

RAILROAD STOCKS
BIG MARKET SALE

All Railroad Sales in Stocks Had Good Day Monday With Live Trade

(By The Associated Press) New York, May 28.—Railroad and equipment stock were bid up sharply in today's active stock market...

A comparison of net incomes of some of the larger systems last month as against April of last year follows: New York Centra: \$7,838,524; \$4,737,988.

The outstanding strong spots in the railroad list were Atlantic Coast Line, Atchison, Pittsburgh and West Virginia; New York Central; Chesapeake and Ohio; Northern Pacific and Texas and Pacific.

Some of the sharp sellings of the industrial stock were based on the theory that technical reaction was due after four successive days of rising prices.

Losses were registered by such recent favorites as Studebaker, Dupont, American Can, American Smelting, United States Industrial Alcohol, Stromberg-Carlson, etc.

Five more private crop bulletins were issued, the condition figures ranging from 70.0 to 72.5 and indicating crop figures from 11,400,000 to 12,085,000 bushels.

NEW YORK COTTON CLOSED LOW PRICE

Monday's Market Closed Barely Steady With Net Advances of 15 Points

(By The Associated Press) New York, May 28.—A further advance on bullish weather and crop advices was checked by realizing as the price of October contracts approached the 25-cent level in the cotton market today.

The market closed at a net advance of 12 to 19 points and showed considerable strength during the earlier trading. Buying on bullish private condition and reports of continued rains or showers in the eastern belt, was including firm cables and reports of heavy rain.

There was considerable realizing but it was very readily absorbed and the market worked up to 27.45 for July and 24.48 for December during the middle of the morning. At this price July was back to within 7.0 points of the best price to date and October 24.22, making the market about not unchanged to five points lower and last prices were several points up from the lowest.

Five more private crop bulletins were issued, the condition figures ranging from 70.0 to 72.5 and indicating crop figures from 11,400,000 to 12,085,000 bushels. So far, eleven of the reports have been issued the average condition of cotton figures being 70.5 and the average crop indications at 11,920,000 bales.

CHANGING PRICE LEFT COTTON UP

Although After Day's Trading Prices Were Only 11 Points Above Close

New Orleans, May 28.—In the early trading today, the heavy rain in central and eastern portions of the belt and crop condition figures from private sources of from 70.0 to 70.9 per cent put the price of cotton higher, but as the session progressed a great deal of liquidation came from the long side and private bureau reports on condition ranged higher, running from 71.5 to 72.5 per cent of normal.

The market closed at a net advance of 12 to 19 points and showed considerable strength during the earlier trading. Buying on bullish private condition and reports of continued rains or showers in the eastern belt, was including firm cables and reports of heavy rain.

BOND MARKET HAD DULL TRADING DAY

Slight Changes in Prices Put Higher Railroad and Government Bonds

New York, May 28.—Bond prices continued to point upward in today's relatively dull trading. Railroad mortgages again came in for a great deal of attention and prices improved, reflecting in a degree the influence of the favorable earnings reports of several large railroads for April.

United States government bonds were slightly reactionary but losses were small. These bonds have held their recent gain well and small recessions were not unexpected. Scriben prices closed higher than Saturday prices final. Mexican issues also were in fair demand but gains were not large.

More than a score of railroad mortgages moved upward in today's trading, but in many instances the bonds were unable to hold all of their gains. The majority, however, closed fractionally higher and gains of a point or more were recorded by Denver and Rio Grande consolidated and Atchison convertible 4 1/2.

Industrials were relatively quiet with the trend upward. Net changes however, were unimportant. Total sales, (par value) were \$11,412,000.
