CHARLOTTE:

SATURDAY, OCTOBER 5, 1833.

The Health of Charlotte.—We are informed that a report has been put in circulation that Charlotte is very unhealthy, and that 4 or 5 die weekly. We are glad to be able to contradict this report and say that the citizens of this place have not enjoyed better health for several years. It is true, that we have had one or two sudden deaths and some sickness, but at this time there is not a case of fever to our knowledge in the town.

We have received a lengthy article published by the President of the United States, which contains his reasons for withdrawing the Public Deposits from the Bank of the United States. We shall publish it in our next number.

Gen. Jackson's reasons for removing the deposits were received in New York on the morning of the 24th, after which United States Bank Stock rose 1 1/2 per cent. On the previous day, the Stock had fallen about two per cent. At the latest date, Wednesday last, considerable sales were made at from 108 to 109.—Fayetteville Observer.

From the Globe of September 24. APPOINTMENT BY THE PRESIDENT. R. B. Taney, Esq. was yesterday appointed Secretary of the Treasury of the U. S. On accepting this appointment, Mr. Taney resigned the office of Attorney General.

No mention is made of Mr. Donne. It is to be presumed, from this silence, that he refused to issue the order for the removal of the Deposites, and that he was therefore removed. If he had resigned, it would no doubt have been stated.

Supreme Court.—We learn with infinite satisfaction, that Mr. GASTON, yielding to the pressing solicitations of his friends, has consented that his name shall be presented to the next Legislature, as a candidate for Judge of the Supreme Court, to fill the vacancy occasioned by the death of Chief Justice HENDERSON.—Raleigh Register.

More Forgery.—The New York Daily Advertiser says:—A very extensive fraud has recently been discovered in this city whereby large sums have been obtained from the department at Washington, by means of forged Pension Certificates. As the subject is undergoing an investigation, it will be improper to state the case more fully at present. A person very respectably connected is supposed to be the individual who has been the author of the fraud. The whole subject will shortly be made public.

Another Forgery.—A draft signed by the Cashier of the National Bank of New York, altered from either sixty or six hundred to six thousand dollars, was presented at the Western Bank of Philadelphia, on Wednesday, and paid. The deception was detected the next day. The draft was in favour of Thomas Townsend, the letters of which comprise all the letters formed by the alteration. A portion of the original writing was removed by chemical process, and the new letters formed were made in ink of a paler cast, as the alteration is plainly perceptible on the draft. A reward of five hundred dollars has been offered by the Western Bank, for the detection of the rogue.

There is at present, in this City, a Rattlesnake and a Mouse, tenants of the same cage, who live together on the most friendly and familiar footing. The Mouse frequently mounts on the back of the Snake, where he will remain for a considerable length of time amusing the spectators by his antics, without seeming to disturb in the slightest degree, the equanimity of his Snakeship.

The Columbus (Ohio) State Journal of the 14th ult. mentions that the Cholera still lingers in that place, and that, too, without much evident abatement. During the week ending on that day, there had been nineteen deaths from all diseases, thirteen of which were from cholera. It is worthy of remark (says the Journal) that the convicts in the Penitentiary, about two hundred in number, continue to be totally free from the disease. The inmates are said to be fed exclusively on bread and salt meat.

Old Ironsides.—Last week, a piece of timber was taken from the frigate Constitution, now under repair in the dry dock at the Navy Yard Charleston, which was only 9 feet long, 27 inches wide, and 14 inches thick, and weighed 1460 pounds. On breaking up this piece of timber, there was found in it 364 lbs of iron, and 163 lbs of copper, making 527 lbs of metal—more than a third of its weight.—Phila. Intell.

A gentleman of Indiana who visited the Hermitage lately, writes from Nashville that Gen. Jackson has prepared a marble slab, symmetrical with that over the grave of his wife, which is to mark the spot where his remains are to be deposited when his spirit shall take its departure. The writer says: "My foot rests on the slab that will cover him. I lean on the pyramid where thousands will lean hereafter, and while they read the inscription on his tomb, will endeavor to recall the moment now passing. Here they will think of the fetes, processions, and eulogies, made in his honor, and will wonder that one who occupied so large a space in the eyes of the world, should be shrunk into a compass so narrow."

There was a great fire in Dublin on the night of the 9th of August. The great bonded sugar and spirit Stores, belonging to the Custom House, were consumed, having 3000 hogheads of sugar and about 1000 puncheons of spirits, together with wine, oil, and tallow, to a considerable amount. All the sugar and tallow, were consumed—the principal part of the spirits were saved. The damage is estimated at about 2,000,000.

To Ascertain the Height of a Steeple, Tower, &c.—Take two sticks of any but equal length, and, holding one perpendicular, place one end of the other against its centre, so as to form a right angle with it: having done this place your eye at the other end, and advance towards, or recede from the object the height of which you wish to ascertain, until the upper end and lower ends of the perpendicular stick shall appear to touch its top and bottom at the same; then, from the spot on which you stand, measure the distance to the foot of the object, and this will be its exact height.

Bishop England, of the Catholic Church, was among the passengers in the ship Poland from Havre, arrived at New-York on Sunday the 22d ult.

Mr. John Walton, late of Moorland township Montgomery county, died of lock-jaw on the 4th ult. occasioned by the severing of a nail from one of his fingers, while attending to an apple-mill.

A Morsel for Epicures.—A man was recently imprisoned in London for selling cats for rabbits. "He had carried on the trade," says the Boston Transcript, "ever since 1828, and sold an immense number of mousers without detection. Suspicious were excited by his want of care in selecting his victims, having sometimes disposed of venerable patriarchs whose gout could not be mistaken. The heads, tails, and feet, he made into soup for the poor, and was considered a charitable man. When the police entered his house, they found the corpses of eighteen cats, all ready for the stew pan."

The Chains of Poland.—The administrative Council of Warsaw, by a decree dated March 1st, has regulated the weight of the chains by which Polish prisoners are to be fettered. All male convicts are to drag seven pounds weight of iron—women six.

Mankind classed.—Mankind may be divided into three classes. Those who learn from the experience of others—they are happy men. Those who learn from their own experience—they are wise men. And lastly, those who learn neither from their own nor from other people's experience—they are fools.

Major Downing's Gun.—We have seen an enormous rifle, at the Bank Coffee House, this morning, said to belong to the valorous Major Jack Downing. It is a brass piece, weighing, probably, 200 pounds, and must have an imposing appearance at the head of the Downingville troops. Wonder if they all carry such guns?—Commercial Adv.

MARRIED, In this county, on the 19th Sept. by the Rev. R. H. Morrison, Mr. Ezekiel Johnson to Miss Eliza, both Morris daughters of Maj. Z. Morris. Also, on the 1st inst. at the residence of Mrs. Margaret Slaver, by Guy Maxwell, Esq. Mr. Samuel Sloan to Miss Cecilia Shaver. Completely in favor of Union. Communicated.

Also, on the 1st inst. by the Rev. R. H. Morrison, Mr. Jonathan N. McElwain, of York District, S. C. to Miss Martha A. Orr, daughter of Mr. John H. Orr, of this county.

DIED, In this town, on Saturday last, Mr. Miles, a native of Dundee, in Scotland. He had recently arrived in this country, on his way to join a brother-in-law who resides in Lincoln county, in this State. At Wilmington, he imprudently took passage in one of the pole-boats which was detained on the river, by the low water, and during the consequent exposure, he contracted a violent fever, of which he died a few hours after he arrived here. He has left an interesting family consisting of a wife and two young children.—Fay. Observer.
