MECKLENBURG AGRICULTURAL FAIR.

In another column we publish a list of the Committees to award Premiums at the next Mecklenburg Agricultural Fair, to be held on the 4th and 5th of November. We hope the chairman of each committee will nreserve a list of those associated with him, and notify them on the occasion, that the matter may receive the attention it deserves. It will be seen that the ladies are to have a voice in awarding premiums in their department this time, and it is proper to presume that they will take an interest in the Exhibition and do all in their power (which is, indeed, very great) to render it attractive and interesting.

The lot of land purchased by the Society, near Maj. Morrow's, will be prepared by the Executive Committee for the occasion, and every effort made to afford ample accommodations. All should feel an anxiety for the success of these Annual Exhibitions of the industry of the farmer, the mechanic and the artizan.

CHARLOTTE FEMALE COLLEGE.

We are pleased to learn that the Trustees have secured the services of Rev. Mr Burwell, of Hillshore, to take charge of the Female College in this place. He contemplates opening the College for the reception of pupils about the middle of Octoher. Mr Burwell has conducted a female school at Hillsboro for 20 years past, and

HON. BEDFORD BROWN. Last week we had the pleasure of seeing and renewing the acquaintance of the Hon. Bedford Brown of Caswell county. He is one of the "old time" democrats, and a conversation with him was both pleasant and instructive to us. Mr Brown was first elected to the Senate of the U. States from North Carolina in 1828, and was re-elected for another term, which position he occupied, with Hon. Robt. Strange of Fayetteville, as his colleague, until instructed out

by a whig Legislature with K. Rayner at its head. As a sound, reliable, consistent democrat, Bedford Brown has no superiors 30,000. -as a courteous, affable and unassuming gentleman, but few equals. While in the Senate he distinguished himself by speeches in opposition to what was known as the

"Force Bill" (for subjugating South Carolina.) and in favor of the "Expunging Resolutions." He discharged his duty to his constituents and party faithfully, satisfactorily and fearlessly. After leaving the Senate he removed to

Missouri, but a few years ago he returned to North Carolina to spend the remainder of his days among his old friends and acquaintances, which we hope will be as pleasant and agreeable to him, as it will be to his numerous party admirers.

10101 A N. CAROLINA ABOLITIONIST. The course of Edward Stanly, in accept-

ing the black republican nomination for Governor of California, is humiliating and

injurious to the South. It is humiliating because Stanly had been honored and trusted by North Carolinians as a true southern man ; it is injurious, because it will mislead northern fanatics as to the real feelings of southern people. Abolitionists have always contended that they had sympathizers, aiders and abettors in the South to a far greater extent than we were willing to acknowledge, and now they can point to Stanly's letter of acceptance as proof, and urge the North to continue its crusade against our

rights and institutions with the hope of gaining recruits from southern ranks. As they were obliged to do, most of the whig papers in this State have condemned

Stanly and disapproved of his conduct .--But we regret to see that the Wilmington Herald is inclined to apologize for the

course of the traitor by saying "that upon the subject of slavery there is no real difference between the Democracy and the Black Republicans." How dare the Herald make such an assertion with past events staring it in the face. Who, in Congress and out, have voted to secure to the South her rights-who have employed their pens

CLEAVELAND SUBSCRIPTION .-- On the 20th ult. the people of Cleaveland county voted in favor of subscribing fifty thousand dollars to the Wilmington, Charlotte and Rutherford Railroad. The majority in favor of subscription was 190. The Wilmington Herald says: "We are also pleased to learn that the

proposition to subscribe \$100,000 to this work, which was voted down a short while since by the people of Rutherford, by a small majority, will, in all probability, be carried at an election to be held shortly. The writer of the letter from which we derive the above information says, in ad dition-'The skies are brighter now, and the

feeling is vastly better along the whole line

than ever before.' " FIRE IN WILMINGTON .- A desctructive fire occurred in Wilmington on the morn ing of the 24th August. It originated on Water street, and destroyed property to the amount of \$30,000 or \$40,000. A large quantity of naval stores on the wharf were consumed and the wharves considerably damaged. O. G. Parsley and Mrs Noyes are the principal losers. A merchant named A. Kaufman has been arrested and committed to Jail, charged with having caused the fire.

has earned a high reputation as a competent instructor. From what we know of the gentleman by reputation, we congratulate the friends of the institution at their success in selecting him as Principal.

Facilities for educating young ladies in Charlotte will soon be offered of a superior kind, and we hope the citizens of this section will take advantage by governing themselves accordingly.

----GATHER TOGETHER!

We are requested by a friend of the Charlotte Female College to ask the citizens of Charlotte to meet at the College building on next Thursday morning, 3d inst., for the purpose of clearing up and levelling the grounds around the premises. It is requested that all who can, will send hands, horses and carts, provided with spades, shovels, axes and grubbing hoes, for the the purpose indicated. Several citizens have already volunteered in the work, and it is hoped that all will lend a helping hand.

STATE FAIR.

The Annual Exhibition of the North Carolina Agricultural Society will commence in Raleigh on the 20th of October, and continue for four days. We hope our Raleigh friends will make better provision for accommodating strangers who can't get shelter in the Hotels, than they did last year. We had some experience last year in the way of finding Hotels crowded, and not able to procure a place to sleep.

SALISBURY .- Passing through our sister towa of Salisbury the other day, we noticed unmistakeable signs of improvement, creditable and encouraging to the spirit and enterprise of its citizens. The new Hotel at the Depot, the "Verandah House," kept by Dr. J. M. Happoldt, is a fine building, and affords ample and elegant accommodations to travelers. We found charges moderate and the fare as good as could be desired by the most fastidious epicurean.

..... RF Among the appointments by the President, (says the Wilmington Journal)

announced in the Washington Union of the 28th August, we find that of Henry W. Spencer of New York, Consul at Paris, in place of Duncan K. McRae, resigned.

We learn from gentlemen who have seen Mr McRae since his return to this country, that his health is very much improved, with every prospect of a complete and permanent restoration. He is now much better in every way than he has been for a number of years. We believe it is his intention to fix his residence in Raleigh, with the view of engaging in the practice of his profession. Beverly Tucker has been appointed Consul to Liverpool.

and voices in defending our institutions ? Are they not members of the democratic party ? 'And by whom have they been bitterly opposed and resisted ? The records

will show that the national democratic party has been fought to the bitter end by black republicans, aided by know-nothings everywhere. The Wilmington Herald knows this, yet it sees proper to make the assertion that there is no difference between the

two parties. The history of political affairs proves the contrary.

IF The Wilmington Herald publishes the following extract of a letter from Edward Stanly, to a gentleman in this State, soon after his acceptance of the black republican nomination in California : "Most unexpected, after I had declined

by word and by letter, I was nominated for the office of Governor. I take no new principles-stand on no platform, but that of a

North Carolinian on his past life and expressed opinions. Of course, I do not think can be elected-the hope of success does not animate me. I shall get a very respectable vote, but I hope will not be elected. My wish is not to remain here, and, if elected, I would be kept two years any how .---My heart is in North Carolina I run not

to be elected, but to oppose Nebraska agitators and Secession Democracy." Those who formerly supported Stanly in

this State, against the frequent varnings of democrats, can now see how they were dedeceived.

The following are two of the resolutions of the platform on which Mr Stanly is now standing in California :

A full supply of Powers & Weightman's CITY OF MOREHEAD !!! **GREAT SALE OF LOTS!!**

ON THE ELEVENTH (11TR) DAY OF November next, at the City of Morehead, will be sold at public auction, the Lots of said City. This is the new City laid off by the "Shepard's Point Land Campany," at the terminus of the At-lan ic and North Carolina Rail Road, at Beaufort

Harbor, N.C., immediately at the Atlantic Ocean. The various Reports of the U.S. Coast Survey establish the great excellencies of this Harbor, for facility of entrance, depth of water and security from wind or wave, whilst Fort Macon completely ommands the entrance.

The interior communications by water and land must make this a great Commercial City. The vast productions of the fertile valleys of the Roanoke, Tar and Neuse Rivers and the commerce of those great inland seas-the Albemarle, Currituck, Craotan and Pamlico Sounds, will reach this fine Harbor through Core Sound on the north, whilst Bogue Sound will bear on its bosom the agricultural products, lumber, naval stores and fine ship tim. ber of the regions lying south. The A. & N. C. Rail Road which will be ready

for use by the first of January next, passes through the entire length of the City to its wharf in 18 feet water at low tide, and connects with the great N. C. Rail Road (of which it is a continuation) at Goldsboro'

The N. C. Rail Road, among the best in the Union, 223 miles long, is completed to Charlotte, where it connects through the South Carolina and Georgia Rail Roads with Atlanta and the southwest; and by its western extension, now in rapid progress, it is contemplated to reach the trade of Memphis and the Mississippi Valley by the network of all the rail ways that connect at Atlanta, Chattanooga, or with the East-Tennessee Rail Rond

The Port of Beaufort, Chattanooga, Memphis and St. Diego in the Pacific, are about the same parallel of lattitude; and if that parallel be extend-ed across the Pacific, it will reach Shanghai, the ed (and that should be done forthwith) why may not this new City become the Atlantic mart for the commerce of the East Indies? Two short Railroads will connect the two great

Coal Fields of the State, lying on the north and south of the North Carolina Railroad, with that road; and it is confidently expected that a vast coal trade will be carried on through the new city: if so, may not Beaufort become a great coaling Port, not only for purposes of commerce, but to turnish the supplies to steamers passing so near the entrance going north and south ; and may not the new city become that great "entre depot" between the north and south, to which our able and distinguished countryman, Lieut. Maury, refers in his unrivaled Statesmanlike paper on the com-merce of the Amazon, South America and the

Gulf of Mexico ? The city of Morehead is situated on a beautiful neck of land or dry plain, almost entirely surrounded with salt water : its climate is salubrious ; its sea-breeze and sea-bathing delightful ; its drinking water good, and its fine chalybeate spring strongly impregnated with sulphur, will make it a pleasant watering place.

As not a lot has been or will be sold until the day of sale, all will have an equal chance to get the best lots and to suit themselves.

It will be the first instance of an entire new city on the Atlantic coast being brought into market at once; and capitalists may never have again such an opportunity for good investments, for a great city must and will be built at this place. J. M. MOREHEAD,

President of Shepperd's Point Land Co. September 1, 1857.
