REVIVING THEIR SOCIETIES .- Several of the Counties are reviving their County Agricultural Societies. Is it not time Mecklenburg, the leader in enterprise and public spirit, should be moving? Our County society should not be permitted to die out. We know that the agricultural interest is languishing under the difficulties by which it is surrounded-but should we quietly fold our hands and let the weeds grow? In times before the war our Fairs attracted a good deal of attention, and many pleasant re-unions were enjoyed. Let us restore those good old days, as far as we can, by reviving as much of the past as our good friends the "Yanks" have left us the means to do so with. Our land is still here, as fertile as ever -and our energy and brains can still be employed in their cultivation and beautification. All will disfranchise the white man and allow the negro and our country garrisoned and plundered by admit that the Society, with its fairs, did goodand it will do so again. We heartily join the Times in calling for a revival of the Mecklenburg Agricultural Society. We hope the Executive Committee will meet this week and take steps to re-organize the Society. If the proper exertions were made, we think the authorities at Washington would give the Society all the remaining hospital buildings on the Fair Grounds unsold. IT A friend in Rockingham county, in a business letter to us, speaks in the most cheering terms of the tobacco crop of that county. He is a large planter himself, and says that he has never had a better crop of tobacco.

TEXAS LAND AGENCY .- We direct attention to the card of W. L. Alexander offering his services as Agent in Texas to purchase or sell land

in Texas. Mr Alexander was an officer in the vate letters that we receive either approving or late Confederate Navy, is a native of North Caroreferring to our course as a public journalist, but lina, and we feel justified in saying that whatever business may be entrusted to him will be well done.

> REVIVAL .- We are informed that a great revival of religion has taken place at Big Steel Creek Church in this county, under the preaching of the Rev. Dr. Nall of Alabama. Much good has been accomplished. For the last few evenings Dr. Nall has been preaching at the Presbyterian Church in this

place. We see that our friend, D. A. Covington, Esq., has announced himself a candidate for re-

election to the Senate from Anson and Union counties. In his card, which we find published in the Wadesboro Argus, he unintentionally makes a mistake in his allusion to the proposed Constitutional amendment. He says:

"If elected, I will never so far degrade mysel and my constituents as to favor, in any manner, the proposed amendment to the Constitution of the United States, known as the Howard amendment, which disfranchises the white man and allows the negro to vote-or, in other words, degrades the white race to the level of the black."

Mr Covington is altogether in error in his construction of the Howard amendment. It does not to vote. It prevents certain persons from holding office, but does not prevent them from voting. The question of who shall vote is left with the

Mr Covington made a good representative-we have not a word to say against his re-electionwe merely call his attention to the erroneous statement.

He visited the residence of an aged Presbyterian minister there, and stole, among other things, the old preacher's black broadcloth coat, and now, almost every Sabbath when there is preaching, the thief sits in the congregation with the old parson's coat on his back! wearing it with the complacency of one who felt that he was possessor by divine right. tion ? We think not .- Raleigh Sentinel.

If Gen. Dockery occupies the position that we

do. we beg permission to modestly say that Gen.

Dockery is right. But in forming an opinion as

to the right course to pursue, we do not take into

consideration Gen. Dockery's or any other man's

position-we look at the situation as it is, and

calculate what may happen hereafter; and after

mature reflection we repeat that, if the President

fails in the Northern elections to secure power

sufficient to maintain or enforce his policy, we

would prefer the adoption of the proposed amend-

ment rather than run the risk of being left to the

mercy of the next Congress, and having confisca-

tion enforced, a provisional Governor appointed.

We do not intend to quarrel with any one

about this matter. We are a friend of the Pres-

ident's policy-we have done all in our power to

strengthen that policy-but suppose we cannot

get what we want, what then ? Is it not our duty

to accept of the least of two evils ? We are a

conquered people, and our conquerors have it in

their power, if we do not accept of the proposed

amendment, to compel us to submit to Mr Thad.

Stevens' scheme of confiscation, negro voting.

&c., which will not only degrade but ruin every

man. black and white, in the South.

No one ought to proclaim. as some candidates are now doing, that he will never consent to the adoption of the proposed amendment. We are not aware that Gov. Worth has expressly said he will not, under any circumstances, agree to the amendment. We hope he will not say so, and we beg him and all others to reflect on the matter and not make pledges that they may hereafter find impossible to maintain without bringing complete ruin upon the State.

We do not like the amendment, but if we can liation. The Sentinel says no such person has in contact with the white man. No people indo no better, we would advise its adoption .-While we do not propose to discuss its merits, we will make a short reply to the following questions of the Raleigh Sentinel :

"Where is it said in that amendment, that if the Southern States will adopt it, that that will settle all disputes and bring about reconciliation? Where is it so declared in the action of Congress? What prominent man in the Republican party has said anything like it ? \* \* \* \* Does the Tribune, or the Times, or Forney's Chronicle, say so ? Not a word of it. Does any Senator or Representative say so, who voted for the Howard amendment ? Who is he ? Where is it so said? Not one."

In reply to the above, we copy the following extract from an Address to the American people recently issued by Horace Greely, Editor of the N. Y. Tribune, and 16 others who speak for the radical party :

"That plan [the Constitutional amendment] has been matured. It has passed the Senate by 33 to 11, and the House by 138 to 36. It is now fairly before the country, having already been ratified by the Legislatures of several States and rejected by none. Under it, the State of Tennessee has been formally restored to all the privileges she forfeited by rebellion, including representation in either House of Congress. And the door thus passed through stands invitingly open to all who still linger without."

So the Sentinel will see that the Tribune and several prominent men of the Republican party declare that the adoption of the amendment will bring about reconciliation.

LETTER FROM MRS. DAVIS .- The Charleston eral Government to continue for any length of Courier. of September 28, says:

"From a private letter which we have received from the estimable wife of the distinguished prisoner at Fortress Monroe, we learn with inexpressible regret that his health continues to decline. and that the pecuniary circumstances of his famiknown to Mrs. Davis of the probable future of her husband, and we confess we see little encouragement to hope for his early release."

We are surprised and regret to learn that Mr Davis' pecuniary circumstances are embarrassing for we had been informed that liberal donations had been offered him. We know that he lost a large fortune by the war, and was left almost penniless, but it has been reported that all the wants of his family have been abundantly supplied.

IF The Raleigh Sentinel asks what prominent man in the Republican party has said that if the Southern States adopt the Howard amendment it will settle all disputes and bring about reconcil-

made any such promise or pledge, and neither has the New York Tribune.

The Sentinel is mistaken, and we copy the following extract from the New York Tribune, (a radical paper.) of the 28th Sept., to prove it .-The Tribune, in a lengthy article, shows that it was not satisfied with the Amendment, because it preferred something harsher and more degrading for the South. but says :

"Our recent State Convention. in its Platform Committee, voted down our distinct affirmation of Jefferson's doctrine that "every one who fights or pays" should be invested with the Right of Suffrage, and declared instead [over our vote also] that any State now unrepresented in Congress which shall ratify the Amendment shall thereupon be admitted to representation in accordance with the provisions of that amendment. This, therefore, we understand to be the position of the Republican Union party of our State-that every State lately in rebellion which shall, with reason- to Gen. Hillyer of New York : able promptitude and in hearty good faith, accept and ratify that amendment, shall thereupon be entitled to immediate representation in Congress in accordance with its provisions. And, as we believe we can do more for the cause of Impartial Freedom by acting with that party than by bolting from and butting against it, we hold ourselves bound to conform in our action to its professions and virtual pledges. If any of the outlying States shall, during the lifetime of the present Congress, ratify the Amendment as aforesaid, we shall feel bound to advocate the admission thereupon of their loyal representatives to seats in Congress. As to those which shall see fit to stand out beyond the 4th of March next, we shall feel at liberty to act according to the circumstances then existing, and to the riper and clearer convictions

which we trust the loyal States and People will meanwhile have attained."

the amendment will bring about "reconciliation." But we want the Sentinel to understand that we are not advocating, at present, the adoption of
