A Cleveland (Ohio) paper gives the following account of the way in which a gambler cheated serve the attachment, and in the course of his re-

searches made some rich discoveries: The rooms occupied by Conlisk are on the third floor of a large building, and consist of a sittingroom where the gainbling was done, and a bed room The sitting room was furnished in the usual manner, and had a faro-table near the window, and a draw-poker table in the centre of the room, with chairs placed to each. The walls and ceiling of the room are papered with white paper of star pattern.

Directly over the room are two small rooms, also occupied by Conlisk, but not furnished. A portion of the floor has been removed in the room immediately over the gambling room, and a small hole bored through the ceiling of the room below and above each of the tables. As the holes came directly through the star pattern in the paper they are scarcely distinguishable from below. Each hole is so placed as to enable a person applying his eye to it, to look directly in the hand of the player seated in the chair below.

There it terminates in a spring and hammer concealed by the Headquarters Department of N. C.,

The method of working this invention for rob-Ling by machinery seems to have been as follows: The victim to be operated upon finds two chairs drawn up to the table. In one of these the gambling thief seats himself at once, placing his foot over the telegraph hammer. The victim is obliged to take the other, which is placed in the proper position for playing. The gambler's accomplice in the room above stretches himself on a matrass, with his eye at the peep hole-and one hand grasping the telegraph handle. The hole is so placed that he can look directly down into the Jefferson Davis of Mississippi, President.

As soon as he sees the cards he telegraphs their tion is by pulling the handle, when the hammer strikes the number of raps on the sole of the gambler's boot or slipper, the sound being muffled by the carpet. Of course it is easy to see that the men who sits down to play with such a gambler is J. H. Hepatic Pills.

This combination of medicines was first prepared by the proprietor in 1825, when he was pronounced by three eminent physicians in a Southern city as in an advanced stage of Consamption. These pills cured him. He is now over seventy years of age and in discharge of active professional daties. Their good effects upon others created such a demand for them that he was compelled to desist from supplying them gratu-

itously. They are NOT recommended by the proprietor as good for all diseases, but only such as arises from DISORDERS OF THE LIVER. Many persons have testified to their good effects in Chills and Fevers, Bilous Fever, Yellow Fever, Pneumonia, Dyspepsia, &c., &c. They are an excellent FAMILY MEDICINE.

Read the following: S. D. WALLACE, Esq., Treasurer of the Wilmington and Weldon Rail Road, (Aug. 30, 1862,) says: "It has been said that "Dyspersia" is our national disease. However this may be, it caused me long and severe suffering. Providentially a friend furnished me with a few boxes of the "Hepatic Pills," and the use of them has perfected a cure. In my family they have been used frequently with eminent success. Among my acquaintances, many cases originating from diseased iver, have been relieved and cured by them. I regard

hem as an invaluable medicine, and take pleasure in orwarding this voluntary tribute." COL. JOHN WRIGHT, of Goldsboro', N. C., (Aug. 14, 862,) says: "I have used the 'Southern Hepatic Pills' in my family here and also on my plantation in Alabama, and always with success. I have a valuable servant girl who had been a long time under treatment for consumption, without receiving any benefit. Almost in her extremity I was induced to try the 'Hepatic Pills.' They were given according to directions, and she is now well, entirely restored by them. A similar case occurred among my servants in Alabama. For liver and lung diseases I have perfect confidence in

Full directions and other certificates will be found on the wrapper of each box. The great rise in the price of medicines, compels the proprietor to put these pills at 50 cents a box. As it may soon not be possible to procure all the ingredients, it would be well for the afflicted to order them at
