CONCORD, NORTH CAROLINA, SATURDAY, JANUARY 12, 1878.

NO. 40.

Is the most genial balsam ever used by sufferers from pulmonary diseases.

It is composed of herbal products, which have a specific effect on the throat and lungs; detaches from the air cells all irritating matter; causes it to be expectorated, and at once checks the inflammation which produces the cough. A single dose relieves the most distressing paroxysm, soothes nervousners, and enables the sufferer to enjoy quiet rect at night. Being a pleasant cordial, it tones the weak stomach, and is specially recommended for children.

What others say about Tutt's Expectorant. Had Asthma Thirty Years.
