

From the N. Y. Delta.

AVISIT TO THE CEMETERY.

We paid a visit, last evening, to the corporation cemetery, in the Fourth District, in order to satisfy ourselves of the spectacle which was reported to be presented there.

Poor creatures! they were inconceivable; and all we could say to dissuade them from their weary journey of more than two miles, through the hot sun, to the Lafayette cemetery, only elicited the plaintive cry: "Non payvre perli non payvre perli!" They were immigrants, who had arrived but a few months ago from France.

CHARLOTTE: Tuesday Afternoon, August 23, 1853.

WILLIAM THOMPSON, Esq., is our agent in Baltimore, authorized to receive the money and subscriptions of the subscribers to the North Carolina College.

What next for Editors?

The elections being over, the political eye is again cast on the press, and the question is asked: what next for the editors?

Charlotte in August.

Our town presents an unusually full appearance. A large number of our citizens, coming from the various sections of the State, are here for the summer.

Elections in Tennessee, Kentucky, &c.

It is considered an all-time high, that Henry Wigfall, Governor of Tennessee, was elected, and that he is the only one of his name who has ever held the office.

THE MEXICAN ELECTIONS.

It is reported that the Congress of Mexico has just elected a President, and that the result is a surprise to all who were watching the progress of the election.

Recovering.

Young Dr. Joseph Caldwell, son of Dr. Parkey, of this city, has just recovered from a severe illness, and is now able to attend to his duties.

A Sign of Thrift.

The North Carolina Standard comes to us with the news that the State has just elected a Governor, and that the result is a surprise to all who were watching the progress of the election.

Our Exchanges.

We would thank our readers of the Press, for the exchange they have sent us, and for the interest they have taken in our proceedings.

Yellow Fever in New Orleans.

We learn from the New Orleans Pleasantry that the yellow fever has just been reported to have arrived in New Orleans, and that the result is a surprise to all who were watching the progress of the election.

SLEEP AND THE SENSES.

According to M. Cabanis, a French physiologist, the muscles of the legs and arms lose their power before those which support the head; and these last sooner than the muscles which sustain the back; and he illustrates this by the cases of persons who sleep on horse-back, or while they are standing.

Davidson College.

We had not the pleasure of being present to witness the Commencement Exercises of this institution of learning, which came off on the week before last. But we learn from those who were present that there was a large concourse of its friends in attendance, who were well pleased with the exercises of the occasion.

Distribution in North Carolina.

Although our opponents have charged, four out of the eight Representatives to Congress from this State, yet it is very apparent that a large majority of our people are in favor of a fair and equal distribution of the public lands among the States. To the Mountain district, where there is about ten thousand voters, there is scarcely a division on this subject. In this, the first district, the question came within 316 votes of being carried. In Payson's it carried by more than 3000 votes. In Kerr's by more than 3000 votes.

Another Railroad Accident.

The Petersburg Daily Intelligencer of the 13th inst., which only reached us last night, gives the particulars of another terrible collision, which occurred on the Camden and Annapolis Railroad, between the trains from Philadelphia and Annapolis, on Tuesday the 10th, by which a number of lives were lost, and great damage done to the several trains.

THE SMYRNA AFFAIR.

It is reported that the Emperor of Austria has just issued a decree, and that the result is a surprise to all who were watching the progress of the election.

THE SMYRNA AFFAIR.

It is reported that the Emperor of Austria has just issued a decree, and that the result is a surprise to all who were watching the progress of the election.

THE SMYRNA AFFAIR.

NEWS FROM EUROPE.

The following further intelligence brought by the America we take from the Charleston paper: The Eastern question has now assumed such a position that it will not long be before it is decided one way or the other.

WASHINGTON GOSSIP.

News, just now, is scarce as cold breezes. Hardly an item worth relating reaches my labor to-day. The chief topic of conversation, to-day, (and a jolly, yvespessia-curing topic it is,) was the plain set up by Lord Stirling, a subject of Great Britain, to the whole of the North American fisheries, by a right of capture to those of either the United States or Great Britain.

COL. GARDNER'S INSTRUCTIONS.

A Washington correspondent of the Freeman's Journal, New York, writes the following letter: WASHINGTON, August 12, 1853.—I am enabled to put you in possession of very important information, which I have just obtained, and on which, I need not say you may place the most implicit reliance.

THE SMYRNA AFFAIR.

It is reported that the Emperor of Austria has just issued a decree, and that the result is a surprise to all who were watching the progress of the election.

TABLE MOVINGS, &c.

The commonly received opinion, that the mysterious Table Movings, which have attracted much attention in this country and Europe, are produced by electricity, has recently been overturned; and to Professor Faraday, of the Royal Institute of London, is the credit of the discovery of the true causes of this phenomenon awarded, by the scientific world.
