system of treating diseases of the middle and internal Ear, in chronic or complicated cases by means of "Medicated Vapors," forms a new era in the practice of Aural Surgery, and fills up a void which has long been felt by the general practitioner. In diseases of the Eye, they seldom require to resort to an operation. As skillful Artists and Oculists, enthusiastically devoted to their profession, we cordially recommend them to such as require their aid.

PROFESSOR WOOD'S

HAIR RESTORATIVE.

It has worked Miracles!

THAT all the bald and gray can be restored perfectly to original growth, so far as their locks are concerned, does not admit of a doubt, besides it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions—even scald-head—and in no possible case will it fail of curing, as if by magic, nervous or periodical headache, and if used twice a week by the young, regularly, it will preserve the color, and keep the hair from falling, to any imaginable age. Read and judge.

Logansport, Ia., June 1855.

Messrs. O. J. Wood & Co.:

GENTS:—Yours of the 13th came duly to hand. Enclosed, please find thirty-eight dollars, it being the amount for Hair Restorative. I have sold it all. * * * If you choose, you may send six dozen bottles Hair Restorative; I think I can sell it. It has worked miracles in this place. I sold a man six $1 bottles, that was bald, and it fetched new hair out all over his head.

Yours, respectfully, M. H. GRIDLEY.

C. R. R. Office, Vandalia, June 21, 1851.

PROFESSOR WOOD—

DEAR SIR: I take pleasure in bearing voluntary testimony to the excellence of your Hair Restorative. Three months ago, my hair was very gray. It is now a dark brown, (the original color,) smooth and glossy. The only application I have made to it, has been the Hair Restorative prepared by you, and which, from the result in my own case, I can most cordially recommend to others,

Respectfully, yours,

EDWARD WOLCOTT.

Vincennes, Ia., June 21, 1853.

PROF. O. J. WOOD:—As you are about to manufacture and vend your recently discovered Hair Restorative, I will state, for whomsoever it may concern, that I have used it, and known others to use it—that I have, for several years, been in the habit of using other Hair Restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head of dandruff, and with one month's proper use, will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance; and all this, without discoloring the hands that apply it, or the dress on which it drops. I would, therefore, recommend its use to every one desirous of having a fine color and texture to hair.

Respectfully, yours, WILSON KING.

St. Louis, June 29, 1853.

FROF. WOOD:—As you are about to prepare and vend your recently discovered Hair Restorative and as you request my opinion of it, I will state, that my hair was, a few months ago, very gray, and after using two bottles of your Hair Restorative, it resumed its original color; and since its application, all dandruff has disappeared from my head, and I have been troubled with no disagreeable itching of the scalp. I am satisfied, that those who use it, will not regret it, as it gives the appearance of having been recently oiled. I am prepared, therefore, to recommend its use to all who are desirous of having a beautiful head of hair.

I am, sir, yours, etc. E. L. STEWART.

PROFESSOR WOOD—

Dear Sir. My hair had, for several years, been becoming prematurely gray, accompanied by a harshness which rendered the constant application of oil necessary in dressing it. When I commenced using your Hair Restorative, about two months ago, it was in that condition; and having continued its use till within the last three weeks, it has turned to its natural color, and assumed a softness and lustre greatly to be preferred to those produced by the application of oils or any other preparation I have ever used. I regard it as an indispensable article for every lady's toilet, whether to be used as Hrir Restorative, or for the simple purpose of dressing or beautifying the hair. You have permission to refer to me all who entertain any doubt of its performing all that is claimed for it.

PROF. O. J. WOOD:—Allow me to attest the virtues and magic powers of your Hair Restorative. Three months since, being exceedingly gray, I purchased, and soon commenced to use, two bottles; and it soon began to tell, in restoring the silver locks
