VEGETINE.

AN EXCELLENT MEDICINE.
SPRINGFIELD, O., February 28, 1877.
This is to certify that I have used VEGE-
TINE, manufactured by H. R. Stevens,
Boston, Mass., for Rheumatism and Gen-
eral Prostration of the Nervous System,
with good success. I recommend VEGE-
TINE as an excellent medicine for such
complaints. Yours very truly,
C. W. VANDEGRIFT.

OUR MINISTER'S WIFE.
LOUISVILLE, KY., Feb. 16, 1877.
Dear Sir,—Three years ago I was suffer-
ing terribly with Inflammatory Rheuma-
tism. Our minister's wife advised me to
take VEGETINE. After taking one bot-
tle, I was entirely relieved. This year,
feeling a return of the disease, I again
commenced taking it, and am being bene-
fited greatly. It also greatly improves my
digestion. Respectfully,
MRS. A. BALLARD,
1011 West Jefferson Street.

Safe and Sure.
Mr. H. R. Stevens,
In 1872 your VEGETINE was recom-
mended to me, and, yielding to the persua-
sions of a friend, consented to try it. At
the time I was suffering from general de-
bility and nervous prostration, superinduced
by overwork and irregular habits. Its
wonderful strengthening and curative prop-
erties seemed to affect my debilitated sys-
tem from the first dose, and, in a few days,
I felt a return of my health, and, in a few
more, I was able to resume my usual avoc-
ation. Since then I have not hesitated to
give VEGETINE my most unqualified indorse-
ment as being a safe, sure, and powerful
agent in promoting health, and restoring
the wasted system to new life and energy.
VEGETINE is the only medicine I use,
and as long as I live I never expect to find
a better. Yours truly,
W. H. CLARK,
120 Monterey Street, Allegheny, Penna.

VEGETINE

The following letter from Rev. G. W.
Episcopal Church, Hyde Park, and is pre-
sented in Lowell, must convince every
one who reads his letter of the wonderful
through cleanser and purifier of the blood.
HYDE PARK, MASS., Feb. 15, 1876.

Mr. H. R. Stevens,
Dear Sir,—About ten years ago my health
failed through the depletion of my
system; nearly a year later I was attacked
by typhoid fever in its worst form.
It settled in my back, and took the form
of a large deep-seated abscess, which was
surgical months in gathering. I had two
operations by the best skill in the
State, but received no permanent cure.
I suffered great pain, and was constantly
wakened by a profuse discharge. I ate
but small pieces of food at different
times.

Matters ran on thus about seven years,
till May, 1874, when a friend recom-
mended me to go to your office and talk with you
of the virtues of VEGETINE. I did so,
and by your kindness passed through your
manipulation, noting the ingredients, &c.,
by which your remedy is produced.

When I saw and heard I gained some
confidence in VEGETINE.
I commenced taking it soon after, but
felt worse from its effects; still I persevered
and soon felt it was benefiting me in other
respects. Yet I did not see the result I
desired till I had taken it faithfully for a
little more than a year, when the difficulty
in the back was cured; and for nine months
I have enjoyed the best of health.

I have in that time gained twenty-five
pounds of flesh, being heavier than ever be-
fore in my life, and I was never more able
to perform labor than now.

During the past few weeks I had a sero-
fibrinous swelling as large as my fist gather on
another part of my body.
I took VEGETINE faithfully, and removed
it level with the surface in a month. I think
I should have been cured of my main trou-
ble sooner if I had taken larger doses, after
having become accustomed to its effects.

Let your patients troubled with scrofula
or kidney disease understand that it takes
time to cure chronic disease; and, if they
will patiently take VEGETINE, will in
my judgment, be cured.
With great obligations I am,
Yours very truly,
G. W. MANSFIELD,
Pastor of the Methodist Episcopal Church.

The New Hampshire Republicans
renominated B. F. Prescott for Gov-
ernor. The resolution adopted are
outspoken for Hayes and specie pay-
ments.

It is believed that Secretary Key
will accept the nomination to the
Governorship of Tennessee, if it is
tendered, and there is a movement
in that direction now in Mr. Key's
State.

Judging from the experience of the
past three or four months the
Moffet register will realize in Rich-
mond not more than fifty-five or sixty
thousand dollars per annum.
Specific licenses, &c., may increase
the amount \$20,000 total \$80,000 at
the utmost. This is a little more
than double what the old law pro-
duced; by no means what was ex-
pected of the new law.

The Great Fraud.

The Democratic press of the North,
and some Southern Democratic jour-
nals, are clamorous for an investiga-
tion into the question of how Hayes
became President. One Chandler,
a radical of New Hampshire, comes
out and says that the seating of Mr.
Hayes was the result of a direct bar-
gain, made during the electoral
count, between Hayes' friends and
leading Democrats. We rather sus-
pect that in this thing Chandler tells
some truth. Why this, first, now
the deed is done. By the most in-
fernal wickedness Hayes has been
made President. Had Samuel J.
Tilden been made President, we
would have had a bond holder, a
Wall street bull, a goldmonger, a
chance chief apostle are Belmont
and Gould, and the World, Tribune
and Times, in the Presidential chair,
and the reign of the bondholding
perpetual, till the country comes
have purified itself of this aristocratic
beastliness, through a carnival of
blood such as all the wars and re-
bellions she has ever seen, would
pale before. We mourn because
Hayes has a fraudulent title to the
Presidency, but we feel that the
hand of God was in the rescue of the
nation from the calamity that would
have befallen it, had Samuel J. Tilden
been seated into the chair to
which he was elected.

The Ohio Senator.

On the 9th instant, at a caucus of
the Democrats of the Ohio Legisla-
ture, the Hon. George H. Pendleton
was nominated for the office of U.
S. Senator to succeed Stanley Mat-
thews. This action of the Demo-
cratic Legislature of Ohio is espe-
cially gratifying to the West and
South. Mr. Pendleton is a leader
of the Greenback movement in the
country. He favors the doing away
with the national banks, and ad-
vocates the issue of Greenbacks in
place of national bank notes, and the
resumption of silver. This is the
doctrine that must possess the halls
of Congress, and from which, only
can come national relief to the finan-
cial miseries of the day. Slowly, but
surely, is the tide turning against
the Tildens, and Goulds, and Bel-
monts, and the Bondholders. We
will have Thurman, and Pendleton,
and Ewing, and the prestige of the
whole South and West in the capitol,
against the North and East bond-
holding and yellow Bullionism. The
day of financial disenthralment will
appear before 1880.

The Arabs Coming.

The Rev J. L. Lyons, of Jacksonville, Florida,
has received a somewhat remarkable
letter from parties in the Turkish
empire, who, weary of Turkish Tyr-
anny and oppression, desire to emi-
grate to the United States. They
are from the ancient and interesting
city of Damascus, Syria. They rep-
resent that they have a few thousand
dollars in gold and silver; a thousand
in Turkish consols, which, however,
they deem worthless. They would
like to go to Florida, as the climate
is similar to that of their own native
land. They are not of the nomadic
tribes, called Bedouin, but belong to
the better class; and are connected
with the Greek church.

A Fatal Duel in Georgia.

Dispatch to the New York Times.
Savannah, Ga., Jan. 12.—This af-
ternoon a duel was fought, at a
place three miles from this city, be-
tween Walter S. Harley, a lawyer,
and Robert Fishburne, Clerk of the
County Court at Wallerboro, Colle-
ton county, S. C. They fought at
ten paces, with Colt's revolvers.
Harley expressed his intention in a
note to his wife to fire in the air,
and did so, Fishburne's pistol being
discharged at the same time. Harley
fell mortally wounded. He was
brought by his second to the town
and taken to an infirmary. He is
dying to-night. The ball entered
his right side, severed the bowels,
and lodged in the abdomen. Fish-
burne and his party returned home.

The parties are brothers-in-law,
having married sisters. The diffi-
culty originated about a difference
in local politics. Both parties are
Democrats. The offensive words
used by Harley were, 'You and W.
F. Fishburne are mean and cheap
copies of the Rhett, without their
brains or courage.' A refusal to re-
tract the insult resulted in Fishburne
challenging Harley. The affair
was kept very quiet, and the only
intimation of the hostile meeting
was made known in Wallerboro by
a dispatch to Harley's brother au-
thorizing his fatal wounding.

Bloody Outbreak.

Commander
Rodgers, commanding the United
States steamship Adams, writes to
the Secretary of the Navy from San-
ay Point, Straits of Magellan, giving
the particulars of a terrible mutiny
which has occurred there. He re-
ceived word of the outbreak from
the German steamer Memphis, which
the mutineers tried to capture. The
mutiny broke out on Sunday, No-
vember 24, the mutineers first kill-
ing and mutilating the captain of
house, and leaving him for dead.
They then released the convicts, and
altogether numbered nearly two
hundred, armed with Winchester and
Spencer rifles. Monday, No. 12, the
mutineers seem to have committed
most incredible excesses in the way
of wanton killing, burning and sack-
ing. On Tuesday, Nov. 13, the mu-
tineers deserted the place and took
to the country, carrying with them all
the public funds and much private
property.

TERRIBLE EXPLOSION.

A dispatch
from Detroit, Mich., says that about
10 A. M. on the 2d inst. two tons of
nitro-glycerine exploded while be-
ing loaded in to a car on the railroad
near the iron mines, half a mile from
Negaunee Lake Superior, and seven
men were killed. The names of the
killed are S. A. Wheeler, Walter
Wheeler, Ira Buckley, William
Meyer, Charles Milton, Jeremiah
Foley, William Spillmann. The force
of the explosion was mainly down-
ward. The locomotive was lifted
into the air and thrown fifty feet,
where it landed a confused heap of
wood and iron. Of the killed S. A.
Wheeler and his son; Walter and Ira
Henckley were employed at the
nitro-glycerine works, Henckley be-
ing superintendent. These three
were blown to atoms. The other
four were railroad employes and were
in the cab of the engine when the
explosion came. Ishpeming, three
miles away plainly felt the shock.
The cause of the explosion is not
known.

The Charlotte Observer thus

speaks of the new Chief Justice:
The appointment could hardly have
been conferred upon one more emi-
nently worthy in all respects to wear
its exalted honors. Of distinguished
legal abilities and attainments, and

ter. Mr. Smith will prove a worthy
successor in the line illustrious men
who have preceded him as the head

pointment to any office, nor one
which will meet with more general
public favor.

The Eastern War.

London, Jan. 16.
If the dispatch of yesterday to
Reuter's from Constantinople, stat-
ing that a great battle was fought
Monday between Tatar Bazardjik
and Philippopolis; that the fighting
was resumed Tuesday; that Sale-
man Pasha afterwards took of a po-
sition near Philippopolis and ordered
the inhabitants to leave that town;
and that the Russians have reached
Chirpan and are marching on Yeni
Mahigre, is correct, the remains of
the only Turkish field army south
of the Balkans is in danger of cap-
ture, or annihilation, before the ar-
mistice can be concluded.

The statement that the Russians
have reached Chirpan is not im-
probable, as there is no Turkish ar-
my between Chirpan and Kezanlik
to hinder such a movement. The
utmost terror and disorganization
prevail throughout the country be-
tween Philippopolis and Constanti-
nople. Panic stricken fugitives con-
tinue to crowd towards the capital
by thousands. Only a small per-
centage of them are men. Many
thousands are detained at Charl-
uot on account of the recent railway ac-
cident on the line leading to Con-
stantinople. The Turkish govern-
ment and English relief committee
have great difficulty to prevent a
wholesale loss of life from hunger
and exposure.

The Manchester Guardian has a
dispatch from Constantinople, dated
Monday, saying, 'The Turks are be-
ginning to fear the Russians intend
to push to the capital. The defense
of Adrianople will probably not be
attempted. The remaining Turkish
forces will be recalled here. Some
of the Turks are beginning to pre-
pare to flee to Broussa, in Anatolia,
fifty seven miles southeast of Con-
stantinople.'

Everywhere in England there are
popular demonstrations of hostility
to all things Russian; at the theatre
Russian symbols are hissed and booed
at, while the music of the Turkish
national hymn is received with the
most boisterous demonstrations of
delight. At all the variety shows
the audience always demand some
song about the war, and this is a
sample of the stuff they get.
We haven't had to fight; but by jingo
if we do,
We've got the ships and got the men and
got the mery too;
We've fought the bear before, and the
Turk has proved so true;
The Russians shan't get near Constan-
tinople!

FIRST FEMALE ATTORNEY.

Among the numerous applicants for
attorney's license at the present
term of the Supreme Court is a
young lady of superior literary at-
tainments and brilliant accomplish-
ments. Her name is Miss Colton of
Randolph county, and from what we
can learn she may outstrip some of
her young brethren. This is the
first case of a lady applying for li-
cense in North Carolina, though one
young lady was admitted as a mem-
ber of the State Medical Association.

FAILURES IN 1877.—The failures for

the year 1877 in New York city were
very heavy—in all eight hundred
and seventy-four, with liabilities
amounting to nearly fifty-two mil-
lion dollars and assets about twenty-
one millions. Manufacturers num-
bering forty-four, head the list, fol-
lowed by thirty-five bankers and
brokers, who went down under the
heavy load of more than six millions.

Courier Journal: Wm E Chandler

declares that Packard and Chamber-
lain made Hayes President, and
then he 'trampled them down.'
Chandler thinks this was an outrage
upon justice. And so it was. To
merely 'trample down' a scoundrel
that ought to be banged is the worst
sort of an outrage upon justice.

A well known professional, not re-

nowned for politeness, saw an Irish
artisan waiting in his hall. 'Hello,
you fellow, do you want me?' 'No,
yer honner, I am waiting for a gen-
tleman.'

Terrible Railroad Disaster.

Hartford, Jan. 16.—The railroad ac-
cident at Tarville occurred at the trestle
bridge crossing Farmington river just at
the village. The train was bound for
Millerton and carried passengers for all
stations between this city and that place,
who came in to attend the Moody and San-
ky meeting. Two engines, a baggage car
and three passenger coaches went down at
the western end of the bridge, the engines
reaching the shore, three cars breaking
through the ice in three feet of water and
one car resting on its end on the piers. Sev-
en bodies had been recovered up to 2
o'clock a m and it is almost certain that
more are in the wreck. The wounded may
be numbered at forty, and among them are
several very serious cases. Special trains from
Winsted and Hartford, bearing surgeons,
reached the scene at 1:30 a m. Soon after
the accident the factory and church
bells were rung and the citizens rallied,
doing all that was possible. The bodies were
taken on planks or rade sleds across the ice
to the Tarville side and the Hartford
train took the rest around by Plainville, on
the Fishkill and Canal roads, to New
Hartford, on the Western road.

Bald Eagle Killed.—A bald Eagle,

measuring 64 feet from tip to
tip, was killed a few days ago by a
woman, near Leachville, with a
stick. The eagle seeing a goose and
thinking to have a good meal,
pounced down upon him, but after
fastening his talons (which were 21
inches long) into the goose, found it
most too heavy a load, and could
not loose himself and was killed by
a woman—the owner of the goose—
with a stick.—Washington N. C. Press.

The commissioner of immigration

in Tennessee reports the accession
of 477 persons to the population of
that State during the month of De-
cember under the direct auspices of
the bureau, which speaks well for
the energy and efficiency of its work.
It is a pity that the Legislature, by
squinting at repudiation, should in-
