Sunday Reading.

DEATH WILL COME.

The Rev. Albert Barnes, in an able discourse in the October number of the National Preacher, holds the following graphic language in illustration of the above declaration.

'Death will come; he will certainly come. He cannot be made to take his steps any slower. Oh, he will come! All that live on earth will die—every beast, bird, and creeping thing; the humming bird, the insect that flutters in the sunbeam; every tree and shrub and flower—the oak, the pine, acacia, the moss that grows over the wall: every monarch, every peasant, every rich man, every poor man; every slave, every master of a slave; every man, every woman, every child: every old man that prided himself on his honors and his wealth; every young man that prides himself on his talents or his strength; every maiden that prides herself on her beauty. Oh, all will die! I am in a world of death; I am amidst the dying and the dead; I see not a living thing in all my rambles that will not die—no man, no woman no child; no bird, no beast; no plant no tree. The eagle that cuts the air cannot fly above it; the monster of the deep cannot dive below it; the tiny insect cannot make itself so insignificant that death will not notice it; leviathan cannot, with great strength, struggle against it. The Christian will die—yea the sinners! Your wealth cannot save you. Death cares for none of these things; they are all trifles—gewgaws beneath his notice. He no more 'loves a shining mark' than an ignoble one; he had no more pride in cutting down the rich man than the poor man—the daughter of beauty and fashion than the daughter of ugliness and sin. He loves to level the thistle as well as the rose, the bramble as the magnolia; the brier as the bud: the cedars of Lebanon. He cares as little for the robes of ermine as for the beggar's rags, as little for the richest vestments and gayest apparel as for the blankets of the savage. You will die, and the fear of death will come upon you. Death comes just as he is: pale, solemn, fixed, determined on his work. He hears no cry for pity; he regards no shriek of terror. He comes steady, certain, unchanged and unchangeable in his purpose to take you from your bed of splendid dwelling; to call you out of the assembly room—taking you away from your companions, that will miss you for a moment and then resume their dance that you may die. Death will come. He has been advancing toward you ever since you began to breathe. He has kept on his way, always advancing to meet you; while you have gone North, or South, East, or, West. He has always put himself into your path—how near or how remote you have never known. Death will come. He is always advancing, never receding; and soon his baneful shadow will deepen and become more chilly, like an advancing eclipse; and then his dark form will stand right before you between you and the living world, and you will be in the dark valley. Death will come—fearful enough under any circumstances, even if you are a Christian—awful, unspeakably awful, if you are not.'

NO FEARS FOR CHRISTIANITY.

The North American Review for July, in an able notice of a recent infidel work, expresses the mind of millions of mankind in the following sentences:

"We have said we have no fears for the truth. We will add, we have no fears for Christianity, which we doubt not, is the truth. As long as the instinctive belief in God, written on the human heart, remains unerased—and tho' it may be obscured, it never can be erased, it is indelible, wrought into the very fibre and texture and life of man's being—so long as man remains capable of soberly appreciating the force and value of evidence; and as long as his moral and spiritual wants, his sense of dependence, his consciousness of sin and alienation, his longing for redemption and reconcilement, his aspirations after holiness and immortality, remain; so long Christianity must remain—remain to give consolation to affliction, peace to the conscience, a sure anchor to man's highest hopes; remain to raise the degraded, to purify the corrupt, to encourage the fallen, as well as always to keep a loftier goal before the eyes of the most advanced in moral progress, the foremost in the spiritual race; remain to reform and regenerate human life and human society by diffusing its pure and gentle spirit of selfdenial and benevolence, and adding to the natural and ordinary restraints from wrong motives to duty, the sanctions of religious truth and future retribution."

REASONS FOR FAMILY WORSHIP.

BECAUSE, it is the will of God, whose displeasure is expressed against the families that call not on his name.

BECAUSE, it is a dictate of right reason that, considering the relations we bear to God, we should thus formally recognize him.

BECAUSE, when properly conducted, it is exceeding refreshing and profitable to the soul

BECAUSE, it operates as a restraint on sin in those who conduct it, and checks worldly-mindedness.

BECAUSE, it is an excellent example to children and servants, and has a sensible effect on their principles and conduct.

BECAUSE, family blessings are not to be expected, when they are not sought after in a family capacity.

BECAUSE, families will grow up in irreligion, and in the neglect of all that is holy and good, where family devotions are not maintained.

BECAUSE, it is an unnatural and impious thing to live without it.

BECAUSE, experience has proved, that where family religion is devoutly maintained, the greatest amount of happiness is to be found, children are most obedient, servants most faithful, and the various members of the household, are bound together by the strongest bonds of affection.

BECAUSE, it is one of the best means of aiding us in our journey to heaven.

IN THE ARK.

It is mentioned of Romaine when the public troubles of his day were being somewhat unreasonably forced upon him, that he put them from him with this remark, "I am in the ark." It is the only place of security in this day, as in his. It is only when hid in that secure abode, that we can work with due temper and effect on the evils within and around us. And what are all these things to us if we are not there? The whole is fast passing away as a feverish dream. Much that we see around us is the work of the devil, with which he amuses men to their eternal undoing. Much in the Church as well as in the world, is nothing else. They are Satan's toys, with which he amuses vain fools withal. Let us beware. Let him that thinketh he standeth take heed lest he fall. Let us distinguish things that differ. Let us pray always. Let us watch thereunto with thanksgiving. Let us distrust ourselves, and trust to truth, and wisdom, and direction of God.

He that trusteth in the Lord shall be as mount Zion, which abideth forever.

To those who have so liberally patronized me for the last number of years I return my grateful acknowledgments, still soliciting your continued kindness and custom, feeling confident that it will be to your advantage and interest. For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

TO CURE A COLD WITH HEADACHE AND FOULNESS OF THE BODY, take the CHERRY PECTORAL on going to bed, wrap up warm, to sweat during the night.

FOR A COLD AND COUGH, take it morning, noon and evening according to directions on the bottle and the difficulty will soon be removed—None will long suffer from this trouble when they find it can be so readily cured. Persons ill-fitted with a cast-iron cough, which breaks them so much at night and first, by taking the CHERRY PECTORAL on going to bed, they may be sure of sound, unbroken sleep, and consequently refreshing rest—Great is the relief from suffering, and so ultimate cure, is afforded to thousands who thus ill cted, by this invaluable remedy

From the agreeable effect in these cases, many find themselves unwilling to forego its use with the certainty but it has ceased.

From the eminent Physicians in

Fayetteville, Tenn., April 16th, 1851.

SIR:—We have given your Cherry Pectoral an extensive trial in our practice, and find it to surpass every other remedy we have for curing affections of the respiratory organs.

DRS. DIVER & HAMPTON.

TO SINGERS AND PUBLIC SPEAKERS this remedy is invaluable, as by its action on the throat and lungs, when taken in small quantities, relieves all hoarseness in a few hours, and wonderfully increases the power and flexibility of the voice.

ASTHMA is generally much relieved, and often wholly cured by CHERRY PECTORAL. But there are some cases so obstinate as to yield entirely to no medicine. CHERRY PECTORAL will cure them, if they can be cured.

BRONCHITIS, or irritation of the throat and upper portion of the lungs, may be cured by taking CHERRY PECTORAL in small and frequent doses—The tormenting cough is soon relieved.

Rev. Dan. Lanning, of Brooklyn New York, says:—

"I have seen the CHERRY PECTORAL cure such cases of Asthma and Bronchitis as leads me to believe it can rarely fail to cure those cases."

FOR CROUP. Give an emetic of an enemy to be followed by large and frequent doses of the CHERRY PECTORAL until it subdue the disease. If taken in season, it will fail to cure.

WHOOPING COUGH may be broken up and soon cured by the use of CHERRY PECTORAL

THE INFLUENZA is speedily removed by this remedy. Numerous instances have been noticed where whole families were prostrated from any serious consequences, while their neighbors, without the CHERRY PECTORAL, were suffering from the disease.

SALEM, Ohio, 11th June, '51.

DEAR J. C. AYER:—I write to inform you of the truly remarkable effects of your CHERRY PECTORAL in this place, and in my own family. One of my daughters was completely cured in three days of a severe fit Whooping Cough, by taking it. Dr. M. another of our very best physicians, feels satisfied he considers it the best remedy we have for pulmonary diseases and that he has used in most cases of croup with it than any other medicine he ever administered.

Our clergymen of the Baptist Church says that during the run of Influenza here this season, he has seen none from your medicine, he thinks scarcely have received without seeing.

Yours respectfully,
J. D. SINCLAIR, Deputy Postmaster.

FROM THE DISTINGUISHED PROFESSOR OF CHEMISTRY AND MATERIA MEDICA, BOWDOIN COLLEGE.

I have found the CHERRY PECTORAL as its ingredients show, a powerful remedy for colds, and pulmonary diseases.

PARKER CLEVELAND, M. D.

Brunswick, Me., Feb. 5, 1847.

DR. VALENTINE MOTT,

THE WIDELY CELEBRATED PROFESSOR OF SURGERY IN THE MEDICAL COLLEGE, N. Y. CITY, SAYS:—

"I gives me pleasure to certify the value and efficacy of "Ayer's Cherry Pectoral," which I consider peculiarly adapted to cure diseases of the Throat and Lungs."

Cures of severe diseases upon the Lungs have been effected by Cherry Pectoral in such extreme cases as warrant the belief that a remedy has at length been found that can be depended on to cure the Coughs, Colds and Consumption which carry from our midst thousands every year. It is indeed a medicine in which the afflicted can look with confidence for relief, and they should not fail to avail themselves of it.

For the speedy and permanent cure of all Diseases arising from an impure state of the Blood or habit of the System.

Among the many and important discoveries of this generation is one whose name will be written, as with a sun beam, in the history of the past. Sands' Sarsaparilla stands for it alone, and by its own works proclaims its power—that acute eloquence so irresistibly telling in the appeals of the suffering for relief, has been answered. Thousands of cases of diseases have been cured by this invaluable medicine, such as are furnished in the records of cure. These things are not done in secret chares, or in some unknown town, but are performed in our principal cities and public places. They are brought before the world by substantiative, because positive, healing virtues of this preparation; and the facts published, although startling, are as plain as the light of day.

The Sarsaparilla is combined with the most effectual, and the most salutary productions, the most potent simples of the vegetable kingdom; and its unprecedented success in the restoration to health of those who had passed under the most distressing diseases, has given it an exalted character—furnishing, as it does, evidence of its own intrinsic value, and recommending it to the afflicted far beyond what they can know. It has long been a great important desideration in the practice of medicine, to obtain a remedy similar to this—one that would act on the liver, stomach and bowels with all the promptness and potency of mineral preparations, yet with none of their deleterious effects upon the vital powers of the system. Although possessed of powerful healing properties, it is entirely harmless, and will not injure the most delicate constitution. When in perfect health, no effect is produced by its use, except an increase of appetite; but when disease has taken the name, a startling fact it proves among the path of its, the sick must recover—disease is left and cease; it seeks its new life and vigor, and brings health and strength to the suffering and diseased.

SCROFULOUS AFFECTION OF THE EYES.

WINCHESTER, Ky. October 29, 1849

A. B. & D. SANDS—GENTLEMEN: I would not have presumed to write to you, if it was not my duty to let the public know the almost miraculous effect your Sarsaparilla has had upon me. My limbs were covered with sores, so that I could not walk during the whole Spring and Summer. In this situation I commenced the use of your Sarsaparilla, and after taking two bottles was entirely cured. I have also fell cure of another wonderful cure. My brother was afflicted with this scrofula in his head, so bad his physicians told him the loss of his sight was inevitable, and permanent blindness seemed to be his fate. Three bottles entirely restored his sight, and we cannot but recommend all similarly afflicted to use Sands' Sarsaparilla. Yours, truly,

BENJAMIN F. BUCKNER.

ITS POPULARITY ABROAD.

From South America.

MARACAIBO, Venezuela, April 12th, 1849.

Messrs Sands—Gentlemen: I consider it a duty due the public to make known the great benefit I have received by using your valuable Sarsaparilla. About three years since I was attacked with Rheumatism in my shoulders, and also in my legs, and no remedy was the pain, that I was unable to sleep. I tried all of the best medicines I could hear of without receiving any benefit, until through the advice of a friend I procured some of your Sarsaparilla, and after using four bottles in the course of fifteen days, I found myself entirely well. I have no hesitation in saying your Sarsaparilla is the best medicine I ever took, and can confidently recommend it to my friends and the public.

Your obedient servant,

J. M. JESURUN.

Here is another, nearer home:

NEW YORK, Jan. 8, 1850.

Messrs. Sands—Gentlemen,—I have great pleasure in acknowledging to you the great benefit I have received by the use of your Sarsaparilla. A subject of pecuniary interest, I made a voyage to Europe, but while there remained to be afflicted. A few weeks after my return I was seized with a violent hemorrhage of the lungs, and from the debility and great prostration of strength that followed with the protracted difficulty of respiration, I was entirely relieved by the use of your Sarsaparilla, which I consider a most important and truly valuable discovery in the healing art. I believe that for fourteen years I enjoyed so good health as at present.

Very gratefully yours,

S. E. SEYMORE

Great cure for Dyspepsia! Dr. J. S. Houghton's

PEPSIN,

the true Digestive Fluid or Gastric Juice, prepared from RENNET, or the fourth STOMACH OF THE OX, after directions of Baron Liebig, the great Physiological Chemist, by J. S. HOUGHTON, M. D. Philadelphia Pa

This is a truly wonderful remedy for INDIGESTION DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, CONSTIPATION, and DEBILITY Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water, will digest or dissolve, *Five Pounds or Roast Beef* in about one hour, out of the stomach.

PEPSIN is the chief and most important Digesting Principle of the Gastric Juice—the Secret of the *Food, the Purifying, Preserving,* and *Stimulating* Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an ARTIFICIAL DIGESTIVE FLUID precisely like the natural Gastric Juice in its chemical powers, and furnishing an COMPLETE and PERFECT SUBSTITUTE for it. By the use of this preparation, the nature and cause of INDIGESTION and DYSPEPSIA are removed. Just as they would be by a healthy Stomach. It is the long wonders for Dyspepsia in the cases of DISABILITY, EMACIATION, NERVOUS DECLINE, and DYSPEPTIC CONSUMPTION, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree CURIOUS and REMARKABLE.

SCIENTIFIC EVIDENCE!

BARON LIEBIG in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the Stomach of the Calf, in which way the articles of food, as meat and eggs, will be softened, changed, *and digested just in the same manner as they would be in the human stomach.*"

☞ Call on the Agent, and get a Descriptive Circular, gratis, giving a large amount of Scientific Evidence, similar to the above. Together with Reports of REMARKABLE CURES, from all parts of the United States.

AS A DYSPEPSIA CURER.

Dr. Houghton's Pepsin has produced the most marvellous effects in curing cases of Debility, Nervous Decline, and Dyspepsia Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than TWO HUNDRED REMARKABLE CURES, in Philadelphia, New York and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great NERVOUS ANTIDOTE, and particularly useful for its derivation from Bitter Herbs, Liver Complaint, Fever and Ague, or Bilious Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also for cases in early life, and the too frequent excesses of mature years. It is a most reconciles *Health with Intemperance.*

Dr. HOUGHTON'S PEPSIN is readily mixed with all the desirable fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescriptions visits the use of Physicians.

PRIVATE CIRCULARS for the use of Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is NOT A SECRET REMEDY, no objection can be raised against its use by Physicians in respectable standing and regular practice. Price, ONE DOLLAR per bottle.

☞ OBSERVE THIS!—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copy-right and Trade Mark secured.

DR. CHRISTIE'S

GALVANIC BELTS
BRACELETS NECKLACE
MAGNETIC FLUID.

For the Removal and Permanent Cure of all

NERVOUS DISEASES

And of those complaints which are caused by or attended with

NERVOUS SYSTEM.

This beautiful and convenient application of the powers of GALVANISM and MAGNETISM, discovered by distinguished physicians, both in Europe and this country, has been brought to perfection in the Galvanic Belts, Bracelets, Necklace and Magnetic Fluid, by Dr. CHRISTIE, of Philadelphia, and is used with the most perfect and certain success in

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to organs, and invigorating the entire system. In CRAMP, PARALYSIS and PALSY, DYSPEPSIA, RESTLESSNESS, ACUTE or CHRONIC RHEUMATISM, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS PALPITATION OF THE HEART, STIFFNESS, PAINS in the SIDE and CHEST, LIVER COMPLAINT, DISEASES of the KIDNEYS, DYSPEPSIA, NERVOUS and PHYSICAL ENERGY and all DISEASES which originate from the above causes, or unhealthy conditions of the system, they are found to be the most wonderful discovery of the age.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives

consists in the fact that they arrest and remove the disease by the application of the galvanic fluid, instead of merely producing a stimulus, as in the case of other galvanic belts, while under the influence of which the nervous system is restored to its natural healthy and vigorous condition.

This beautiful and wonderful discovery, the galvanic fluid, is used with the most perfect and certain success in

NERVOUS DISEASES,

and in all cases of nervous complaints, where all hope of relief has been given up, and every thing has been tried in vain.

To illustrate the use of the GALVANIC BELT in case of a person afflicted with that bane of humanity, DYSPEPSIA, or any other Chronic or Nervous disease, we present the following testimonial of Dr. Christie, which will explain the manner of the shock, affect tongue, &c., and the effect produced by the Belt. The Belt is placed around the stomach, and the galvanic fluid is applied to the pit of the stomach, which causes a slight shock, and a warm glow, and with a continuance of the action this should be found. Now you will perceive that the
