WESTERN DEMOCRAT Charlotte, N C.

TUESDAY, JANUARY 5, 1858.

BRIGHAM YOUNG ON UNCLE SAM Brigham Young has been making some speeches, of which the following are ex-

Brigham on the Utah expedition-resistance to the troops.

This people are free; they are not in bondage to any government on God's cotstool. We have transgressed to law, and we have no occasion to do so, neither do we intend to; but as for any nation's coming to destroy this people, God Almighty being my helper, they cannot come here. The congregation responded by a loud Amen.] That is my feeling upon that

I do not often get angry, but when I do I am righteously angry, and the bosom of the Almighty burns with anger towards those scoundrels, and they shall be consumed, in the name of Israel's God. We have borne enough of their oppression and hellish abuse CAMPHENE AND BURNING FLUID, just and we will not bear any more of it, for cle of forage nor one mouthful of food for there is no just law requiring forbearance on our part. And I am not going to have bring all their provisions and forage, and troops here to protect the priests and hellish rabble in efforts to drive us from the loads as they can draw, there is no team land we possess for the Lord does not want | that can bring enough to sustain itself, to us to be driven, and has said. "if you will say nothing of the men. If there were no assert your rights and keep my command- more men here than are in the Seminole ments, you shall never again be brought nation, our enemies could never use us up, into bondage by your enemies."

Faith recommended to the saints. If there was a perfect union of our faith. our enemies never could cross the Rocky Government, I suppose in the neighbor-Mountains, or if they undertake to come | hood of \$100,000, and they are now no some other way they never could cross the nearer, being conquered than when the war Sierra Nevada Mountain, nor the Basin Rim on our North, nor the desert on the South. Washing Seda, Cream Tartar, Nutmegs, But says one, "I want to fight," Do all such persons know that they are right? The sending of the troops declared unconsti-

tutional. If you do your duty in this respect you need not be afraid of mobs, nor of forces sent out in violation of the very genius of free institutions, holding you till mobs kill you. Mobs ? Yes, for where is there the least particle of authority either in our constitution or laws, for [sending troops here, or even for appointing civil officers contrary to the voluntary consent of the government. We came here without any help from our enemies, and we intend to stay as long as we please.

Brigham defies them. say that such a statement is as false as hell and that they are as rotton as an old pumpkin that has been frozen seven times and then melted in a harvest sun. Come on with your thousand illegally ordered troops, snow before a July sun.

Permission to return to the United States-If it were any use I would ask whether there is one person in the congregation who wants to go to the United States, but I know I should not find any. But I will pledge myself, that if there is a man, woman, or child that wants to go back to the United States, if they will pay their debts and not steal any thing, they can go; and if they 300 gallons of pure Linsced Oil. are poor and honest we will help them to

The Mormons refuse to leave Utah. When I was written to in Nauvoo by the President of the United States, through another person, inquiring, "where are you going Mr. Young?" I replied that I did not know where we should land. We had men in England trying to negotiate for Vancouver's Island, and we sent a ship load of saints round Cape Horn to California. to?' 'We may go to California or to Vancouver's Island." When the Pioneer company reached Green river, we met Samuel Branlet us go to California, and we cannot stay there over five years; but let us stay in the Mountains and we can raise our own potatoes and eat them; and I calculate to stay help themselves.

We are not to be persecuted as we have been. We can say, "Come as a mob, and we can sweeten you up right suddenly."-They never did any thing against Joseph till they had ostensibly legalized a mob, and I shall treat every army and every armed company that attempts to come here as a mob. [The congregation responded Amen.'

Wrongs upon the Mormons. There cannot be a more damnable, dastardly order issued than was issued by the

administration to this people, while they were in an Indian country in 1846. Before we left Nauvoo, not less than two United States Senators came to receive a pledge from us that we should leave the United States, and then while we were doing our best to leave their borders, the poor, low, degraded curses, sent a requisition for five hundred lof our men to go and fight their battles! That was President Polk, and he is now weltering in hell with old Zacharv Taylor, where the present administration

will soon be, if they do not repent. The faint hearted wanted to leave. I have told you that if this people will who uses tobacco.

live with their religion, all will be well; and REV. DR. TYNG ON OLD WOMEN. FIGHT BETWEEN THE FREE STATE I have told you that if there is any man or woman that is not willing to destroy anything and everything of their property that | Association for the releif of Aged Indigent | Democrat publishes a Kansas letter this ed them to go out of the Territory, and I | port has the following : again say so to-day, for when the time comes to burn and lay waste our improvements, if any man, undertakes to shield, he will be sheared down, for "judgment will be speak of "fathers in Isrcal !" laid to the line and righteousness to the in peace, but should that time come, then they must not interfere. Before I will suffer what I have in times gone by, there cle of grass or hay, that will burn, left in name of Israel's God.

Preparations to oppose the troops. Suppose that our enemies send 50,000 troops here, they will have to transport all that will be required for them before they come, for here there shall not be one partithem should they come. They will have to though they start their teams with as heavy but they could use themselves up, which they will do. The Seminoles, a little tribe of a few hundred in Florida, have cost our commenced.

The cost of conquering Utah It has been asked, "Have you counted the cost." Yes, for ourselves, but cannot begin to count for our enemies. It will cost them all they have in this world, and will land them in Hell in the world to come. whilet the only trouble with us is that we have two or three times more men than w need for using up all who come here to de prive us of our right.

Gives the President a piece of his mind. It is my faith and feelings that if we live as we should live they cannot come here, but I am decided in my own opinion that if worse comes to worse; and the Lord permits them to come upon us, I will desolate this whole Territory before I will again submit to the hellish corruption and bondage the They say that their army is legal, and I wicked are striving to thrust upon us, solely for our exercising our right of freedom

of conscience. I will say in reference to President Buch anan, that for his outrageous wickedness in this mevement, he shall wear the yoke as and I will promise you, in the name of Isra- long as he lives; he shall be led about by el's God, that you shall melt away as the his party with the yoke on his neck, until they have accomplished their ends, and he can do no more for them, and his name shall be forgotten; and "Old Bright," as Mr. Kimball calls him, shall be free.

After doing what they have already done to this people, after sending among us the filth and scum of all creation (as some of the officers were) as officers of the government, contrary to the genius of our institutions, I want to tell them that though they continue to send poor, pusillanimous curses here to be government officers, we will not tell them this in plainness and simplicity, prosperity of Brazil is not overdrawn, we and they will find that in my simplicity I | will state that she exported in 1855 more Extracts from an address of President

Tobacco.-The Methodists, as a denomination, appear to be making open war upon the habit of using tobacco. It is stated that one of the conferences has determined to license no candidate for the ministry who will not forego its use in every form of personal indulgence. > SLAVERY IN BRAZIL. The New Orleans Delta adduces Brazil

s presenting a strong argument in favor of the institution of slavery as 'an element of prosperity and a means of rapid national development. It says that empire, during an independent existence of but little more than thirty years, has been making giant strides towards wealth and prosperity, and it improvement Brazil has almost kept pace with the United States. 'Cut off from the commerce of the word by the selfish Japanese policy of the mother country, she was, at the beginning of the present century, a feeble, colonial possession, and a desert waste on the face of the globe. She finally severed in 1825 the bonds which connected her with Portugal, and assumed the rank of an independent nation. Orderly, constitutional government was established under a wise and liberal prince, and this new empire began to flourish and blossom as the rose. The importation of blacks from the coast of Africa, commenced under the Portuguese rule, was continued on the most extensive scale. Every woman who keeps a boarding house in Washington, makes it a practice of beseiging honorable members with all sorts of attention to secure their influence for Tommy, and to pension their lazy whelps on the Government.

THE SIAMESE AND BRITISH .- Our smokers cannot fail to be amused at the astonishment of Victoria's courtiers in taking out their pipes and smoking in her august presence. We admire her Majesty's pruis no exaggeration to say that in the race of dence in not ordering them to the Tower to be cured for hams.

The Court newsman does not tell us all that he might about the presentation to the Queen of the Siamese Embassadors, whose physical quality and political unity are calculated to prolong our associations of the celebrated twins from the same land. The Queen and her Court were assembled in state, and as soon as the door of the audience-chamber opened, the Embassadors and their suite, eight persons altogether, appeared. Having made profound salaams, they threw themselves on their hands and knees, and in a compact body went up the room on all fours to the throne. The royal gravity (her Majesty is known to have as keen a sense of the ludicrous as most people,) was sorely tried by this proceeding; but when the principal Embassador increasing his prostrations, laid his chin and the basis of its wealth. Coffee and on the step of the throne, and in that attitude commenced to read his address, the trial became painful. The exit from the Queen's presence was accomplished by a retrograde movement on all-fours likewise, the Embassadors keeping their faces always to her Majesty. There was a lunchcon served in one of the state apartments, in the course of which their Siamese excelresults of the successful establishment of lencies, to the intense horror of the assembled Court, lit their pipes and began to blow a comfortable cloud. The Queen herself, however, very sensibly and good naturedly laughed, and said nothing about it, notwithstanding her aversion to the fragrance of the tobacco plant.

VARIETIES OF THE SLAVE TRADE.-We see by the papers that news received in Engsame happy traits of character, basking land about the middle of last month, from the Cape of Good Hope and the west coast of Africa confirms the previous advices from the latter touching the briskness of the slave trade. This was, of cause, in consequence

of the demand for the French Government. Her Britannic Majesty's cruisers, it appears, were on the alert, lately capturing some slavers, and affording illustrations of the ill-usage to which the poor African is subjected by being taken care of by the affectionate English. The English sloop Sapcued 350 slaves, 150 others being drowned or missing." Thus nearly on -third of the cargo were actually drowned by English benevolence, to offer the remaining two-

the English collonies. To prevent the barbarities of the African slave trade, and uphold her character as a Christian, she keeps up the light of civilization by burning the slaver, at the same time that she patronizes the Chinese slave trade in the Coolie system, agitates the shipment of the Sepoys as slaves to the West Indies, and occupies her vessels in the transportation of Circassian boys and girls for the Turkish market.

"Nonchalant" means that peculiarly indifferent look which is put on by men, "who never pay" when dunned for money. It should be written, none shell out.
