The extreme coolness of our western cousins is worthy admiration. They see every thing in a practical point of view, and, as a general thing they manage to get the best in the way of bargains by the cool assumption of unsophisticated manners. Our friend Johnathan

was one of those "green" ones.

A minister settled in one of our western villages, in which the primtive manners of pioneer life had not been smoothed by refinement and cultivation, was seated in his study one day endeavoring to arrange the heads of to-morrows's discourse, when his atten-tion was called by a loud knock at the

Aver's Sarsaparilla
A compound remody, in which we have laboued to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so constituted with other substances of still greater alterative power as to afford an effective antidole for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immouse service to this large class of our affinited fellow-critisms. How completely this compound will do it has been proven by experiment on many of the worst case to be found of the following complaints:
