IWU WAYS TO SAVE MUNEY A LIFE SEETCH,

BY SYLVANUS COUR, JR.

## -----

The following sketch of real life so plain ly exhibits a lessen which might be profit ally tellowed by many of our people, that we give it to the roader simply as it occurred, only concealing the real names of with any " reflections."

John Poland and Auron Lyman bought farms adjointug caub other. The laud bad formerly been owned by one man abo had man, as he turned away. carried on the whole, employing a heavy force in the work. When the two friends on day, and there is and the this neigh. "You s bought the land it was as equally divided bor Poland had engaged all their manure her possible ; and after the line of separation for Foland had cogeged all their manure "We shall, fer bad been run, those who had worked much for is wood, and butter, and cheese, and Mr. Lyman ha give the "toss of a copper" for a choice wanted. between the two farms. The old buildings were almost, necless so new oner wars erec-been aud dons new?

As I survey where the white their white spery my neighbor Poland-he'll take anything on this place is on interest. Time anybody offers him." " Eve called on him, sir, and "is told me much interest have you realized ?"

I'd better slop here. He said you were "So far I ve let it all ran at corepound I say taking no agricultural paper. " And did by subscribe ?

" Yes-and path me the money." lors 'll come ous minus; -now you mark eish

my words. Doily Lyman said noching, for she was raise it without witing something which I troubled at that moment by the thought do not wish at present to part with. that her husband was exercising a spirit of "librought so. But take your own way" promuriousness which looked mean | but she Ere long Anson Lyman was astonished did not say so. to find that his neighbor had subscribed

"Halle ! what we doing ?" eried Lyman, for a third paper, losides buying a lot of as he saw Poland commencing to rau & books for his children.

fouce accord his Beld. "I'm going to throw out just half of turs has neighbor's front room, and saw a large field inth pastaring," retarned Poland. pric of hooks on the shelf. "I want my "What?" exclarmed Lyman hardig able children to learn to work-not to be spen-

"I know it, ward that a will a sail. I to "ork." returned Psiani ; "but that arrea of and stor the sum twenty four of good hearth, good hearth, and sen of the sum of
