

WALTER J. BOYLIN, Editor and Proprietor.

LOCAL MATTERS.

Reed's Bronchial Troches are all the go. Try them for cough, cold, hoarseness, &c. Only 25 cents.

The Wadesboro girls are the prettiest in the State.—Exchange. This would be correct if it wasn't for their big feet. It takes a number 7 for the average Wadesboro girl.

The Congress of the Alpha Tau Omega Fraternity, meets at Raleigh in July next. Our talented young friend, Geo. B. Everett, Esq., of this place, is the orator for the occasion.

We are glad to report that a much larger amount of grasses have been sown in this section this year than ever before. It always gives us pleasure to notice improvements of this kind.

From our own observation and what we can hear, we are inclined to the opinion that quite a respectable fruit crop will be realized in this section. Much of the fruit did not put out till after the killing frosts.

A Hickory correspondent writes: The lively stables are making great preparations to accommodate summer visitors.

If that's the best accommodations Hickory can offer tourists they will steer clear of that place.

The North Carolina Synod of the Evangelical Lutheran Church meets today at St. Enoch's Church in Rowan county, eleven miles from Concord. We hope to have a full report of the proceedings for our next issue.

There will be a Sunday-School Concert at the Methodist Church on Sunday next, at 2:30 P. M. After the Concert exercises are over, Geo. B. Everett, Esq., will deliver a Sunday School address. The public, and especially the other Sunday Schools of the town, are cordially invited to attend.

THE RAIN.—We have just had several welcome showers of rain in this section. The ground had become so dry from the absence of rain, that many farmers were compelled to stop plowing, but now they are pushing their operations with vigor, and all vegetation is refreshed and quickened.

Quite an interesting temperance meeting was held in the Methodist Church last Sunday evening. Addresses were made by Rev. C. M. Pepper, Dr. Board, of Iredell county, G. H. Everett, Esq., and Mr. J. W. Cordes. These Sunday evening temperance prayer-meetings have been kept up here for sometime past, and have no doubt exerted great influence for good in the community. All denominations unite in them.

Religious services have been conducted at the Lutheran Church during the past week. We have not had an opportunity to be present, but learn that the congregations have been good, and the services interesting and impressive. Rev. Dr. Davis, president of North Carolina College, was present and preached on Saturday and Sunday. His sermons have been highly spoken of, and from what we learn were calculated to do much good.

We have been in four or five counties in the last two weeks, and although it is rather early to begin to talk about the prospects of a good crop this year, yet, we think, from what we could see and hear, the indications are that very fine crops will be made throughout this section of the State. The farmers have well prepared their lands and are fully up with their farm operations. The wheat has about recovered from the effects of the cold, and if the season continues good an average crop, we think, will be made.

DEATH OF AN OLD CITIZEN.—We regret very much to hear of the death of Mr. James White, one of the oldest citizens of the county, which took place on last Wednesday the 26th ult. Mr. White's age was 82 years and 6 months. He was the son of William White, one of the band of "black boys," who destroyed the British ammunition wagons three miles from Concord, in the year 1771 the history of which is well-known to most of our readers.

He is thought to be the last one of the children of any of this patriotic band. He lived four miles South of Concord, and was the father of Mr. R. W. White, who is well-known in this place.

ASHE AND VANCE.

These two gentlemen are the only prominent candidates for the nomination for Congress from this District. We do not credit the report that Mr. Ashe does not want a re-nomination. We have recently talked with personal friends of his, and they are not aware of it if he has made any such declaration. The three Aspin county papers have declared for him, and they certainly would know it if he is not a candidate. The fact that Gov. Vance is so universally spoken of for Governor, will materially damage his chances for Congress—if he wishes that nomination. While in Stanley last week we conversed with many prominent citizens on this subject, and found every one to be for Vance for Governor and Ashe for Congress—and this is no doubt the feeling in all the Eastern counties of the District, and possibly in some of the Western ones. We have been in several counties recently and everywhere we find the feeling to be strong to run Vance for Governor (as he is conceded to be the strongest man in the party) and then elect him to the U. S. Senate. As to the feeling in this county we are not authorized to say.

Individually we are for Vance for any office he may want. If he wants to go to Congress we are for him, and if there is no chance to elect him to the U. S. Senate we are for him anyway—for if any man in North Carolina is entitled to, or qualified for, a seat in Congress he is the man.

If Vance and Ashe enter the convention together, we think there would be but little doubt of Vance's election, as after the first ballot or two all the loose votes, that is, those freed from instructions, would go to him.

Since the above was written we have received the Rockingham Courier, containing the following article, which bears us out in our opinions fully!

VANCE FOR CONGRESS.—Some of our Western exchanges are urging the name of Gov. Z. B. Vance for Congress in this District. One of them, the Concord Sun, was the first paper in North Carolina to raise the name of Vance for Governor. Why it has changed its base it does not say. We have taken some pains to ascertain the feeling of the people in Robeson, Montgomery and Richmond and we have not found a single man who desires to see Gov. Vance nominated for Congress, but all—even the "sand hill farmers, say Vance must run for Governor." He is our strongest man, and if a majority of the people in this District see fit to nominate him for Congress—our party is almost sure to be defeated in the State election. There may be others who might get as many votes as Vance, but the people throughout the State have centered on him as our standard bearer and for that reason alone he is the strongest man in the State. Individually, we would rather have Lin in Congress than Governor, but the interest of the State and our party demand the latter, and therefore we hope to see the present incumbent or some other gentleman in the District nominated at Wadesboro on the 7th of June.

Concord Presbytery. From the Salisbury Watchman. This body met in Mocksville on last Friday, the 21st inst. Nearly all the ministers and most of the Ruling Elders were present. Rev. J. Ruple was elected Moderator, and Rev. B. L. Beal, and Mr. E. M. Stevenson, clerks. The usual routine of business was rapidly transacted, and in addition some items of special interest.

1. Four ministers, viz: Rev. Messrs. Penick, Anderson, Glasgow and Thurston were received from other Presbyteries, thus raising the number of Ministers to 23.

2. Two Candidates, viz: Messrs. Rainey and McLehlan were licensed to preach as probationers.

3. Reports showed that the average salaries of laboring Ministers were raised last year from about \$700, to \$800, thus showing a deeper interest in Ministerial support.

4. Considerable additions were reported to the membership of the church. There are now over 5500 church members in the Presbytery.

5. A New church was organized at Mooresville.

6. Steps were taken with the view of raising \$1000 the coming year for the cause of sustentation.

7. Rev. L. McKinnon and Prof. J. R. Blake were appointed Commissioners to the General Assembly, soon to meet in Savannah.

8. Arrangements were reported that promise that every church in the Presbytery will be supplied with the means of grace in the course of a few weeks. This state of things has probably not existed during the present generation.

9. The subject of beneficiary education elicited an animated discussion. The Presbytery resolved to continue its present plan, only arranging to use greater watchfulness against abuses.

10. One candidate for the ministry was received under care of Presbytery, who will go to the Theological Seminary this fall. The meeting was harmonious, full of interest, and it is hoped that much good will result. The sessions closed at noon Tuesday. The fall meeting of the Presbytery will be held at Hickory, N. C.

CORRESPONDENCE.

Every reader of the Register is requested to contribute to this Column.

Mount Pleasant.

We have taken a "ruralizing" and our usual look about the burgh lately, and was surprised to find that Mt. Pleasant was as large as an exploration showed it to be. We found within the limits of the corporation forty-nine residences, forty-five of them were occupied by families, two are being built, and two are unoccupied. Having thus far looked into the private concerns of the town we felt a desire to know its population, which interesting research revealed, that there were forty-eight families, and a citizenship of two hundred and eighty. Ten months in the year our educational institutions are in operation, which adds a transient population of about one hundred and twenty students, which added to the regular residents, makes a population of about four hundred persons.

There are on the suburbs of the corporation eight dwellings, making fifty-seven residences that should be included in the make-up of the town, and adding about fifty to our list of people. There are but six negro families in the whole of the list, and within the limits of the corporation there are but three colored households, and but one negro owns real estate in all the city and its surroundings. It is needless for us to recapitulate our religious, educational, business and social standing and associations; they are of the highest, unsurpassed, and we think unsurpassable in this State or any other. Our political aspect varies but very little, our friend is still lonesome, though we have heard that it was probable that a Radical candidate for President might get two white votes in Mt. Pleasant city next fall; uncertain, however, and we doubt if the colored vote will be solid for the Republican candidates. We are ready to move a regular Democratic wave from Mt. Pleasant, when the campaign opens, that will be almost undisturbed by a ripple of opposition.

Trade is awful dull down here, Esquire Misenheimer and Kin Cox have gone to the field to exercise themselves ploughing and planting. They run their mercantile establishment alone, and gets very weary waiting for trade. We heard Major Heilig tell a customer the other day that he would put off a fishing trip any time three days for a chance to sell five cents' worth. Esquire Shinn came in from the country one day last week, the only arrival in town. The merchants actually had to smoke cigars out of their own stock or have no trade at all. But the farmers are all planting and there's a good time coming, which hope cheers us.

PERSONAL.—We were delighted with a brief call, at the burgh, from Messrs. Henry Montgomery and James Jenkins, jolly and popular salesmen from Concord. Long may they wave. Prof. Ludwick was in town last Sunday. He looks well, and if he would marry an accomplished lady we think he would be happy.

Albemarle Items.

Peace and harmony still reign supreme in our little town, and the sound of the saw, axe and hammer can be heard "from early morn until dewy eve." Hon. S. J. Pemberton is having a handsome residence erected near the Methodist Parsonage. John Myers is the builder. There are also other improvements going on, such as repairing yards, gardens, &c.

Our farmers say that the wheat and oat crop is likely to be a failure to some extent. We learn that Sheriff William H. Hearne is improving, and will perhaps be at home next week. He is now in Salisbury receiving medical attention.

We notice the return, to-day, of Julian A. Turner, Esq., and lady. Mr. Turner is a young lawyer, who has just this week chosen the "better part." He married Miss Leach, from near Trinity College. We congratulate Mr. Turner on his success.

There is considerable anticipation of the match game of base ball, which is to be played between the Zeb. Vance club, of Albemarle, and the Gold Hill club, on the grounds of the former, on Saturday, 27th inst. The Zeb. Vance club is a new club, and have never had but little practice, but they bid fair to be as good players as can be found. Long may they prosper, in emulation of the name of our Ex- and next Governor.

Hon. S. J. Pemberton is absent, attending the Superior Court of Anson. We learn that Birmingham, the man who shot Jowers sometime ago, was released, the Grand Jury finding the bill not a true bill. His Honor, Judge Schenck, is making it lively for some of the negroes, and will probably give Sheriff Wall an excuse to go to Raleigh soon.

There have been three marriages in "old Stanley" this week. Marriage No. 1, last Sunday, 23rd ult., by Rev. W. W. Russell, Mr. J. M. Callaway to Miss — Earnhardt; No cards. No. 2, Mr. J. M. Burris to Mrs. Bryant, widow of R. R. Bryant, on the

25th ult. No. 3, Mr. — Williams, of Montgomery county, to Miss Pattie Crowell, of Stanley. Good for old Stanley. We hope to hear of HARD TIMES no more. Hurrah, Bro. Snuggs, you are making the pelf. Now just listen—four marriages in one week. Gold, more or less, on every hundred acre tract of land in the county; corn in abundance at 80 cents per bushel cash; money plenty, and every body happy. More good news next time. PHILOS.

Berrien from China Grove. The wheat is very promising in this section, and every thing is "gay and lovely." The ladies gave a grand picnic on Friday, the 28th ult., near the original China Grove, one mile from the village. (And we would state here for the information of our readers, that this place derived its name from the amount of China berry trees which grow there.) The picnic was a perfect success. The young ladies gave an excellent dinner which was served, after some lively exercise had been taken, and then to play again, which continued until umbrellas were in demand to protect from the shower. We don't think we ever saw so much beauty, wit and grace together in one place. And we would suppose from the remarks of some of the young men that they went home perfectly heartless, and some of the ladies with more than they can care for.

On Tuesday, the 2d inst., the Lutheran Synod will commence at St. Enoch, six miles from here, and great preparations are being made for the entertainment of those who will attend.

China Grove claims to have the oldest station land on the line. He has been here for twenty-four years, and says he has never lost one day by sickness. He often pumps all night, and we have often seen him pumping while sound asleep. He is a faithful and trusty darkey.

Messrs. Patterson & Corriher have sold sixty-three tons of Merryman's Dissolved Bone this spring, nearly all of which is to be paid in cotton at fifteen cents in November.

Casper & Cook seem to be crowded with work, and every few days we see a glittering buggy driven out.

There will be a good deal of improvement made in the village this summer. The lumber and shingles are now being secured for building and rebuilding. ALEX.

Drops from Cold Water. The recent refreshing rains were welcomed by our farmers generally, some of whom had been compelled to stop plowing on account of the dry weather.

Frost on Cold Water on Wednesday morning, 26th inst.; no damage done.

We would call attention to the election to take place at Mt. Gilead the 9th of May. Fence law or no fence law for Township No. 5, is the question to be decided. We hope that the friends of the measure will turn out and secure the fence, as we think it will be a great advantage to the community.

The following notice was handed to your correspondent by the citizens of this township respectfully asking you to publish it: Mr. Egerton.—As the time is approaching when the county will be called upon to nominate candidates to fill the various county offices, we would recommend to the consideration of the County Convention, the name of Mr. Crawford Walter, of Township No. 5, as a suitable person for Register of Deeds. Having been brought up in our midst we know him and can safely trust him. He was disabled for life during the late war, and is deserving of the suffrage of the people of the county.

J. F. Misenheimer, W. R. Blackwelder, C. W. Alexander, D. M. Lipe, H. A. Blackwelder, T. H. Sapp, F. M. Neisler, W. F. Barnhardt, Benton Barnhardt, J. A. Gourley.

A friend writes to us thus from China Grove: DEAR SIR.—Please send two copies of your paper to the following address, ——. I will be down before long and pay for them. Your paper is a welcome visitor to our office, and its readers are well pleased with it. I am sorry I have not more time to devote to its interest, but I expect soon to have more subscribers to it than any other paper that comes to this office printed in the State.

Respectfully, J. A. C. Two or three months ago we had no subscribers at all at China Grove; now our list there numbers nearly twenty. Our young friend J. A. C., has our sincere thanks for his efforts on our behalf in that neighborhood.

"Monroe has the finest Watch-maker in the State.

Stem the Current or Fall in With It. To my mind this question hardly admits of an argument, but as all men do not think or act alike, we find the negative numbers its advocates by the thousand. Upon examination we find this world of ours inhabited by a motley assemblage of people, hence the old truism, "It takes all sorts of folks to make a world." We have the eminently pious man, and the contemptibly wicked man, the moral man and the immoral man, the out-spoken, firm, decided man, who, despite all opposition, leans to christianity and "stems the current," while on the other hand we have the timid, modest, retiring, milk and water man, who from fear of giving offence, injuring his popularity, or from an innate and uncontrollable timidity falls in with the current, right or wrong, and sometimes is the cause of immense danger to society. We love and admire the bold, frank, independent and decided man, who his colors aloft, confronts error without reserve, performs his duty with a vim and in the face of Satan's artillery, leaps upon the breast works of demoralization, victor of the field. Oh, for a regiment of such men in every community, men of nerve, men who are willing to make sacrifices for the cause of morals, christianity and suffering mankind. Men who are willing to "trust God and do the right."

In speaking of firmness and decision—test I be misunderstood—I do not mean to say that while opposing error we should employ harsh language, ostracism or endeavor with a rod of iron to whip into the path of duty our opponents, but rather be kind and engaging in our disposition, charitable enough to accord to and respect them in their opinions, while we cherish our own. Yes, that is what we conceive to be the right spirit, but while we concede that point we steadfastly maintain that the line of demarcation should be distinctly drawn between religion and sin, between morality and immorality, and that we should grapple with and oppose all evils that have a tendency to demoralize the public good. Search the annals of history, either religious or profane, and see who our reformers have been, test them and see the kind of metal out of which they were formed. Look at a Luther, a Calvin, a Whitfield, and a Wesley, and who were "bold to take up and firmer to sustain the concentrated cross," and who passed through greater persecution! Look at our statesmen, our patriots and warriors, and who has been bolder, more decided and more firm than they. Yes, charitably, steadily, but firmly "stem the current" in the face of all opposition when you are right. Stem it through every difficulty, stem it over every obstacle, stem it all through the rough journey of life and you will be better able to stem the cold Jordan of death, and finally enter into the port of bliss. CONCORD.

Blaine. The "favorite son" has made an ex parte statement in regard to his connection with the Union Pacific Railroad, and his receipt of \$64,000, which proved very satisfactory to his friends. But now comes Mr. Harrison, the Government Director, and makes a statement, in which he reiterates his former charge, adding damning particulars and giving names of witnesses, which tends to convict Mr. Blaine and prove Rollins to be guilty of falsehood. Mr. Harrison was stung in his demand for an investigation at the time because a disclosure would defeat Mr. Blaine, then a candidate for Congress, but he was careful to call a witness to the conversation between him and Mr. Rollins, the Treasurer of the Union Pacific Railroad, who now denies in a letter to Blaine any knowledge of the facts in regard to which he confessed to Mr. Harrison in the presence of Mr. Mallard, also a Government Director, in that railroad.

It is a pretty kettle of fish. These are all good and loyal Republicans, and Mr. Blaine seems about to be killed in the house of his friends.

Any way the new facts brought out in Mr. Harrison's card, in which he invites the closest investigation, requires something more than a mere ex parte statement from Mr. Blaine. No such cloud can rest upon the next Republican candidate for President, "Once more unto the breach," Mr. Blaine.

THE LUTHERAN SYNOD.—The Synod of the Lutheran Church in North Carolina will commence its annual session at China Grove, in Rowan county, on Tuesday, May the 2nd. St. Paul's Lutheran Church, in this city, met in council last week and elected their delegates to the Synod. Mr. H. B. Eilers was elected delegate and Mr. John W. Strauss was elected as alternate. Mr. Eilers, we learn, will leave the city on Thursday next in company with the pastor, Rev. G. D. Bernheim, for Rowan. We have no doubt but the trip will be an unusually pleasant one for both these gentlemen. The Rev. Mr. Bernheim having been long the pastor of the church in Salisbury, has hosts of old friends in that section, and Mr. Eilers has a daughter living in Salisbury who recently went there the beautiful and accomplished bride of Mr. Heilig, a citizen of that town. —Wilmington Journal.

Yesterday's Raleigh Sentinel says: A telegram was received in this city this morning from Durham, announcing that yesterday the body of Calvin J. Rogers was found in a millpond, near his home in Oak Grove township, this county. The body had evidently been in the water some time. It is rumored on the streets that the drowning was accidental but up to 1 o'clock this afternoon no definite particulars had been received of the sad affair. Mr. Rogers was well known in this city. He was postmaster here during President Grant's first term of office, and succeeded in office by ex-Gov. W. W. Holden in the early part of 1872. He leaves, we believe, a large family. Mr. Rogers has been well known in Wake county politics for 30 years.

Score 100 for Simmon's Hepatic Compound. It has left all others behind. A positive cure for disordered liver, stomach and bowels. For sale at Reed's.

The Charlotte Observer's Washington correspondent thus summarizes the political field:

1st. That Davis is a candidate is unavailable and is practically out of the race.
2d. That Hendrick's prospects are not as bright as they were two weeks ago.
3d. That Thurman has developed but little strength as first choice, but may come in as a compromise candidate.
4th. That Tilden is now at least a week ahead of all other competitors and is gaining rapidly.
5th. That Bayard's nomination is contingent upon the failure of Tilden's.

WORDS OF WARNING.—During the present year, as in the past, the grave will close over thousands, simply because they neglect the means which would restore them to health. Meet the fell destroyer at the threshold, and dispute his invasion by that more than wonderful medicine, Dr. Morris' Syrup of Tar, Wild Cherry and Horsehold. There is no cough or cold, case of Asthma, Bronchitis, Blood-Spitting, weak lungs, Croup or Whooping Cough, which will not yield more readily to this great BOTANICAL REMEDY than any other medicine. If you would avoid disappointment and be speedily cured; ask your Druggist for Dr. Morris' Syrup of Tar, Wild Cherry and Horsehold. Trial size, 10 cents. Regular sizes 50 cents and One Dollar.

Prof. Parker's Pleasant Worm Syrup is perfectly safe, extremely palatable. No physic required. Costs 25 cents. Try it. For sale at Joel Reed's.

Many ladies suffer from what they call "kidney complaint,"—weakness, backache, general feelings of debility and languor—when in reality, the real cause of the disease proceeds from the liver. By taking a single bottle of Merrell's Hepatine, which contains fifty doses, and is cheaper than pills, they would find immediate relief, and become permanently cured in a reasonable length of time. Fifty doses for one dollar, two cents per dose; free from calomel. For sale at J. Reed's.

THERE ARE COURTS AND COURTS.—The following announcement appears among the "personals" of the day: "Nellie Grant Sartoris will pass the season in London and be presented at Court." There seems to be a growing probability that her father will be "presented at Court," also; but we hope it will not be quite so bad as that.—New York Sun.

Shocking accident. The Goldsboro Messenger says while Mr. George Deans, who lives a few miles from that place was engaged with a colored man in clearing ground, one of the trees fell and he was struck by a flying splinter or limb, which penetrated his left ear and through his tongue, inflicting a fearful and painful wound.

North Carolina will be represented at Philadelphia in the Centennial Regatta by the oldest corps, Fayetteville company, it having been in continuous existence since 1773. "Tarheels" to the front is correct. That's just the way it was with them in the late difficulty.—Courier Journal.

All of the leading Patent Medicines are for sale at Reed's.

CONCORD MARKET. CONCORD, N. C., SATURDAY, April 24th, 1876. The following are the ruling prices for the articles named in this place to-day: Cotton 62; (orn 65; Meal 70; Flour 30; Bacon, 12; Lard, 16; Molasses, 40; Rice, 12; Salt, \$1.40; Tallow, 6; Sugar, 13; Coffee, 25; Soap, 6; Shingles, per thousand, \$2.80; Nails, 5; Kerosene Oil, 40; Candles, 20; Wool, 25; Chickens, 15; Beef, 5; Butter, 20; Beef, 5.

Country produce generally is in demand. A FULL STOCK OF GARDEN SEED, at FETZERS.

1876. SPRING 1876. OPENING.

We have just opened a large and select stock of DRY GOODS, NOTIONS, & SHOES.

We have a handsome stock of DRESS GOODS, CONSISTING OF

GRENADINES, MOHAIRS, BRILLIANTS, SILKS, BLACK ALPACAS, &c., &c., &c.

O'DELL, CRAVEN & CO. April 18th, 1876.

GILES' LINIMENT IODIDE OF AMMONIA Cures Neuralgia, Face Ache, Rheumatism, Gout, Frosted Feet, Chilblains, Sore Throat, Pruritis, Bruises or Wounds of every kind in man or animal.

At Barnum's Hippodrome, Dr. Wood's Veterinary Surgery; Col. McDaniel, owner of Harry Bassett; Dr. Ozle, of 330 W. 25th street, pronounces Giles' Liniment Iodide of Ammonia the only remedy that can be relied on to cure lameness in horses. Sold by all Druggists. Depot No. 431 Sixth Avenue, New York. Only 50c. and \$1 per bottle. J. Reed, Agent.

EGYPTIAN SUGAR CANE SEED matures in ninety days and makes a large yield and superior quality of Sugar. at FETZERS.

THE NEW "DOMESTIC" Double-Thread Lock-Stitch Machine. PHYSICIANS RECOMMEND IT as a machine that can be used without harm by any one, because it requires no little effort of any kind, it being the lightest-running machine in the world.

With our printed directions, no instruction or mechanical skill is required to operate it. The construction of the machine is based upon a principle of unique and unequalled simplicity, comprising simple levers working upon centres. The bearings are few, and they are hardened and polished. The machines are made, at our new works in the city of Newark, N. J., with new special (patented) machinery and tools, constructed expressly to accomplish what we now offer. Every machine fully warranted.

"DOMESTIC" SEWING MACHINE CO., New York and Chicago. FASHIONS. By using the "Domestic" Paper Patterns the most stylish and perfect-fitting costumes can be produced, at a large saving in MONEY to those who choose to make, or superintend the making of, their own garments. With the highest talent and the best facilities in all departments, and the best ideas of the most skillful modistes, both at home and abroad, we are enabled to attain results far above the reach of the average dress-maker. Our styles are always the latest and best. Our elegantly-illustrated catalogue mailed to any lady sending five cents with her address. Agents wanted everywhere.
