THE INFLUENCE OF A HOLY LIFE

As the moon reflects the light of the sun, so the church has to reflect the light of the gospel upon the world.

Now, among the modes in which this may be sought, none is more efficacious than the great discipline of a holy life.

Men who very well that Christianity aims to secure a higher morality than the principles of the world can secure.

Multitudes of men surround us who are much more influenced in their judgment of Christianity by what they see Christians do, than by what they hear them say.

Year life, O Christian, must truly represent your principles. You are the eyes of the world, and you must not dishonor your patriarchy.

How many professors—how many even real Christians take their tone too much from the state of things around them, instead of taking it simply from the word of God.

If we would shine as lights in the world, we must be "blameless and harmless, the sons of God, without guile in the midst of a crooked and perverse nation."

Woman and the Family Altar

How many Christian women are sighing from day to day because so many families are fast beneath their roof.

A friend discovered with pain, on her second marriage, that no prayer was offered in her new home.

Very soon she entered with him about her own soul, going back to seek the altar, and to establish a family altar.

RECLAIMING CLAY SOILS.

No subject can be more important to large districts of our country, than the reclaiming of clayey and other heavy soils.

Among these we may name the red hills, hard pan soils, ferruginous clays, ferruginous loams, etc.

Clay soils are always more fully charged with the inorganic constituents of plants than light soils.
