

Sunday Reading.

SALVATION.

Some men will say, the gospel for the most part, brings good news; but then it is only if I believe. To answer this, if the gospel held forth Christ and salvation only to those that believe, it were little better tidings than the law. But the gospel saith not, bring faith with thee, and then here is all the grace and salvation. No; the gospel expects not that any sinner should of himself bring faith, for he hath it not. But the gospel, as it brings salvation, so it breeds faith in the heart of a sinner. The same words that makes known salvation, begets faith in the heart to receive it. The God that gives his alms, gives a purse to carry it. Therefore, when I hear of grace, glory and salvation, by Jesus Christ, I must not consider where I shall have a vessel to carry it home, where I shall have faith to receive it; but it carries the vessel with it, and I go and take the promise; and by the Holy Spirit that same gospel that brought the grace will work faith, or else it were as harsh as the law. Therefore never stand off about faith; for he that gives grace and salvation will work faith. (Eph. ii. 8.)

This, then, is the door of the gospel, the very entrance into the Christian religion, the first stone in the Christian building. There is a kind of devotion and profession; but it is not built according to the gospel. If you would walk according to the gospel, learn this lesson first, that God gives life and salvation through Christ to sinners as sinners. Though they be hardhearted, backsliding, the chief of sinners, yet so long as they be sinners, and but sinners, they may always look upon Jesus Christ, and salvation in his hand ready to be bestowed upon them. This is a truth that sinners must learn, and be taught of God, or else they cannot go one step in the profession of the gospel; for beloved, till you know and learn this, you will be like men in the dark, you will be groping for Christ Jesus, but you will never be grafted into him, you will never be knit to Christ—*Walter Chastell.*

RELIGION.

Believe no individual on earth who tells you that religion is a gloomy thing, and that its possession is melancholy. Should you look at a pious person, and notice a tinge of gloom upon his countenance, think not that it is religion that darkens the aspect of the features; it sobers the mind, but does not sour it. Religion enlightens the soul, consequently cannot obscure the light which should always beam in the Christian's eye. It checks the wild mirth of fools, which in Scripture, is compared to the "crackling of thorns under a pot;" but it confers a cheerfulness to the heart which will cause the face to shine. It gives a mildness, a complacency to the feelings, which occasions gentle, cheerful manners. It creates simplicity of character, so beautiful, so attractive in youth, and produces that open frank heartedness and benevolent friendliness of demeanor so lovely in all ages. We must recollect that divine grace, although it renews the heart and sweetens the temper, does not change the constitution of our physical being, from defects in which melancholy and gloom in religious characters frequently arise, and if indulged darkness will be produced; but religion makes every sin hateful to the soul. Be assured, in every trial and vicissitude of life, that it is religion only that can make you happy and that can give you cheerfulness of heart. Happiness is a sober feeling of the mind. We should never, then, permit an idea to arise that the great God is a severe gloomy being, who delights in misery; but habitually think of Him as the kindest friend that we have, who admits us to converse with Him. Yet, the great Jehovah delights to listen to the prayers of all His children; even from the mouths of "babes and sucklings" he can perfect praise. He attends to all our wants. Let us, then, go to Him with humble confidence, and pray that He would be the guide of our youth, the strength of our manhood, and the hope of our old age; and that he would give us that wisdom which alone comes from above, and which is, of itself, sufficient to make us "wise unto salvation."

KEEP THE SABBATH.

Be zealous on this point. Whether you live in town or country resolve not to profane your Sabbath, or, in the end you will give over eating for your soul. The steps which lead to this are regular. Begin with not honoring God's house; cease to honor God's book, by-and-by you will give God no honor at all. Let any man by the foundation with no Sabbath, and I can never be surprised if he finishes with the top stone of no God. It was a remarkable saying of Judge Hale, that of all persons convicted of capital crimes, while he was upon the bench, he found few who did not confess that they began their career of wickedness by neglect of the Sabbath.

A SCRIPPTURAL SUM—Christian readers, here is a sum in addition for you to work out. It will require diligence and care, and shall of no wasted time.

Add to your faith virtues;
And to virtue, knowledge;
And to knowledge, temperance;
And to temperance, patience;
And to patience, godliness;
And to godliness, brotherly kindness,
And to brotherly kindness, charity.

The Answer: For if these things be in you and abound, they make you that ye shall neither be barren nor unfruitful in the knowledge of our Lord Jesus Christ—2 Peter, 1: 5-8—*Christian Index.*

Agricultural.

SOMEWHAT ABOUT POTATOES.

An item is going the rounds, to the effect that potato tubers are not exhausting to the soil, that the tops are very exhausting, and should therefore be spread as evenly as may be and left to decay in the field.

Allowing something for exaggeration, the premises seem to be true, and the conclusion of some practical importance. The facts are, that the tuber draws largely, and the tops still more largely, upon the potash of the soil. Consequently the growth of both must be exhausting, but that of the top most so, on soils not overstocked with potash; but if the tops are left to decay on the soil, this ingredient is restored, and the whole result is not more exhausting (we believe) than the generality of crops.

While on this subject we wish to say, or rather to repeat, for we have said before, and mean to keep it before our readers, that in preparing for a crop of potatoes, unless the soil is known to abound in potash, this should be a prominent ingredient in the manure. The potato being a potash plant, not that it carries off a very large amount of that substance, but using a great deal of it during its growth, requires that the soil should be well supplied with it.

We lay claim to no specific for the potato disease, but we have long suspected that the exhaustion of the potash in old fields may have had something to do with it; and if the plant is ever to regain a complete ascendancy above the power of the disease, we are strongly inclined to the belief that it will be by supplying it plentifully through successive growths with this favorite food.

WHEAT GROWING.

In New England the farmers often raise excellent "Spring wheat," by pursuing the following course: They plow very deep, and make the soil fine, and manure very generously; they secure the best seed, they sow two bushels—sometimes more—to the acre. We have seen wheat fields growing on the mountain sides, in Massachusetts, which have yielded thirty bushels to the acre. We know one farmer, in that State, who has paid attention to this matter, and who says that there is no difficulty in raising excellent wheat in abundance in New England. He has a mountain farm himself, and yet he rarely raises less than twenty five bushels to the acre. He raises Spring wheat only, and takes the greatest pains in every respect.

Such facts as these, from New England, are admonitory and encouraging to us of the West. All we need to secure large crops of wheat, as regularly as other crops, is to take due pains—the same pains that in circumstances far less favorable, give to the farmers of the same grain. We would say, then, do the following things:

1. Have your land in the best possible condition, by drainage, and the best plowing and harrowing.
2. See that it is rich, either naturally, or by the use of manure. Manure should either be well rotted, or applied with previous crops.
3. Get the very best seed, taking the advice of the best farmers; make it perfectly clean; use none but the plumpest kernels.
4. To prevent smut, use the preparation of urine and lime, which we have several times mentioned in the Farmer.
5. Do not be sparing of the seed; two bushels to the acre is not too much.
6. Sow early and cover evenly and well.

These are old suggestions, well understood by practiced farmers, but a great many do not understand them; and many who do, fail to practice them. We, therefore, insert them now, (while farmers are preparing their ground for wheat) hoping they may be of use. We have no sympathy with the despairing feeling which prompts men to abandon the growing of wheat. Intelligent careful cultivation may secure generous crops still.

BOOK FARMING.

One of the most practical cases of "book farming" that has come to our knowledge is told us by a friend. A young Maryland farmer, a reading man and a working man, got hold of Liebig's great work on agricultural chemistry soon after its publication, and became convinced of the propriety, notwithstanding that his farm was limestone land, of making a fresh application of that fertilizer. After a good deal of hesitation on the part of his father, the lime was tried, and after being tried, continued. The improvement in consequence has been such, that where five and six barrels of corn was the outside, as much as fifteen per acre have been made, and other crops in proportion. A debt, the interest of which they could scarcely keep down, before, has been paid off, and they have bought field after field with ready money from neighbors who could not afford to buy lime, or agricultural books.—*American Farmer.*

TO MAKE WASHING FLUID.

Take 1 gallon of soft soap, 2 quarts of soft water, 1 gallon of spirits of turpentine, and 5 ounces of sal-soda; boil them together for five minutes. When wanted for use put your clothes to soak over night, and in the morning add one pint of the fluid, and then boil the clothes for fifteen minutes, after which rinse twice in cold water.

Dissolution.

THE firm of WILLIAMS, GILLESPIE & CO. was dissolved by mutual consent on the first day of July, 1857. The Notes and Accounts for 1856 must be paid forthwith. The Accounts for 1857 can run as usual and will be settled at the end of the year by L. S. Williams, who will continue to carry on the business at the old stand.

The late firm return their thanks to the public for the liberal patronage liberally rendered, and their success hopes, by manifesting a spirit of accommodation, to merit a continuation of the same.

WILLIAMS, GILLESPIE CO.
Charlotte, Aug. 4, 1857. 236f

ALL persons having claims against the late firm of WILLIAMS, GILLESPIE & CO. will present them to the undersigned for settlement.

L. S. WILLIAMS.
August 4, 1857. 236f

Dissolution.

THE partnership heretofore existing between the undersigned, is this day dissolved by mutual consent. All persons indebted to us are requested to be prepared with the amount they are due us in a "few days," as settlements must be made.

JONAS RUDISILL,
P. S. WHISNANT.
Aug. 18, 1857. 236f

Sash, Blinds and Doors.

I will still be found at my Steam Planing Mill, prepared to fill all orders for

Sash, Blinds and Doors,

with as good Lumber as the country affords, expecting to devote my attention more particularly to my shop, and solicit orders for work in my line of business.

EP Lumber dressed to order at short notice—prices moderate—paid upon delivery of the work.

J. REDISILL.
Aug. 18, 1857. 236f

In retiring from the firm heretofore existing under the name of Rudisill & Whisnant, I do with the kindest feelings towards the citizens of Charlotte and surrounding country, for the patronage so liberally bestowed upon us, and with the knowledge that the business will be carried on equally as expeditious as we have done.

P. S. WHISNANT.
Aug. 18, 1857. 236f

AMBROTYPE LIKENESSES.

THE public is respectfully informed that J. M. LANCASTER'S

AMBROTYPE GALLERY,
opposite J. T. & S. M. Blair's Grocery Store, in Springs street, is now open, where a colored Ambrotype can be procured at from 75 cents to \$1.

Ladies and gentlemen are requested to call and examine the Specimens, and have a Likeness taken of themselves or children. Call early, as such an opportunity is seldom offered.

J. M. LANCASTER.
Charlotte, May 19, 1857. 121f

New Cabinet Manufactory.

J. A. & M. S. OZMENT.
We are now manufacturing a new and improved style of Cabinet, in the STEAM SAW AND PLANING MILL, of J. R. Russell, for the purpose of

MANUFACTURING FURNITURE

THE HONORABLE ANGEL IN DISGUISE, by Mrs. LECHE.
THE GOLDEN LEGACY.
THE MOORE; RIVALRY; and THE FORTY GEN. THERMAN'S LIFE—Taken from his own voluminous papers. By J. P. LOWRIE.
Charlotte, March 24, 1857.

New Establishment.

THE undersigned having established himself primarily in Charlotte, is now carrying on the following branches of business, viz:

Silver Plating, Gun and Lockmaking, Bell Hanging, Silver, Brass and all kinds of Metal Work repaired; Composition Mill Lugs and Boxes of the most durable kind made, and warranted to be superior to any other kind for Mill and Factory purposes.

All of the above branches I warrant to turn out in a workmanlike style.

Cook makes a distance that wish to have their work done I will give particular attention to despatching as soon as possible.

Persons at a distance wishing Goods altered from stock to perfection or otherwise repaired, except shoeing, will have them repaired and returned on the shortest time possible.

I could give many names of reference as to workmanship, but I deem it unnecessary as I will leave the work to speak for itself. So send on your work as soon as possible all.

My JOBING will be cash.

Please give a call at my shop, opposite the Presbyterian Church.

JOHN M. MASON.
Charlotte, March 18, 1856. 41f

THE N. CAROLINA PRESBYTERIAN.

The Presbyterian Church in North Carolina has long labored under a serious disadvantage from the want of a journal to advise her claims and represent her interests. It is estimated that only 14000 Presbyteries in the entire Union, and only 35000 members in this State. Our Synod stands in the same position as our members, and her membership is greater than that of any Synod South or West of Pennsylvania. Our sister States on the North and South, neither of which has a membership so large as ours, publish the Central, and the Southern Free Presses, for the benefit of their people. The time has come when the Presbyterian Church in North Carolina should likewise do her duty to her children. It is conceded and important, that the interests of our members will take a State paper which will take no other. The Paper is needed to be the organ of our Synod and Presbyteries—to elevate and enlighten the people of our membership by diffusing evangelical knowledge—to promote the cause of Education—to develop the talents of our Ministry, and to strengthen the attachment of our people to the soil and sanctuaries of their own State.

PROSPECTS OF THE N. CAROLINA PRESBYTERIAN.

It is our duty to our State, and other Churches in this State, to supply their members with a Religious Journal, why may not we, as North Carolina Presbyterians, in our talent, energy and patriotism, bid their neighbors on the North and South to give up their papers, and unite with us to develop the talents of our Ministry, and to strengthen the attachment of our people to the soil and sanctuaries of their own State.

SANDFORD'S INVIGORATOR.

AS A LIVER MEDICINE.

THERE has long existed a demand for such a remedy that could be relied on as safe and successful. This remedy has been prepared to meet that demand, and an extensive trial of its virtues has shown how universally it has accomplished the purpose designed. Among the complaints which have been specially cured by the use of the Invigorator, we mention Liver Complaint which is the cause of many other diseases—among which are, Biliousness, Headache, Pain in the Side and Lungs, Bilious Fever, Fever and Ague, Jaundice, Indigestion, Loss of Appetite, Loss of Strength, Lassitude and Irritability—all of which are caused by a diseased action of the Liver. The Invigorator is compounded with particular reference to the Liver, and when that organ is removed all the rest is cured, as the cause of them is taken away. A few doses of the Invigorator rarely ever fail to stimulate the Liver to a proper action, and by its continued use to remove the disease. It has been taken with great success in cases of Cholera, Dysentery, &c., and for those it has been found a very efficacious remedy. An occasional dose stimulates the stomach to a healthy action and restores the appetite and vigor. One dose will relieve the oppressive uneasiness experienced by eating a heavy dinner, and it creates the digestive organs to vigorous action. For a debilitated state of the system the Invigorator has an equal which experience proves, it restores the system and removes the yellow bile from the skin, which is the result of a diseased Liver.

Prepared and sold by Sandford & Co., 128 Front St., New York. Price \$1 per bottle, containing 40 doses. Also sold by

F. SCARR & CO., Charlotte, November 11, 1856. 38-1y
