We were somewhat surprised to find the

following article in the "Democratic Press," a paper published at Raleigh : WHAT IS IT TO Us ?-We are frequently twitted by

favors from the hands of our State Executive and we do Those persons seem to think it strange that an position paper, actively engaged in trying to pull lown the Democratic party and build up its own, should find more favor in the eyes of Gov. Ellis than one acnicely engaged in the cause of Democracy; and they try to abate our zeal for Democracy by telling us that we are "working for nothing and finding ourself." Now, in reply to all this, we have simply to say:

those persons who twit us thus are doing worse than working for nothing, if they suppose that our course will be influenced by such a party consideration as the doing of \$15 or \$20 worth of advertising, for Governor Ellis, in the course of a year. We don't expect to recrive our pay from that quarter; that was not in all our calculations. We expect our reward from the great while. high minded, intelligent and independent Democracy, We expect to make a living, and we expect to do it independent of State patronage. Governor Ellis is under no obligation to us, not even for the support we gave him; we are under no obligation to him; and it's nobody's business whether Gov. Ellis sees fit to recognise and patronize our paper, or whether he prefers the Register before us. He is a free man-soure we. Will the above satisfy those who have twitted us?

justice, for its article is calculated to leave the im- of Cuba pression that he patronizes opposition papers to the exclusion of democratic ones. It has been the practice with all the Governors in this State to advertise in both the leading papers at Raleigh, whig and democratic. Gov. Reid and Gov. Bragg always gave the same advertisements to the Register which they gave to the Standard, and we presume they were never blamed by any one for so doing. About the only patronage in the way of advertising which the Governor has to bestow is the publishing of the amounts distributed by the Literary Board among the Common Schools of the State, and none of this kind of advertising has been given out since the "Press" was established. But if any had been given to the Register since the publication of the "Press" was commenced, we think it would have had no just cause of complaint, for it must acknowledge that it is proper to lay uch information before the readers of whig papers as well as before those who patronize democratic papers. Publishing such advertisements in two papers at Raleigh is sufficient for that place, and therefore it is evident that our cotemporary's in-

The "Press" claims to be a democratic paper, and says it will support the nominee of the Democratic Convention, but we must be allowed to say that some of its articles do not seem to have a tendency to promote harmony in the party; and its attack upon Gov. Ellis is not at all calculated to sustain its professions. The editor of the "Press" has had experience enough to know that professions of party attachment are immaterial-if the columns of a newspaper don't clearly indicate its attachment to the democratic party, it is useless for its editor to talk about being a democrat. We don't say that the editor of the "Press" is no demoerat, but we do say that such articles as the above thus circulated through the District. We thought are tending to disorganization and the injury of the democratic party.

of the "Press," and would do nothing to injure pamphlets. the business of his or any other paper, but we must object to its unjust reflections upon Gov. Ellis. Gov. Ellis is well known as a true democrat, and bers of his own party in preference to those of the opposition-such was his duty, his right and his privilege, and we presume no one will blame him for pursuing such a course. If he has given a whig paper a little advertising, he did nothing more than follow the example of his predecessors, and therefore we think it strange that the "Press' should single him out as a mark. The State Treasurer, who is a democrat, frequently gives the Register advertisements of the sale of State bonds, to the exclusion of the "Press." How is it that the "Press" says nothing about being "twitted' with that, and why did it not include Mr Courts in its bill of complaint? It is apparent that the

A BASE SLANDER .- Broderick, one of the U. S. Senators from California, is now stumping that State in opposition to his colleague, Senator Gwin. The Richmond Whig represents Broderick as saying, in a late speech, in regard to the bill to place at the disposal of the President \$30,000,000 to The "Press" has done Gov. S. Senate."

If Mr Broderick used any such language as this he knew very well that he was uttering a base slander against those who favored the Thirty Million Bill. Does any respectable man really believe that James Buchanan, who has spent a long public life without a stain upon his character as an honest citizen, wanted that bill passed so that he might get the money to use as a "corruption fund"? Does any man in North Carolina or anywhere else, who knows L. O'B. Branch, who introduced the Bill into the House and supported it, suppose that he desired its passage in order to get the money so that it could be used for electioneering purposes? Does any opposition paper in this State believe that the Bill was framed and introduced for a corrupt purpose? Broderick may talk in that way, but certainly no one who claims to deal fairly and honestly in politics will endorse it. The President sinuations against Gov. Ellis are unprovoked and and Mr Branch are honest gentlemen, and it is nothing less than vile slander to insinuate that they favored the Thirty Million Bill with corrupt mo-

THIS DISTRICT .- Since the election evidences have transpired showing that the opposition made a desperate effort in this District to defeat the demoeratic candidate for Congress. A friend in Union county has sent us a half sheet of a newspaper headed "North Carolina Argus, Extra," containing all sorts of abuse of the democratic party, in profusion. The style in which a portion of the matter in this "North Carolina Argus. Extra," is printed, shows that it was first printed in pamphlet form, and we suppose the stuff was the regular issue of the Wadesboro Argus, from week to week during the canvass, contained enough We have no unkind feeling towards the Editor of that kind of matter, without issuing extras and

> The Argus took occasion several times, during the canvass, to characterize the statements of the "Western Democrat" and of Mr Craige as "false hoods." We were willing for a time to overlook such coarseness, being anxious for a fair and free discussion, and desirous of treating all our cotemporaries with respect, but we are convinced from the tone of that paper that it does not intend to deal fairly in politics, and shall therefore not hesitate to point out its errors whenever we think proper, whether the editor likes it or not.

Mr Waddell was the worst beat man we ever heard of, and as the Greensboro Patriot gave him some pretty hard licks during the canvass, we suppose he feels rather sore, and hopes to get satisfaction in the way of a law-suit.

Waddell was a whin disorganizer, and of course all the whig papers in the State were against him. If he had been a democratic disorganizer, running against the nominee of his party, the opposition would have been loud in his praise.

A NEW SWINDLING OPERATION .- A fellow. purporting to be from the South, went to Philadelphia and New York professing to want to employ educated voung ladies to come South as school promised to pay half their fare out if they would pay the other half. After collecting \$150 from them, and getting possession of their baggage, he was missing, leaving the ladies at New York hotels without money or baggage. Very fortunately the scamp was afterwards arrested in Washington city and committed to jail to be sent back to New York. It turns out that he is nothing but a laborer in teachers to bring out to the southern States.

Senator Douglas is making speeches Ohio. He is everywhere received by large crowds, and much enthusiasm is manifested. At Columbus on the 7th inst., he repeated his position on non-intervention, and concluded as follows:

"The Democratic party is the only party which recognizes the equality of the States and the right of the people to exercise all rights, privileges, and immunities of self-government. I stand firmly by the Democratic platform of 1856. I want no new planks and no new pillars to strengthen and the Democratic banner. Let the nominee of the Charleston Convention take the same position. Put him on that platform and give him the old Democratic banner, with all its glorious memories clustering around it, and the Democracy will march to a glorious victory in 1860.

We would venture to affirm, that there never was, and never will be, in a country situation, an ignorant family who takes a newspaper, as it is impossible that a family should not become in time well informed, provided they live sufficiently secluded to be thrown upon the paper as a source of amusement. The dullest child who bates a book, will, in rainy weather, steal up to a newspaper, read a marriage notice and an advertisement or two, and put it down. The next time probably he will become bolder and get through a "horrible murder." Soon he will read short tales of fiction; then just before election time he begins to peep into politics; and even to read political speeches. Last of all he attacks foreign news. By this time his curiosity on most subjects is excited, and he is lured on to become a reading and well informed man.
