CHARACTER AND REPUTATION.

The following extract from the Address before the Young Ladies of Edgeworth, on the 27th of May last, by Jas. A. Long, Esq., of Greensboro, the best we have ever read on the distinction between character and reputation:

What then is character, and what is reputation? "Character," says Blair, "is derived from the natural sense of a stamp or mark, and is figuratively employed as the moral mark which distinguishes one man from another; reputation, from the latin reputo, to think, signifies what is thought of a person; character lies in the man, it is the mark of what he is; reputation depends upon others, it is what they think of him; character has always a foundation, reputation has more of conjecture in it, its source is hearsay." Character is the moral principle and lies within the man, and is entirely ndependent of others, whereas, reputation is as uncertain and as unstable as the winds, depending entirely upon the breath of the multitude-the multitude, which one day went forth to meet the King of Kings, singing hozannahs, and bearing palms in their hands, and the next day placed a crown of thorns upon his head, crying "away with him, crucify him, crucify him." A man's character may be as bright and as pure as refined gold, as full of promise as the rainbow in the heavens, and yet he be utterly destitute of reputation. No character can ever again be delineated so pure, spotless and lovely as that of our Saviour, and yet he was a man of no reputation, despised among the people. Again a man may fill the mouth of tame, occupy exalted stations, and yet be bankrupt in character, he having, for the purpose of acquiring this reputation, sacrificed every moral principle.

Kings may confer titles, may build up for their favorites a hollow reputation,-deck them with ribbons and stars, and throw around them a tinsel of glittering gold, but to make an honest man, is beyond the pretension, beyond the power of kings.

A HINT FOR THE LADIES.

A WORD TO SOCIETY .- Our young men are a painful study. As they lounge about the street with bold, leering faces, poisoning the air with ouths, or whirl madly along behind lashed horses, er loom up dimly amid the smoky glare of haunts of folly, sin and shame, it is sickening to think that with them rests the future of the country, and "My baby was all that I had left on earth.
