TAXES.
For Family use, the Eureka Machine possesses the following desirable qualities: 1. It is strongly built, runs lightly, and its movements are simple and easily understood. 2. It works with two threads, using a shuttle, and makes the Lock-Stitch, which is approved for all kinds of work, and for many varieties is the only admissible stitch. 3. While it will sew the tightest possible seam in heavy fabrics, it is susceptible of the most delicate adjustments for use upon light and fragile material; hence it is peculiarly fitted to perform the almost endless variety of work which comes within the range of family sewing. 4. In addition to the admitted advantages peculiar to Shuttle Machines, it is so constructed that it can be run at a very high rate of speed without damage. 5. It uses any kind of thread, making a uniform stitch, and presenting the same general appearance on both sides of the material sewed.
Opinions of the Press.—The ease with which it is worked, the little trouble in keeping it in running order—no disturbance of a bolt or screw necessary—explains the secret of its universal popularity.—N. Y. Day Book.
The simplicity of these machines make them exceedingly desirable for family use.—Ladies' Visitor.
It ranks high in the market, and is preferred over all others for its durability and simplicity.—N. Y. News.

TO ANGYLINE.
I dearly luv the singin' burd,
An' little buzzin' B;
But deerer far than all the world
Is thy sweet voice to me.
O, very deep is daddy's well,
And deeper is the sea—
But deepest in my buzzin' is
The luv I bare to thee.
Then smile on me dear Angyline,
To make my hart feel lite,
Chain the big dog, an' I will cum,
A courtin' Sunday nite.
