SAD OCCURRENCE -On Wednesday the sixth of April, Miss Celia Roberts, a young lady living with Lewis Parmer, Esq., on Gabrielle's Creek. Madison county, left home in the afternoon to visit a neighbor. At nightfall she had not returned, and the family becoming alarmed, search was instituted, but without success until Thursday evening, when the lifeless body of the unfortunate girl was found floating in a fish trap in Ivy River. In her pocket was found an empty vial which had contained Landanum. Miss Roberts had been known to purchase the laudanum a few weeks previous, and the circumstance indicates that she deliberately put an end to her existence by drinking the fatal draught, and then precipitating herself into the River. Mr. Davis and Senator Cameron.

The following letter from Hon. Jefferson Davis has been received by a prominent citizen of Philadelphia in denial of the statement made by Senator Cameron to the effect that he had said to Mr Davis that his seat in the Senate would be filled by a colored man :

MEMPHIS, TENN., March 23, 1870. My Dear Sir: Yours of the 2d inst. reached delay of this reply. Senator Cameron made no such statement as that quoted by you. He made no remarks to me at the time of my withdrawal from the Senate other than the expression of his good wishes for me. His relations with me had been uniformly those of personal kindness, and I have expected him, as a duty to himself and to truth, to deny having made such remarks as have been imputed in the news-

Men had not then reached the degree stultification which caused the withdrawal of States from the Union to be called "rebellion," and the only remark so far as I know, made by any Senator, which had the least practical bearing, was the expression of Mr Hale, of New Hampshire, that he expected us all soon to come

Very respectfully and truly yours, JEFFERSON DAVIS Congress - The Georgia Bill.

The Senate worked hard all day Tuesday and amendment, declaring Georgis again the Third visional, and providing for an election in November next, was inserted. This is a defeat of the Bullock party, but at the same time it is a severe blow to the hopes of the nation that reconstruction had come to an end. The House postponed action on the Georgia bill till 5th May.

The House seems to engage in nothing but contested election and tariff discussions. The abolishing the income tax. contested election cases of course go one way. The majority usually make a great show of impartial justice in allowing the weaker side to discuss the matter, but they never so far commit themselves as to admit a democratic contestant no matter how the evidence tends. The case For the benefit of the Sheriffs of the now under consideration is that of Sypher, of in the election resulted in 4,280 for Sypher, republican, and 18,679 for St Martin, democrat; ment. Other witnesses have been subpænsed. but the Governor of Louisiana struck out fourteen thousand of St. Martiu's votes and two thousand of Sypher's, on the ground of fraud, leaving St. Martin still ahead by nearly two thousaud votes. This is the insignificant discrepancy that republican ingenuity in Congress is now called upon to obviate, and it is ingenious or shameless enough to do it. Sypher himself is naught, but his politics is equal to even greater emergencies than this. The Tariff bill is the making 38 States. subject of a great deal of light and airy talk. We desire to call attention to the following conflicting sections in the "Act to provide for the Collection of Taxes," passed at the recent session of the Legislature, to show how utterly impossible it is for the people or the officers to comply with the law. Our legislators were so much engaged in defrauding the State by huge railroad appropriations, in purchasing penitentiary lands, and in securing charters, and in the passage of acts for personal ends, that questions of real importance were eadly neglected.

Section 25 of the act says "All taxes shall be due on the first day of July in each year." Section 27 reads "Whenever the taxes shall be due and uppaid, the Sheriff shall immediately proceed to collect them as follows." Here follows the usual authority to seize and sell property. Now see the provisions of this same act looking to a compliance with the foregoing sections:

Section 20. The County Commissioners shall became useful to their employers, in fact, fixtures cause to be made out two copies of the tax lists who could be illy spared, and in due course of of each township, as revised and settled by them, according to a form to be furnished to them by the Auditor of the State. Such form shall show in different columns the amount due by each tax payer to the State and to the county; one of said copies shall remain in the office of the Clerk of the Commissioners, the other shall be delivered to the Sheriff on or before the sec ad Monday in

July in each year, &c. Section 26. In of which tweive days notice shall be given by advertisement at three or more public places in the township.

> It is hard to reconcile these conflicting sections, and the evident want of attention to such important matters is a serious reflection upon the members of the Legisla u e.

The Church and State Trouble in Spain. Our latest news from Spain shows that the situation is becoming more and more sharply defined as between Church and State. It is well known that the bishops have not yet accepted the facts of the revolution, and that this fact has given birth to one of the liveliest questions of the hour in the Peninsula. Rome has had to take the matter into consideration. Rome is, of course, against the revolution. It is only a few days since the Spanish bishops received instructions from Rome for bidding them to sign the new constitution. Later we have learned that Prim has issued orders to the effect that within a given time the bishops must decide finally "yea" or "nay," the government reserving to itself the right to deal with the malcontents as it may think fit. A despatch of a still later date has it that the republicans of Spain, now a powerful party, are on the side of Frim in this matter. They insist on the separation of Church and State and advise the government to deport to Rome all priests and bishops who prove refactory. This the agents in Charlotte for the Equitable. we think, is sound and sensible advice, and we Spain, above all countries on the face of the earth, the priests and bishops are stumbling at blocks in the pathway of progress. With the republicans at their back, Serrano and Prim, commanding as they do the unionists and the progresistas, can have no difficulty in sweeping aside those clerical barriers. Send them to Rome, say we. So long as the French troops remain there the bishops will be safe; and when the French troops shall be recalled and Victor Emanuel or Mazzini shall be master of the capital of the Cæsars, neither Spain nor any other Power shall have much further trouble with priesteratt. Meanwhile Spain cannot do better than send the priests and bishops to Rome. - N. Y Herald

whenever an enterprise or under the direction of men of fair ability and skill in the particular department they are called to take in charge, we invariably look for the same or a similar never absent, when marked and unusual success is attained, is the possession, by those who conduct the enterprise, of a remarkable degree of perseverance and pertinacity which they make use of in pushing the business under their charge. We are greater believers in the efficacy of indomitable perseverance than in the power of so-called genius; and much of City of Charlotte, on Tuesday the 24th day of May, merely the natural result of years of patient and uninterrupted toil. Men are too often discouraged at the threshold of success. We have seen remarkable instances of the quality which we may call perseverance not overcome by difficulties. Almost every sold subject to the widow's dower. one who reads these lines can recall enterprises which have been made successful only by the indomitable perseverance of its proprietors.

This subject has been forcibly brought before our mind by the examination of a chart, prepared by the editor of one of our leading insurance papers, exhibiting a synopsis of the business of all the life insurance companies during the year 1869, compiled from their official returns to the New York Insurance Department. Our attention has been more particularly drawn to the Equitable Life Assurance Society of the United States, now the foremost life assurance company in the country. There are about one hundred and fifty corporations engaged in the business of assuring lives, in the United States, and we have been interested in observing the steady progresswhich has been made by the company in question to the leading place among them all. During the first year of this company, in 1860, it was the 9th, in point of annual new business, among the whole; in 1861 it was the 8th; in 1862 and 1868 it was the 7th; in 1864 and 1865 it was the 6th; in 1866 it was the 4th; in 1867 lit was the 3d; in 1868 it was the 2d; in 1869 it was the FIRST, having in that year done more business than any life insurance company in the world, and twelve millions of dollars more than the company next in the scale. Such uninterrupted progress and such marked popularity are the best evidences that there are essential characteristics which deservedly commend the company to the patronage of the public.
