

The Journal.

CHARLOTTE: SATURDAY, SEPTEMBER 13, 1834.

Col. Wm. C. Means having resigned his office as Col. Commandant of the Regiment of Cavalry attached to the 11th Brigade, an election took place on Wednesday last, when the following officers were elected:

- WM. M. GREER, Col. Command't. JAS. A. DUNN, Lieut. Col. ROBT. B. HOUSTON, Major.

A Fugitive taken.—GUILLIAM THARP, who has been charged with the murder of Aisey Denton, of Franklin county in this State, and for whom a reward of \$200 was offered by the Governor on the 28th November last, was apprehended a few days ago at Milledgeville, Ga. and brought to this place on Wednesday evening last, and is now confined in our jail, to await the further orders of the Governor.

Tharp has been taken out of jail by Mr. B. P. Jordan, who had been to Milledgeville with a commission from the Governor to demand him.

We fear that much damage has been done the Corn and Rice crops on the Cape Fear, in consequence of the Freshet during the past week. The waters rose here forty-eight feet. We have conversed with several Planters from the Cape Fear, and they agree in opinion, that the crops of Corn are lost, and they fear every thing for the Rice. The destruction of Mills and Bridges have been great—and the consequence is, an obstruction of the Mills, some of which have been returned to this Post Office from an impossibility to proceed. The storm does not appear to have been so severe upon the upper Southern route.

Fayetteville Observer.

The Postmaster at Georgetown, S. C., in a note to Jos. McKee, Esq. says the loss of property sustained by the late Tornado in that place "will not be less than one hundred thousand dollars, independent of the Rice crops." Add to this the loss which must have occurred from the recent Freshet, the destruction of property must be immense.

THE CHOLERA.

In New York, Aug. 30th, 17 deaths.—The Journal of Commerce of Saturday evening, says:—We have great pleasure in presenting to our readers the following report, showing a decrease of 12 in the number of deaths, as compared with the returns of the previous day. We have reason to believe that the whole number of deaths during the week ending 8 o'clock this morning, rather exceeds 400, say 420. The greatest number in any one week during the prevalence of Cholera, in 1832, was 527.

FROM THE NEW YORK DAILY ADVERTISER OF SAME DATE.

Believing that in no way can so correct an impression be given of the character of the disease now reported to exist among us, as by comparing the mortality of this season with that of 1832, we continue the table from the date of our former publication. We think the facts thus presented cannot fail to have a favorable effect on the minds of all who are made acquainted with them.

DEATHS BY CHOLERA—OFFICIAL REPORTS.

Table with columns for 1st 7 days, 15 days, 1st 17 days, 14 Totals, 1st 17 days, 15 days, 1st 17 days, 14 Totals. Rows show daily death counts for 1832 and 1834.

DEATHS.—Interments August 19th, 9; 20th, 14; 21st, 10; 22d, up to 12 o'clock, 5. Whole number of deaths by Cholera, from the 1st to the 20th of August inclusive, 189.

Newark, Ohio, Aug. 27.—Since the publication of our last, there have been several additional cases of Cholera in town. They amount, altogether, to some twelve or fifteen cases, of which eight, we believe, have proved fatal. But one case has occurred near or near town since Saturday evening; but we have heard of several cases in the country, in different directions, and at places distant from each other.

Violent Tornado.—A steady rain commenced in this city on Friday night last, which continued without intermission throughout the whole of Saturday, and yesterday forenoon. Between three and four o'clock, on Sunday morning, the wind veered suddenly round to S. E. and a Tornado, or Whirlwind, of a most violent character, struck the City in the vicinity of the Battery, and passing up towards Church street, swept along in that direction with a tremendous force, uprooting, tearing and breaking off the trees, and scattering the branches in every direction. Its course continued in nearly a due North direction, and the destruction of trees, fences, &c. &c. can be traced as far as Boundary street. The only injury of consequence sustained, as far as we can learn, was the demolition of the Vegetable Market, a wooden building which was blown down and completely destroyed. The Tornado could have been but of 7 or 8 rods in breadth, as indicated by the tearing of the trees. It continued only two or three minutes—but its violence was greater than any thing we ever before experienced; accompanied by a tearing and of heavy thunder, and causing the buildings over which it passed to tremble to their very foundations.—Chas. Carter let test.

The New York Commercial Advertiser, in alluding to the circumstances of our late information from the Western expedition of Dr. Goous, (and the company of Infantry,) furnishes the following very unpleasant but scarcely unexpected particulars:

"The condition of the Dragoons is said to be deplorable; the forces were out, and 140 of the men in the sick list. Colonel Doane had pushed on with 350 men, and no intelligence had been received from him up to the 27th of July. A single officer, and five men carrying the coffin constituted the whole funeral escort of General LEAVENWORTH."

Estimate for New-York.—On Friday morning, at half past two o'clock, a fire broke out in New York, in the square bounded by Broadway, Bowler, Mercer, and Grand streets, which consumed an amount of property estimated at between \$1 and \$70,000.

A Gourmand.—We may preach temperance, but people will not practice it. At one of our hotels, a young gentleman was observed to eat corn, beans, potatoes, chickens, tripe, roast beef, birds, peaches, plum pie, rice pudding, custard, giblet pie, together with sherry, champagne, brandy and water. We have not heard how he felt after the "experiment," but trust that he was not inconvenienced by the deposites.—N. Y. Star.

Escape of a Lion.—A few days ago, when Howes' Menagerie was at the Chickopee Factory, Mass., one of the Lions escaped from his cage. The pavilion had been erected, and every thing was in readiness for the exhibition to commence. At this moment, when only the attendants were present, they were terrified at the sight of one of the Lions among them. The bars of his cage had incautiously been left loose, and he had liberated himself. Without a moment's hesitation, the keeper, Mr. Whiting, approached him in a fearless and resolute manner, seized him by the throat, struck him violently with his whip, and literally dragged him back to his cage.

Quite above board.—Samuel Terry, an English convict in New South Wales, is in possession of a clear income of sixty thousand pounds sterling. His several estates, containing upwards of 100,000 acres, and his property in the town of Sydney bring him in 10,000 pounds per annum. He has 17,000 head of horned cattle, and 400 brood mares. All this property he has acquired since his emancipation.

Native Enterprise.—There is at present lying in our harbour, a new brig, of 140 tons burthen, owned by our enterprising fellow-citizen, J. Y. Bonner, Esq. She is called "Clarissa Bonner," and is a beautiful specimen of her class of naval architecture. The Clarissa Bonner was built on Durham's Creek, 19 miles from this; and reflects much credit, not only upon all those who have been engaged about her, but on the taste and industry of her owner, under whose immediate direction she has been built. She is a strong vessel—model good—spars well proportioned to the hull; and we doubt not but she will prove (to use a nautical phrase) as snug a little craft as ever held canvas to the breeze.—Washington Whig.

Value of Ladies.—It was stated at the anniversary meeting of the Ladies' Bible Association at Spalding last week, that a calculation has been made at Birmingham respecting the proportionate value of the services of gentlemen and Ladies as collectors for charitable and religious purposes, and it was found that one lady was worth thirteen gentlemen and a half.

STATE OF NORTH CAROLINA, ROWAN COUNTY.

COURT OF PLEAS AND QUARTER SESSIONS. August Term, 1834.

The Grand Jury for the County of Rowan, and State aforesaid, present, That our present Constitution, by which Counties, greatly unequal in population, in wealth, and territory, form the only basis of representation, is repugnant to any principles of free Government.

That the present state of political affairs, in which small counties that do not pay a portion of public revenue equivalent to the expenses of their members of the Legislature, have the same number of Representatives as the large counties; and in which a minority tax, and make laws for the majority, is incompatible with the genius of a republic.

That the long and obstinate refusal of the minority to admit the majority to the enjoyment of equal rights and privileges is wholly unjustifiable. We hold that governments were constructed to secure to all, equal rights; and that whenever any Government fails to accomplish this object, the people have a right to alter or amend it.

We hold that when the original compact contains no restriction upon the will of the majority, such majority have the right to alter and amend the constitution. We hold, with the fathers of '76, that a frequent recurrence to fundamental principles is absolutely necessary to preserve the blessings of liberty.

We believe that to restore the greatest blessings of liberty, equality of rights and privileges, it is necessary, at this time, to recur to fundamental principles.

We believe that the majority, by petitioning by vote, and by making this last appeal through Grand Juries, and by conceding to the habits and prejudices of the small counties, so far as to offer to each County one member in the House of Commons, have sufficiently manifested a disposition to compromise and to avoid collision.

And we cheerfully respond to the sentiment expressed in the presentments made by the Grand Jurors of the other counties, and in the last resort pledge to co-operate with them in such measures as may be devised best calculated to procure a redress of grievances.

We request the worshipful Court, now sitting, to cause a certified copy of this presentment to be transferred to the governor of this State, to be laid before the General Assembly.

In witness whereof we have set our hands.

ELECTION RETURNS.

FINAL RETURNS FROM KENTUCKY.

The whole number of Senators and Representatives in the Legislature of Kentucky on joint ballot is 138; of these, there were last year, Whigs 27, Jacksonians 61, and the present year 95 Whigs and 41 Jacksonians—(there being now two vacancies to fill, occasioned by recent deaths.)—making the Whig majority on joint ballot 54, and giving a Whig gain of 38 since last year.

The Sheriff of the 6th Congressional district met at Harrodsburg on the 12th inst. and none of them being disposed to withhold a poll-book now that it is a penitentiary offence, they compared the votes of the different counties, which gave the following results:

Table with columns: Letcher, Moore, Mercer, Garrard, Anderson, Lincoln, Jessamine. Rows show vote counts for each county and total for Letcher's majority.

ELECTION IN RHODE ISLAND.

The elections for members of the lower branch of the State Legislature has just taken place in Rhode Island. The results is, that 44 Anti-Jackson and 28 Jackson members are elected. The other branch of the Legislature, elected some time since, consists of 10 Jackson and 2 Anti-Jackson members. The vote, therefore, in joint ballot will stand thus:

Table with columns: Whigs, Jackson. Rows show Senate, House of Representatives, and total counts.

ILLINOIS.

The official returns of the election of Governor exhibits the following result:

Table with columns: Duncan, Kane, McLaughlin. Rows show vote counts for each candidate.

So that Gen. Duncan is elected Governor by a majority of 1210 over his next highest competitor. He is decidedly opposed to the late measures of the administration.

For Congress, Reynolds late Governor is elected in the first district, by a majority of 429; Casey in the 2d, by a majority of upwards of 2000; and May in the 3d, by a majority of 626. The St. Louis Republican asserts that all of them are in favor of a National Bank: The Washington Globe, on the other hand, that all of them are decided friends of the administration. We know not which tells the truth.

MISSOURI.

The Western Monitor (Missouri) states that all the members of the Assembly, except one, elected this summer from the Boonshiek country, as far as heard from, are anti Van Buren. "If this information is correct (says the St. Louis Republican) there will be a decided majority against the Kinderhook candidate in the General Assembly."

INDIANA.—The last Indianapolis Journal contains returns of the gubernatorial election from every county in this State, except four. The aggregate is,

Table with columns: For Noble (Whig), Reed, (Jackson). Rows show vote counts for Noble and Reed.

Present ascertained Whig majority, 9,631. In 1831, the votes in the same counties were for Noble 23,087, for Reed 20,204—majority 2,883. Whig gain since 1831, 6,748.

Gen. Duff Green announces his intention of addressing a series of letters to the democratic party of the U. States, for the purpose of demonstrating that the warfare upon the present Bank of the United States is but a pretence on the part of those by whom it is carried on, for the establishment on its ruins of a much more dangerous moneyed power, under the direct control of the Executive; and that, instead of substituting gold and silver as the currency of the country, their purpose is, first, to divert the public attention from their own selfish and ambitious ends, by a clamour against the Bank of the U. States, that, when they have acquired power, they may consolidate the moneyed and political influence of the country, under the control of a Central Agency, clothed with an influence far more dangerous to the peace and liberty of these States than that of the institution which they seek to overthrow."

Beware of Counterfeits!—The last Staunton Spectator forewarns the public that counterfeit notes of the Bank of Virginia and the Farmers' Bank are in circulation. The Spectator says—"We considered them so badly executed, with the exception of the Kenawha branch notes of the Bank of Virginia, that they could scarcely be imposed upon any one, unless through inattention. Their whole appearance condemns them—the paper, engraving, and printing, are all bad. So also with the U. States notes, except the 20's, which are shorter than the genuine bills. The Kenawha branch notes are readily detected by the mark which we gave in our last paper namely—the fingers on the right hand of the figure in the vignette are closed in the genuine bills, as in holding a pen, while in the counterfeits they are open. It will be recollected, that there are also raised notes of the Bank of the Valley from 5 to \$50—well executed."

It will be recollected, that there are also raised notes of the Bank of the Valley from 5 to \$50—well executed."

Com. PORTER.—We are happy to learn that the article copied into our last paper, stating that this gallant old soldier had been attacked with a paralytic stroke, is unfounded. Letters have been received from the Commodore, by his relatives in this county, stating that his disease was harmless, and that he is now convalescent. Delaware Republican.

DIED.

SOUTHERN FEMALE INSTITUTE.

The next Session of this Seminary will open on Wednesday, the 1st of October next, when it is earnestly desired that the pupils for the ensuing year will be present, in order to be advantageously classified. The plan of instruction pursued here, embraces a regular Course of Study, designed to promote the harmonious and symmetrical development of the various mental and moral powers, with special reference to the female character and sphere of action. Young Ladies, however, entered for a limited space, can pursue any branch of study which their friends may desire.

For the information of our patrons abroad, we would say that the proprietors of the seminary premises have very generously, proffered them to our service free of rent, in consideration of which we propose the experiment of reducing the annual expenses of the school to \$130 for each pupil.—This charge will include Board, Washing, Fuel used in the Study Hall and Tuition in all English branches; Lights and Stationary furnished by the pupils.

A strict regard to the following principle is of vital importance to the welfare both of the pupils and of the Institute: No Young Lady can be honorably dismissed from the school until the expiration of the session on which she may have entered, except for such extraordinary reasons as the Examiners may deem satisfactory.

SPECK'S Lucky Office.

The Second Class of the North-Carolina State Lottery was drawn on Wednesday, the 27th ult. at Lenoirton, and I am happy to say I distributed to those who favored me with their patronage, several handsome prizes to the following numbers, viz:

- 2,861 \$500, 8,611 \$300, 1,731 \$500, 30,653 \$100, 13,736 \$50.

And in addition to other numbers not heard from we have sold one prize of \$20 and eight of \$10.

I would call the attention of the public to the Scheme of the 3rd class, which is to be drawn in this place, on the first day of October, and all those who wish to throw themselves in Fortune's way, can do so by calling at my office, personally or by letter, where they can be supplied at all times, with chances, either by the package or otherwise. They may rest assured that their orders will be promptly attended to by

WILLIAM H. SPECK, Agent, South door of W. S. W. Hayes' Hotel, Charlotte, N. C.

NOTICE.

The Subscriber having gone to considerable expense this summer, in building Warehouses for the reception of Produce and Merchandise of every description, and we think perfectly safe from the risk of fire, would respectfully invite Planters and Country Merchants, who wish to store Cotton for a better market, to call on them. They will also forward all kinds of produce to N. York, Charleston, or any part of Europe, and will make liberal advances on Cotton left under their charge, in either cash or goods. Strict attention will be paid to the interest of those who may entrust them with their property. We think it unnecessary to give any references as the senior partner has been doing business in Charon for a number of years.

NORTH-CAROLINA State Lottery, FOR THE BENEFIT OF THE SALISBURY ACADEMY. THIRD CLASS FOR 1834.

Terminating-Figure System.

To be drawn at Charlotte, N. C. on Wednesday, 1st October, 1834.

CAPITAL \$5,000 !! PRIZE \$5,000 !!

Table with columns: Prizes, Amount. Rows show prize amounts and counts for the lottery.

18,229 Prizes at \$3 is \$157,500

MODE OF DRAWING.

This Scheme, formed by the Terminating-Figure System, has 60,000 Tickets, numbered from 1 to 60,000 inclusive. On the day of drawing the 60,000 numbers will be put into one wheel, and all the prizes above the denomination of \$3 and all other prizes will be drawn alternately, first a number and then a prize, until all the prizes are drawn. The Prizes of \$9, \$5 and \$3.50 are disposed of in the following manner, viz:—The 6000 Tickets terminating with the same figure that the first drawn number terminates with, will be entitled to \$9 each, and the 6000 Tickets terminating with the same figure that the next number drawn from the wheel terminates with, differing in its termination from that of the first, will be entitled to \$5 each, and the 6000 Tickets terminating with the same figure that terminates the next number drawn from the wheel, differing in its termination from the first and second, will be entitled to \$3.50 each.

EXAMPLE.

Suppose 2423 to be the first number drawn from the wheel, terminating with figure 3, and entitle the 6000 Tickets terminating with figure 3 to \$9 each; and suppose 32,567 to be the second number drawn from the wheel, then the 6000 Tickets terminating with figure 7, will be entitled to \$5 each; and suppose 41,530 to be the third number drawn from the wheel, then the 6000 Tickets terminating with the figure 0, will be entitled to \$3.50 each. Every package of 10 Tickets will embrace all the terminating figures from 1 to 0, so that the holder of a package of 10 Tickets as put up by the managers, must draw one of each of the three smallest denomination of prizes, and may draw ten other prizes.

All Prizes payable in Cash, 40 days after the drawing, subject to a deduction of 15 per cent.

A Package of Whole Tickets will cost \$35 00 and must draw nett 14 87 1/2

20 12 1/2

These who prefer adventuring for the large prizes only, can in this way, for 20 12 1/2 get the managers' certificate for 10 whole Tickets, entitling the holder to all that the Tickets may draw over \$14 87 1/2, that being the amount that the package must draw of necessity—say,

A Certificate for a Package of 10 Whole Tickets \$20 12 1/2 For 10 Half do. 10 06 1/2 For 10 Quarters do. 5 03

All orders from a distance, by mail, (post paid) or by private conveyance, enclosing the Cash or Prize Tickets in the previous Lotteries, will receive the most prompt attention, if addressed to William H. Speck, Charlotte, N. C. and an account of the drawing will be forwarded immediately after its event.

Whole Tickets, \$3 50 Halves \$1 75, Quarters 87 1/2

\$20 REWARD.

The house of the subscriber, living ten miles north-east of Charlotte, on the Salisbury road, was entered on Sunday night, the 17th inst. by some person, and a large silver double-cased English WATCH stolen. The Watch has a patent crystal and also a second hand. There was no paper in the case—the knob to the spring is worn through and the case hard to open. A piece of ribbon was attached to the watch without a key. The person entered the house by one of the windows. The above reward will be given for the apprehension of the thief and watch, or ten dollars for either. JOHN H. ORR. Aug. 29, 1834. '05t

\$15 REWARD.

RANAWAY from the Subscriber, in Mecklenburg county, N. C. Providence Settlement, on the 25th of August, my negro man SAMPPON. He is about 6 feet high, 35 years old, tolerable black, straight and stout built, speaks plain and somewhat slow, has a scar above the elbow of his right arm, caused by a fracture of the bone. I will give the above reward to any person who will take up and deliver said fellow to me, or lodge him safely in any jail so that I get him. JAMES R. MORRISON. Sept. 3, 1834. '05

The Carolina Watchman and Knoxville Register will insert this 3 times and forward their account.
