

Deferred Articles.

From our Correspondents.

CHARLESTON, June 12, 1856.

Charleston has lately been the theatre of some pretty exciting scenes, and it is greatly profited by those who are accustomed to watch the current of events that we are on the threshold of a crisis which will remove the land marks which our fathers set up, and bury us in new and more exciting dispensation.

The opening of the bloody drama of revolution and civil war in Kansas—the flaccidation of a Massachusetts Senator in the Senate Chamber of the United States, and the nomination of Buchanan by the Cincinnati Convention, are now the exciting and all pervading subjects of discussion and controversy.

But the crash of governments and the wreck of nations which seem to be written by the hand of prophecy upon the broad scroll of the heavens, will not be confined in its fearful and resistible fulfillment to the Western Continent.

These dissensions should be deplored by every patriot, and Congress should immediately send a sufficient military force to suppress them.

On Thursday evening feeling valdicated addresses were delivered by Rev. J. W. Means, (D.D.) Judge Darling, (Phil.) Rev. Dr. Boyd, (V.V.) Rev. Dr. Adams, (N. Y.), and after passing votes of thanks to the moderator, the citizens of New York, the Committee of Arrangements and the Press, the business was concluded with devotional exercises, and the Assembly adjourned to the greatest harmony.

WASHINGTON, June 11, 1856.

The National Democratic Convention closed its labors on Saturday last. The result you have, doubtless, etc. heard. The Convention was exciting but harmonious, and though the nominations were made with great anxiety, there is still much dissension in the ranks, notwithstanding the effort to conceal it.

On the subject of platforms this Convention was certainly a model. After adopting a very fine platform they then adopted resolutions declaring that they did not believe in it. They then met by one, they can point to the platform as their basis of belief, and when attacked by another, for maintaining those opinions, they can point to the explanatory resolutions and say they believe no such thing.

Mr. Buchanan, personally speaking is a gentleman of pleasing manners, his education and considerable experience in political life. Politically speaking the American Organ, very justly describes what he is and what he is, as follows:

tained the Missouri Compromise, and sought to extend it to the Pacific Ocean, but he is now in favor of the South, and of "Nebraska-Kansas and no more slave States" at the North—he is in favor of the principle of the Wilmot Proviso, but in favor of anything else his party please—he is conservative in his views, but now square upon a full-blown platform—his nomination was, so says "the Star" an overture to the "Free-soilers" of the North, but is the very nomination the "free-soilers" demanded! Shout North! shout South! shout democracy!

John C. Breckinridge, of Kentucky, their candidate for the Vice Presidency is a gentleman of superior education, and fine natural capacities. He has served one or two terms in Congress, and was appointed by Mr. Pierce Minister to Spain, but declined. This public record is not so long as Mr. Buchanan's consequently so many inconsistencies cannot be brought against him.

A Paris correspondent of the New York Herald says that Mr. Fillmore is now in that place, and may be expected home about the last of this month. He also says that his letter of acceptance has been written and mailed. He endorses the American platform and condemns sectional agitation.

Our new Mayor was sworn into office on Monday, and has already removed every officer of the corporation under his control to vote the American ticket. Mr. C. P. Russell, a clerk in the General Post Office Department, has also been removed for the same cause.

Those who pretend to know, say that it is now certain that the Republican nomination for the Presidency will be bestowed either upon Judge McLean or Wm. H. Bissell, of Illinois. Judge McLean was born in 1785, consequently he is now seventy-one years old—much too old for the Presidency. Mr. Bissell was forced to retire from Congress in consequence of ill-health, so that, unless his health has greatly improved, we shall not have much to fear in the campaign from the vigor of the candidate, should either of these gentlemen receive the nomination. (The convention will meet on Tuesday next, when all doubts on the subject will be dispelled.)

The news from Kansas is of a warlike nature. An extra Westport Times of the 5th says: Reliable news had been received of the burning of the town of Bernard, Kansas. The fire-free men on the night of the 3d destroyed from \$19,000 to \$15,000 worth of property. A company of 300 Abolitionists, the same account says, captured the town of Franklin, being opposed by fifteen pro-slavery men. Three persons are reported killed. The fight lasted an hour.

The Independence correspondent of the St. Louis Republic, under date of the 5th, says that Marshal Donaldson and four of his men, whilst in the discharge of his official duty, had been killed near Hickory Point on the 2d. The Marshal was in the act of arresting the men attached to the party under Captain Pate's company who were destroying houses and driving families from their homes near Bull creek.

One hundred and fifty men under Captain Reed, left near Santa Fe in pursuit of the marauders. Report says that Franklin had not been taken, though it was attacked by a large party.

A party of Pro-slavery men, including the son of Governor Shannon, made a night attack on the house of Captain Walker, five miles from Leavenworth, when they were fired upon and repulsed. Young Shannon was taken prisoner, but released the next day. Governor Shannon took a company of dragoons and searched the houses of the Free-State men for two days, taking their arms and ammunition.

These dissensions should be deplored by every patriot, and Congress should immediately send a sufficient military force to suppress them.

WANTED, AN HAIR FOR \$100,000.—The following curious advertisement appeared in the New Orleans Picayune of a late date: "Wanted, by a person who has One Hundred Thousand Dollars and no heir, to adopt from birth, a child. It must be of American parents, and from one hour to ten days old, sex immaterial. Any person having a child they wish to dispose of can thus secure a good home and a fortune; or any lady about to become a mother, and willing to part with her child, can have a respectable physician to attend her and no questions asked or answered. Applications must be made within ten days. Address 'A,' through the Post Office, or the Picayune office."

NEW JERSEY ELEGY.—A prominent leader of the American party in New Jersey, now in this city, informs us that the Fillmore and Donelson spirit is thoroughly aroused in New Jersey, and that there is no doubt of a glorious American victory in that State in November. The skies are brightening all over the country.—Washington Organ.

A CLAY WAT.—Mr. Roby, of Paris, has a timepiece made entirely of clay. All the works, plates, cogs and wheels are made of aluminum; and Mr. Roby believes that it is much better for these purposes than the materials generally employed. It is much lighter, does not require so much power to conduct the works, and, therefore, with a heavy balance, will obtain a better result for regularity. It is very hard and smooth when hammered, and the friction will be reduced to almost nothing. What next?

RATS.—A country paper says that rats may be expelled from your cellars and granaries simply by scattering a few stalks and leaves of onion in their paths. There is something very annoying in this plant to the rat. It affords, therefore, a very easy method for a most perplexing evil, and much more economical and less troublesome than gunpowder, "rat exterminators," cats, or traps.

New Platform of the American Party.

1. A humble acknowledgment to the Supreme Being who rules the universe for his protecting care vouchsafed to our fathers in their successful revolutionary struggle, and hitherto manifested to us, their descendants, in the preservation of the liberties, the independence, and the union of these States.

2. The perpetuation of the federal Union and Constitution as the palladium of our civil and religious liberties, and the only sure bulwark of American Independence.

3. Americans must rule America, and to this end native-born citizens should be selected for all State, Federal and municipal offices or government employment, in preference to all others; nevertheless,

4. Persons born of American parents residing temporarily abroad should be entitled to all the rights of native-born citizens; but no person should be selected for political station, whether of native or foreign birth, who recognizes any allegiance or obligation of any description to any foreign prince, potentate or power, or who refuse to recognize the federal and State constitutions (each within its sphere) as paramount to all other laws, as rules of political action.

5. The unqualified recognition and maintenance of the reserved rights of the several States, and the cultivation of harmony and fraternal good will between the citizens of the several States, and to this end, non-interference by Congress with questions pertaining solely to the individual States, and non-intervention by each State with the affairs of any other State.

CLARENDON IRON WORKS, WILMINGTON, N. C. A. H. VANBOKKELLEN, Proprietor. THE ESTABLISHMENT. THE MECHANICAL DEPARTMENT.
