Man Killed by a Woman in Defence of her Husband, at Weston, Mo.

[From the Weekly Platte Argus of June 11th.] On Saturday night the City Marshall was aroused from bed to go to a house on the northern extremity of Leavenworth street.

Here was a horrible sight. Sitting up in bed was a man by the name of Branham, his face lotte and its vicinity is the best guarantee | bruised up, his shirt covered with blood, and his of the PURITY OF THE DRUGS sold by wife, a young, and good looking woman, in much distress, and attending to his bruises. About twenty feet from the back door, in the garden lay the dead body of Hugh Wilson, his features scarely recognizable, his forchead smashed in and the blood and brains oozing out profusely, a large and bloody club by his side, with which the woman, wife of Braubam, said she had done the deed in defence of her husband. The plain story that the two told was, that Wilson (intoxicated) had forced the lock of the back door, had jerked Branham and Tar, Wistar's Balsam, Caysott's Sursaparilla and out of Led and dragged him out into the garden. Yellow Dock, McLane's Pills, Strong's Pills, Ayers' The wife flew to her husband's assistance with a club, and by dist of well directed blows, made of Wilson a most horrible corpse.

INTERESTING STATISTICS .- Among other interesting facts of DeBow's statistical view of the United States, we may mention that the foreign vote of the country is one-twelfth of the whole; that the State of New York has about one-eighth of the population of the Union; that there is one house to every six persons in the country; that the number of persons who live east of the Mississippi is twelve times greater than those who lives west thereof; the distance between New York and New Orleans is more than that between London and Constantinople, or Paris and St. Petersburg; over two-fifths of the national territory is drained by the Mississippi and its tributaries; of the 1597 political news papers published in the United States in 1850, 855 were Whig and 742 were Democratic. There are four hundred thousand Indians in our territory; at the close of the Revolution, there were but thirty-six thousand in the old thirteen States, according to an estimate of Gen. Knox; direct and indirect tax paid by each white persons in the country, \$4.24; number of real estate owners 1,500,000, or one in about 319 of the free males over twenty-one years of age; number of Federal office holders (exclusive of army and navy), 35,456, a ninefold increase since 800—the population having increased about fivefold; one-fourth part of all the people reside in villages, towns, and cities; the number of people to a dwelling in New York city averages more than 13, in Boston, nearly 9, in New Orleans 91, in Richmond about 5.

FAMINE AT THE AZORES .- The people of the Azore Islands, particularly the inhabitants of Fayal and Funchal, are reported to be again in the most deplorable condition. Mr Wm. Poole writes to the Journal of Commerce:

"Famine is stalking through their streets, and throughout the Island; and unless speedy assistance is rendered them, it is feared large numbers must

"Our excellent Consul, Mr. Dabney, has done and is doing all in his power to alleviate the sufferings in Fayal, and distribute 100 bushels of corn, beside money every week, from his own private resources, but this reaches but a small number of the suffering. About six weeks since a vessel, grain laden, passed close into Funchal, but as it was blowing a gale at the time it was impossible to board her from small boats. The inhabitants kindled fires on the headlands and did everything in their power to attract the attention of those on board and induce them to run into port; but as the captain of course, was not aware of the wretched condition of the people, and the navigation into the harbor was dangerous, he passed the island without stopping.

THE MORMONS INVITED TO MEXICO .- At the starting of the expedition for Utah, with the certainty that unless the Mormons caved in, the United States troops would force them out of the Territory, in kind consideration for the well-being of the unoffending, many propositions were held out for Brigham's considerations—such as migration to Sonora, Vancouver and Mexico.
