HOME AND FRIENDS

Oh there is a power to make each hour As sweet as heaven designed it i Nur need we count to bring it binne. Though few mere be was find it.

We work the high for things slove by, And luss what noture found us; For life bath here no light so dear As home and friends around us.

We o't destroy the present joy, For future hopes and praise them Whilst flowers as sweet bloom at our feet, If we'd but shop to raise them f

For things after still smootest are, When youth's bright spell has bound us,

But some we're taught that earth for naught Like bone and friends around us. The friends that speed in true of need.

When hope's last rend to shoken, To show e.o. still, that come what will, We are not quite fortaken.

Tanagh all were night, if hat the light From treathing's alter drowsed us, Twould prove that bries of earlie was thin, Our hams and friends around us !
