ANNUAL CASH DIVIDENDS.

At the request of their numerous Policy-holders, this Society have determined to declare their dividends annually in each. The first dividend will be declared Feb 1, 1867. The last dividend declared on the aninonennial plan reduced the premiums in some cases more than 50 per cent, or doubled the Policy during the next dividend period. It is believed for the future that no company in this country will be able to present greater advantages in its dividends to persons assuring than this Society, as total expenditure to cash premium received was, by the last New York Insurance Report, less than that of any of the older American Life Insurance

The officers of this society desire to present to the public for their consideration five modes of dividing surplus premiums or profits, some of which were never before granted to Policy-holder's by any Life Company, and present advantages obvious to all: 1st. The dividends may be applied to the purchase of additional assurance for a term of years. 2d. Dividends may be applied to reduce the premium coming dut next. At the last dividend, upon a similar plan, premiums were reduced one-half up-

MANUFACTURED BY W. G. CLEMONS, BROWN & CO.,

COLUMBUS, GA.

We have resumed the manufacture of Cotton Gins in this city, and will be prepared to fill orders by 1st June next. As we shall not be, as heretofore, represented by traveling agents, parties wishing our

Gins, will confer a favor by sending in their orders at an early day. As owing to the demand, we shall be unable to keep a stock in the hands of our local agents, as it was our practice before the war. All business transactions being now reduced to cash, our sales will be made on the basis of ready pay. Our Gins are too well known to require any special notice or commendation; we believe they ar.

unrivalled in points of excellence which go to make up a superior machine, namely: Speed, light draught and good sample. Our DOUBLE-CYLINDER GINS will be found

suberior to the single cylinder, when parties have steam or good water power, to give them the necessary speed. In all cases when this can be done, we recommend them in preference to the single cylinder. If, however, indifferent or insufficient power is used, they will not do as well as the single Gin. Messrs. THE LAST BATTLE, WOUNDING AND DEATH OF STONEWALL JACKSON

The following authentic and deeply interesting account of the wounding and death of the great Confederate chieftain Stonewall Jackson, is taken from the May number of the Richmond Medical Journal. No one will regret the space it occupies in our columns. The battle of Chancellorsville was fought on the 2d and 3d of May, 1863. It was on the night of the 2d that the dreadful accident (General J. having received his wounds at the hands of his own men) occurred, which was the turning point in the fortunes of the Confederacy. We append Place to warrant an examination. At two tor, were turned over to the Surgeon next in no pain to day and his breathing was less diffi-

Last Wound of the late Gen. Jackson-The Amputation of the Arm-His last Moments and Death .- By Hunter McGuire, M. D., Professor of Surgery in the Medical College of Virginia, and late Medical Director of General Jackson's Command.

Supported upon either side by his aids, Captains James Smith and Joseph Morrison, the General moved slowly and painfully towards the rear. Occasionally resting for a moment, to shake off the exhaustion which pain and the loss of blood produced, he at last reached the line down, to escape the shell and canister with which the Federals raked the road. General Pender rode up here to the little party and asked who was wounded, and Captain Smith, who had been instructed by General Jackson to tell no one of his injury, simply said "a Confederate officer;" but Pender recognized the General, and springing from his horse, burriedly expressed ken he feared it would be necessary to fall shricks of shell and the whistling of bullets; horses riderless and mad with fright, dashed in every direction; hundreds left the ranks and fled to the rear, and the groans of the wounded and dying mingled with the wild shouts of others to be led again to the assault. Almost fainting as he was, from loss of blood, fearfully wounded, and as he thought, dying, Jackson

was undismayed by this terrible scene. The words of Pender seemed to rouse him to life. Pushing aside the men who supported him, he streethed himself to his full height, and answered feebly, but distinctly enough to be heard above the din of battle, "General Pender, you must hold on to the field, you must hold out to the last." It was Jackson's last order upon the field of battle. Still more exhausted by this effort, he asked to be permitted to de down for a few moments, but the danger from the fire, and capture by the Federal advance, was too imminent, and his aids hurried him on. A litter having been obtained, he was placed upon it, and the bearers passed on as rapidly as the the thick woods and rough ground permitted Unfortunately, another one of the bearers was struck down, and the litter, having been supported at each of the four corners by a man, tell and threw the General to the ground. The fall was a serious one, and as he touched the

earth, he gave, for the first time, expression to his suffering, and groaned piteously. Captain Smith sprang to his side, and as he raised his head, a bright beam of moohlight made its way through the thick foliage, and rested upon the pale face of the poor sufferer. The Captain was startled by its great pallor and stillness, and cried out, "Oh! General, are you seriously hurt?" "No," he answered, "don't trouble yourself, my friend, about me," and presently added something about winning the battle first, and attending to the wounded afterwards. He was placed upon the litter again, and carried a few hundred yards, when I met him with an ambulance. I knelt down by him, and said, "I hope you are not badly hurt, Geaeral" He replied, very calmly but feebly, "I am badly injured, Doctor; I fear I am dying After a pause he continued, "I am glad you have come. I think the wound in my shoulder is still bleeding." His clothes were saturated with blood, and hæmorrhage was still going on from the wound. Compression of the artery with the finger arrested it, until lights being procured from the ambulance, the handkerchief which had slipped a little, was readjusted His calmness amid the dangers which surrounded him, and at the supposed presence of death, and his uniform politeness, which did not forsake him, even under these, the most trying circumstances, were remarkable. His complete control, too, over his mind, enfeebled as it was, by less of blood, pain, &c., was wonderful. His suffering at this time was intense; his hands were cold; his skin clammy, his face pale, and his lips compressed and bloodless; not a groan escaped him-not a sign of suffering, except the slight corrugation of his brow, the fixed rigid face, and the thin lips, so tightly compressed, that the impression of the teeth could be seen through them. Except these, he controlled, by his iron will, all evidence of emotion, and more difficult than this even, he controlled that disposition to restlessness, which many of us have observed upon the field of battle, attending great loss of blood. Some whiskey and morphia were procured from Dr. Straith, and administered to him, and placing him in the Infirmary, at the Wilderness Tavern. Crutchfield, his Chief of Artillery, was also in the ambulance wagon. He had been wounded very seriously in the leg, and was suffering in-

The General expressed, very feelingly, his sympathy for Crutchfield, and once, when the latter groaned aloud, he directed the ambulance to stop, and requested me to see if something could not be done for his relief. Torches had been provided, and every means taken to carry them to the hospital, as safely and easily as pulling me down to him, asked if Crutchfield were sent to this point. The General objected wounds were again dressed, and although the glad it is no worse." In a few moments after, to staying in a tent, and would prefer it, if his on. Presently, a smile of ineffable sweetness spread itself over his pale face, and he said quietly, and with an expression as of relief, "Let us cross over the river and rest under the shade of the trees;" and then, without pain or the least struggle, his spirit passed from

SENSIBLE DECISIONS .- Judge Hoar, of the Supreme Court of Massachusetts, has decided that legal instruments-wills, deeds, bonds, Lee should give the praise to God." About At my request, Dr. Morrison came to-day and notes, &c ,- are volid, though without a revenue stamp He held it to be clear that a statute of the United States, undertaking to invalidate an instrument which, by the laws of the State, is valid, would be unconstitutional. Congress may impose a penalty for the evasion of its revenue laws, such as double tax, &c., but cannotinterfere with the validity of a contract.

> NEW ORLEANS, May 10 -Judge Abell, of the First District Court, decided the civil rights bill to be unconstitutional and not binding.

> A negro woman employed on the plantation cently turned up missing, and upon searching her residence the corpses of her aged mother turned over to the Freedmen's Bureau. She said she was tired of supporting the brats; and had taken this means of getting rid of them.

[Negro babies are hard to find, now.]
