THE MYSTERIOUS BOURNE. There is a time we know not when, A point we know not where, That marks the destiny of men,

To glory or despair. There is a line by us unseen, That crosses every path, The hidden boundary between

God's patience, and his wrath. To pass that limit is to die, To die as if by stealth,

It does not quench the beaming eyes, Or pale the glow of health. The conscience may be still at ease. The spirit light and gay,

That which is pleasing still may please, And care be thrust away. But on that forehead God bath set

Indelibly, a mark, Upseen by man, for man as yet Is blind and in the dark. He little dreams of coming woe,

His soul's to pleasure toned,

He does not, cannot, will not know, Or feel that he is doomed. He knows, he feels, that all is well; And every fear is calm. He lives, he dies, he wakes in hell,

Not only doomed but damned.

Where is this mysterious bourne? By which our line is crossed, Beyond which God himself hath sworn, That he who goes is lost.

How long may we go on in sin? Where does hope end, and where Do the dark hidden bounds begin? The confines of despair.

An answer from the skies is sent, Ye that from God depart, While it is called to-day repent, And harden not your heart.

SHARON ACADEMY.

MECKLENBURG COUNTY, N. C. The next session of this School, for Boys and Young Men, will open the first Monday in September. Terms per Session of Five Months: English Branches, - - \$10 00

Board can be had in good families in the neighborhood at \$10 per month. H. K. REID, Principal. Aug 6, 1866-1m

THE EQUITABLE LIFE ASSURANCE SOCIETY

March 12, 1866

OF THE UNITED STATES. Accumulated Fund \$2,000,000 -- Annual In-

come \$1,000,000. PURELY MUTUAL

ANNUAL CASH DIVIDENDS. At the request of their numerous Policy-holders, this Society have determined to declare their dividends annually in cash. The first dividend will be declared Feb 1, 1867. The last dividend declared on the quinquennial plan reduced the premiums in some cases more than 50 per cent, or doubled the Policy during the next dividend period. It is believed for the future that no company in this country will be able to present greater advantages in its dividends to persons assuring than this Society, as total expenditure to cash premium received was, arrive at Raleigh 3 15 P M | by the last New York Insurance Report, less than that of any of the older American Life Insurance

companies. The officers of this society desire to present to the public for their consideration five modes of dividing surplus premiums or profits, some of which were never before granted to Policy-holders by any

Life Company, and present advantages obvious to all: 1st. The dividends may be applied to the purchase of additional assurance for a term of years. 2d. Dividends may be applied to reduce the premium coming due next. At the last dividend, upon a similar plan, premiums were reduced one-half up-

on some policies. 3d. The dividend may be applied to provide for the payment of premiums at the latter end of life, so that the assured may be guaranteed against further payments on attaining a certain age, each successive dividend gradually reducing the time during which the premiums must continue to be paid, so that at last, with the same success as heretofore, a paid up policy will be secured by quite a moderate number of premiums. To illustrate-A man assuring at 25 years old would, on the basis of our last dividend, be secured by this application of dividend against any payment after 45-and probably at an earlier age-and thereafter receive an annual divi-

4th. Dividends may be applied to the purchase of a certain addition to the policy, payable with it. 5th. Dividends may be applied to the reduction of

Hereafter dividends on the first annual premium may be used as cash in the payment of the second annual premium, and so on thereafter, the dividend on each premium may be applied to the payment of the next succeeding premium. Policy-holders in most other comment of the next succeeding premium. most other companies must wait four or five years before any advantage can be derived from dividends.
