NEUTRALIZING POISON .- A "general reader" sends the following prescription to the Pittsburg Gazette :

"A poison of any conceivable description and degree of potency, which has been intentionally or accidentally swallowed, may be rendered almost instantly harmless by simply swallowing two gills of sweet oil. An individual with a very strong constitution should take nearly twice the quantity. This oil will most positively neutralize every form of vegetable, animal, or mineral poison with which physicians and chemists are acquainted.

Land for Sale.

A Rare Chance is now offered to buy one of the Handsomest Farms in Western North Carolina. THE subscriber being desirous to remove from the country, offers for sale the PLANTATION on which she now resides, lying 4 miles from Charlotte on the Western Plank Road. The land is now in a high state of cultivation. In the yard is a Well of fine, cool Water. The Plantation has been much improved in the last few years. The Dwelling House and out-buildings are all new. There is also a young Orchard of several hundred fine choice FRUIT TREES on the plantation, bearing this the second year. This Plantation is very healthy, and is beautifully situated, containing 50 Acres, one half of which is cleared.

OLD PERSONS SLEEPING WITH YOUNG .- A

habit which is considerably prevalent in almost every family, of allowing children to sleep with older persons, has ruined the nervous vivacity and physical energy of many a promising child. Those having dear old friends, whose lives they would like to perpetuate at the sacrifice of their innocent offspring, alone should encourage this evil; but every parent who loves his child, and wishes to preserve to him a sound nervous system, with o'clock, when entering the house the lad was seized which to buffet successfully the cares, sorrows and for Eighty Acres each, the first and second issue to labors of life, must see to it, that his nervous vitalipresenting an imposing front immediately in view of soldiers of 1812. Children, compared with adults, are electrically in a positive condition The rapid changes which are going on in their little bodies, abundently generate and as extensively work up vital nerveelectric fluids. But when by contact for long nights with elder and negative persons, the vitalizing electricity of their tender organizations is absorbed, they soon pine, grow pale, languid and dull, while their bed companions feel a corresponding invigoration. King David, the Psalmist, knew the effects of this practice, and when he became old, got certain young persons to sleep with him, that his days might be lengthened. Dr. Hufeland, the German physiologist, attributes the frequent longevity of schoolmasters to their daily last night that Mrs. Trot told her that sister's a sociation with young persons.

A FROG IN THE STOMACH FOR THREE YEARS .----The Baltimore Sun is responsible for the following;

A son of Mr. Charles Davis, residing in Gould's Court, leading from Montgomery near Light street has caused the family great uncasiness for three years past in consequence of his being subject at times, for hours together, to spasms and terrible fits. Physicians were consulted, but all their investigations failed to reveal the causes that produced the malady. Yesterday afternoon, about 3 with the symptoms of his malady, and in a fit of retching, threw up upon the floor a live frog, about two inches in length. The frog hopped gaily about the floor until secured by the family. Instant relief was experienced by the lad. His name is Wm. Davis, and he is about ten years of age. He has no recollection of the time the frog was taken into his stomach, but his father thinks it was swallowed with his drink about three years ago, when he was first afflicted with fits.
