Public Sale.

On Wednesday, the 20th of December next, I will expose to public sale,

Steam Saw Mill,

belonging to the Charlotte and Taylorsville Rail Road Company, situated about 14½ miles from Charlotte, on said Plank Road. Said Mill is now running and is one of the best machines ever erected in this portion of the State, and is rated at 15 to 18 horse power; attached to it are the usual head blocks with all the necessary implements requisite.

—ALSO—

Three High Wheels for hauling logs, 2 Chowels, 3 Axes and other tools.

At the same time I will sell the tract of Land, upon which said Mill is situated, known as the Alexander Land, containing about 181 acres—all woodland. Said Land lies well, is well watered, is in a healthy section, is admirably adapted to the production of Grain and Cotton—many of the same is in cultivation immediately, yielding 1000 lbs. of cotton in the seed. There being no Store between Charlotte and Davidson College and said Land lying on the Plank Road about equidistant between these points, would afford an excellent stand for a Store. Part cash will be required of the purchaser—balance on 6 or 12 months time.

Those wishing to purchase are invited to examine the property.

WM. JOHNSTON, *President.*

THE HYDROMAGEN,

OR,

WATERPROOF ANTI-CONSUMPTIVE

CORK SOLES,

MANUFACTURED BY

HARCOURT, BRADLEY & Co.,

44 MARKET ST., MANCHESTER.

Principal Warehouse, 102 Wood Street, Cheapside, London, England. American Establishment, 38 Ann Street and 102 Nassau Street, New York, U. S.

THE Hydromagen is a valuable discovery for protecting the feet from damp, cold, and forming a preventative of many Lung diseases, without any clothing whatever. The Hydromagen is in the form of a sole, and worn inside the boot or shoe. Its medicated character is a powerful antidote to disease.

For Gentlemen it will be found agreeable, warm, and healthy, to wear in the colonies or round Westher, as the feet cannot become wet if the Hydromagen is inserted. Ladies may wear the lightest evening boots or shoes in the most inclement weather with impunity, while Consumption, so prevalent among the young of our country, may be thwarted by their general adoption. They entirely supersede wet soles, as the latter cause the feet to perspire in a very unhealthy manner; and chilblains, and indigestion were to perspirations to any greater, like locus rubicera. While the latter causes the feet to appear extremely large, the Hydromagen, being a mere film sheet of cork prepared especially for the purpose, does not increase the size of the foot, or cause the feet to appear unsightly—To Cricketers they are extremely valuable, as they may engage in exercise well assured the dreadful effects. Their expense is so slight as to render universal purchasing by those who patronize them will find that yearly double's time soles sometimes thereby.

As the Hydromagen is becoming more known, its sale is increasing to a almost incredible extent. Last year in London, Manchester, Birmingham, Liverpool, Glasgow, Leeds, Dublin, Paris, Antwerp, Hamburgh, and Berlin, our sales reached 1,732,450 pairs of Cork Soles. This year the number will far surpass this.

Ask the Faculty their opinion of their value as a preventative for Corns, Colds, Bronchitis, Asthma and Consumption.
