#### PRESIDENT'S MESSAGE.

We publish this interesting document to the exclusion of our usual variety, supposing that all our readers are anxious to see the opinions and recommendations of Mr Buchanan on matters of great importance to the whole country. The Message will be found marked by a freedom of expression and clearness in detail that will command the admiration of every reader. He gives a plain and truthful statement of the Kansas difficulties, by which the correctness of his position favoring the admission of Kansas under the Lecompton constitution is fully vindicated. We very much admire the frankness of the whole message, and hope that our readers will peruse it for their own edification.

the We tender our thanks to Hon, Burton Craige and Hon. D. S. Reid for copies of the President's Message.

Charlotte and South Carolina Railroad Company has declared a semi-annual dividend of 31 per cent. And we learn that the Road is in good repair and fine traveling condition.

COTTON .- 1022 bales of Cotton were sold in this place last week.

SUPREME COURT JUDGE .- It will be seen that Hon Thos. Ruffin, of Alamance, has been chosen to fill the vacancy on the bench of the Supreme Court, occasioned by the death of Chief Justice Nash which we announced last week. It is a little strange that the Legislature should elect Mr cause (as he alleged) he was too old to discharge a mile long. the dutics See letter for vote.

CONGRESS met on the 6th inst. Nothing of importance has been transacted. The bill providing for the construction of what is known as the Pacific Railroad is before both Houses, and a seleet committee has it under consideration.

-At a meeting of the Democratic members of the General Assembly, held in the Commons Hall on Friday night the 2d inst., (John S. Dancy, Esq, of Edgecombe, in the chair, and Edw'd Cantwell and Quent. Busbee acting as Secretaries,) the following rosolution was unanimously adopted :

Resolved, That we have unabated confidence in the Administration of James Buchanan, and tender to him our thanks for his fidelity to the Constitution and the rights of the States.

The above resolution, no doubt, meets the hearty response and approval of a large majority of the people of North Carolina. Not only should it have the approbation of every democrat, but our friends of the opposition, and all true southern men, ought to concur in its sentiments, for no man has ever been truer to the South than James Buchanan. Look at his course on the Kansas question, and read that portion of his Message relating to the same, clerk. The matter was referred to a committee. and say if he is not entitled to the thanks of every southern and States rights man "for his fidelity to the Constitution and the rights of the States.'

WESTERN N. C. RAHLROAD .- By the courtesy of Edw'd Cantwell, Esq., we have been put in possession of the special Reports of the President and Engineers of this Road to Gov. Bragg, and to be 21 years old at the time of their election. nor It will be seen by advertisement that the through our attentive Senator, Mr Davidson, we have the proceedings of the third annual meeting of the Company. From the former we learn a fact rather surprising in this day of false estimates by surveyors of routes for Railroads, viz: that the

----

Road from Salisbury to Statesville, 25 miles, was actually built for \$20,687 less than the estimated

cost-those 25 miles costing \$499,154. The President states that the whole road to Morganton is under contract, and will be finished within 23 miles of that place by the 1st November next, and to that town by the 1st January, 1861. The Road has been located from Morganton to the base of the Blue Ridge, and it is estimated that the moun-Ruffin when he resigned but a short time ago be- tain can be bored through with a tunnel only half that Mr Ellis had received 56,429 votes, and Mr

COAL FIELDS RAILROAD .- The bill to aid this work by an exchange of bonds, was rejected in the Senate on Tuesday last. It seems very strange that while the State has aided other works to the extent of millions and raised taxes to do it, her legislators are not willing to exchange bonds to the amount of a few hundred thousand dollars with a road that would do more to develope the resources of the State than all other roads combined, and tee on Territories. The vote was seventeen to this without the least increase of taxation. And stranger still does this conduct appear when it is remembered that every man who has alluded to the road, (from the candidates for Governor down,) every newspaper in the State that has said anything about it, have all acknowledged that the work should be aided by the State. And still more surprising is the fact that men are found voting against this road who have received, and are now asking for, State aid to build roads through their own sections.

We condense the proceedings of the Legislature since our last as follows:

In the Senate on the 3d inst., Mr Davidson introduced a resolution instructing the committee ou was, on motion of Mr Davidson, laid on the table the Judiciary to inquire into the expediency of till a future day. adding one or more Judges to the Supreme Court | The bill regulating Sheriffs' elections passed its bench. Mr Walkup introduced a bill to authorize the sureties of the Sheriff of Union county to collect arrearages of taxes due said sheriff.

In the Senate on the 4th, Mr Edney offered a resolution to release the Sheriff of Buncombe from the payment of the fine of \$1,000 for failing to scttle in full with the Comptroller-the amount of the deficit being \$50, which was not sent at first in consequence of an error of the county court

In House, Mr Costner, of Lincoln, offered a resolution instructing the committee on the Judiciary to inquire into the expediency of paying witnesses for the time and attendance on trials before Justices of the Peace. Mr Drake offered a resolution mittee on Constitutional Reform directing the same committee to inquire into the expediency of amending the State Constitution so and Junction Railroad, was put on its 2d reading as to require members of the Senate and Commons and rejected-yeas 18, noes 25. In the Senate on the 6th, resolutions submitted by Mr Bledsoe, of Wake, instructing the finance committee to report a revenue bill on the ad valorem principle, caused considerable discussion, and were finally rejected.

In the House, the bill to extend the corporate limits of Statesville passed its third reading. A bill to amend the Revised Code by removing from office any Superior or County Court Clerk or Sheriff who refuses to discharge his duty, passed its second reading.

The two Houses met to-day for the purpose of counting the vote for Governor. It was found McRae 40,046; Ellis' majority 16,383.

Mr Hall of Rowan, introduced a bill to protect sheep from destruction by dogs-taxes the latter. Mr Burke, a bill to open the Catawba river to the passage of fish. A bill to allow one witness to prove Wills and Testaments was rejected.

On the 7th, in the Senate, the Judiciary Committee reported against the passage of the bill proposing to abolish the office of State Geologist. The same committee also reported against increasing the number of Supreme Court Judges.

Mr Edney introduced a bill to amend the char-

## HAWKS' HISTORY.

to the Internal improvement committee.

I have glanced over the 2d Vol. of Dr. Hawks' History of North Carolina, fresh from the press of the Messrs Hale. It imbraces the period of the Proprietary Government, from 1663 to 1729; printed on fine white paper with clear readable type, and bound in a very handsome manner. Surely, no North Carolinian who has any State pride or patriotism, can fail to appreciate the labors of this talented son of Carolina in collecting saving that the speech of that gentleman had fully conand arranging the materials for this valuable work, or the successful efforts of the publishers in placing it so handsomely before the public. It is in every respect an honor to the State, and should therefore find a place in every library, and its contents a storehouse in every mind. With such a book

as this within our reach, ignorance of the history of our own State becomes a crime.

The Legislature is a great institution and some of the members, no doubt, consider themselves great men: but the city of Raleigh is greater than either with its muddy streets and cold-hearted people. Here congregate all the wire pullers and office jobbers in the State, who are ever ready and always willing to turn everything to their own advantage. Some who want to be convenient if there is anything to spare, have located here permanently, and hope to have a finger in directing matters. They will help to swell the list of small pota-In the HOUSE, Mr Ward, introduced a resolu- to and shallow pocket aristocracy, but can't do much there is one thing said to their credit, viz: the whiskeyshop men complain that they are not patronized as liberally as formerly. The reason is, probably, that four BACOT or five of the biggest drinkers made themselves sick of the stuff before they got here, and can't stand so much now. But, really, all behave themselves remarkably well, for which they deserve credit.

Judge Ellis, the Governor elect, was in the city this week, and is looking hearty. He will take his place at In the SENATE, on the 9th, Mr Davidson pre- the head of affairs on the 1st January, and I predict that sented a memorial from the Jews of Mecklenburg, he will make a popular and good Governor, as he is asking a repeal of the clause prohibiting them certainly a high-toned, dignified, social gentleman and a true democrat in principle and practice. On Thursday the Judge left for Newbern.

In the Senate on the first ballot the vote stood Eaton 12; Badger 8; Donnell 7, Holmes of Wilmington 6; Ruffin 5; Rodman 3; Heath 2; Manly 2; Graham 2. The second DOME ballot in the Senate was unanimously for Ruffin.

The resolution declaring E. G. Haywood made a capital speech in defence of his right, although BAGGI a little too bombastic in style. He was replied to by Mr Benbury. The case was postponed till the 15th of ROPE. IRON-January. Mr Reeves of Surry, introduced a bill to establish a new county to be called Dobb'n. The bill prohibiting the circulation of Bank bills of a less denomination than \$3 is to be considered on Thursday. I hope every man who votes for it may be kept at home hereafter.

It provides that upon the petition of any free white citizen, seized of lands, the Court of the county in which the petitioner resides shall summon a Justice and three freeholders, who shall, upon oath, allot a homestead not exceeding fifty acres nor \$300 in value, to be free from execution for any cause of cept a debt for the purchase of said land. THE PACIFIC RAILROAD .- A bill is now before Congress for the construction of the central Pa eifie Railroad. It provides for two branches from the Missouri river; one from opposite Iowa, and the other from opposite Missouri, to form a junction within 200 miles of said river, and thence run to the Sacramento river, in California-a distance of about 1,800 miles. The government is to appropriate to the road alternate sections of land, and let out the whole contract of construction to the lowest bidder, appropriating to the contractors \$12,000 a mile, to be paid back to the government in transportation of mails and military stores. It is said that this plan for the road, beginning as it does outside of all our railroad connections, would be as convenient to the slave States as to the free.

A great Douglass mass meeting was held in New Orleans on the night of the 6th instant. The telegraphic reports state that it was the largest and most enthusiastic ever assembled in that city. Pierre Soule presided, and Senator Douglas all a great deal.

Mr Houston, of Duplin, proceeded to address is still kept in prison. the Senate in favor of the bill, and its claims upon We are in favor of impartial favors by the State the Legislature. After giving a historical sketch Deep River region, he remarked upon the simple and moderate demand now made upon the Legislature. The people of the section of the country through which the road passes, had done all in their power before they asked for aid. They had in the most praiseworthy manner endeavored to help themselves, and he thought the State should now help them. They did not ask for money, Bamberg, G W M Creighton; Allendale, Wm Crook; but merely that the State should exchange bonds Black Swamp, L M Hamer, W W Graham; Prince Wilwith them to the amount of \$600,000-the bonds liams, A P Avant; Savannah River, J D W Crook, F to be safely secured. Mr Houston called upon the to Fayetteville-not to allow the wealth of the Deep River region longer to slumber. He alluded to the efforts made and the services rendered to all cating the good of the State, whilst at the same time, he knew he was striking a blow at his own Fayetteville. Mr Houston then alluded to the manner in which Fayetteville bore herself then and since--seeing her trade diverted, her property destroyed. He also dwelt upon the sums expended on other works throughout the State; to the applications for more aid when the original appropriations were expended; and to the indignation with

which the opponents of those additional sums were assailed, so late as two years ago. Now an application was made in behalf of a work but forty miles long, twelve of which were completed and eight thing at the hands of the Legislature but opposition. He again appealed to the Senate to deal out evenhanded justice. The prospects of this work were bright-the resources of the Deep River region inexhaustible. A national foundry would in all probability be established there. If it should those vast resources-of the general welfare of the old State-would at once be blasted; all our efforts for advancement would prove abortive; all our ex- Rector Cokesbury Institute; J W Wightman, Classical penditures in the geological survey of the State Teacher. would have been thrown away-all, all, would be set at naught.

### To the Public, and Sportsmen in particular.

Having put on my Farm, two miles Northeast of Charlotte, a Flock of Shcep upon which I place considerable value, (there being amongst them some of the best blooded Sheep that I could procure, and which cost me heavily to import into the State,) I am desirons to protect them against the depredations of DOGS, and do hereby give notice, that to do so, I am compelled to regard every person who enters upon my land for the purpose of hunting, or with dogs, as a trespasser, and shall deal with them as the State laws have in such cases provided.

All know that prior to this I have interposed no obection to any one who desired to hunt the hare or bag the birds upon my land, and I hope all will appreciate the motive which induces this prohibitory notice. ] deem it proper to add, that there is a class of wandering Curs and Hounds which seem to take my fields into the route of their daily travels, for whose special benefit I shall provide, and deposit at convenient places, nice lunches of medicated Beef, in order to secure my stock against their violence.
