—We congratulate our Roxboro and Person county friends upon the certainty of getting the Railroad. This will prove a great blessing to the whole people and every man in that county ought to contribute as liberally as his means will permit. It will be worth millions of dollars to the county. Keep the ball rolling let other townships follow the example set by Roxboro.

Our Cotton.

We can say for the benefit of those who raise cotton that the prices now paid at Durham are equal to any paid at any other market in the State. The Durham Cotton Mills are bound to have several hundred bales each month to keep running. Our cotton brokers have large orders from a distance. Bring it in, prices good as will be this season.

"Oconesechee."

This is the name of an elegant Hotel just completed by Mr. E. H. Pogue at Hillsboro. It will be furnished in tasty style by Wilson & Avery, furniture manufacturers of Morganton, N. C. It has been arranged specially for health seekers, and from what we know of it, we can truly say there will not be a better kept, nor finer hotel in the State. A more extended notice will be given soon.

W. W. Avery.

Some months ago our townsman, W. W. Avery, left Durham for Morganton, where he formed a copartnership with Maj. J. M. Wilson and started a furniture factory. We are glad to learn they are meeting with wonderful success. Being located in the heart of the finest black walnut and cherry section of the world they are enabled to manufacture a better piece of furniture for 20 per cent. less than any Northern house. Our people should patronize them.

Death of Mrs. L. McCabe.

It becomes our sad duty again to announce the death of one so much loved and admired as the subject of this notice, which sad event occurred in this place on Thursday last of pneumonia. She was possessed of many rare and excellent qualities and was much beloved by all who knew her. Her funeral took place from the Methodist Church, of which she was a consistent member. Her remains were followed to their last resting place by a large number of sorrowful relatives and friends.

Stopped His Paper.

Once upon a time a certain man got mad with the editor and stopped his paper. The next week he sold his corn at four cents below the market price. Then his property was sold for taxes, because he didn't read the Sheriff's sale. He was arrested and fined \$8 for going a hunting on Sunday, and he paid \$30 for a lot of forged notes that had been advertised two weeks and the public had been cautioned not to negotiate for them. He then paid a big Irishman, with a foot like a forge hammer, to kick him all the way to the newspaper office, where he paid four years subscription in advance and had the editor sign an agreement to knock him down and rob him if he ever ordered his paper stopped again. Such is life without a newspaper.—New York Newsleader.

Yes and there are a great many farmers in the surrounding counties who lose a great deal by not taking THE DURHAM RECORDER.

A Deserved Compliment.

The accomplished writer of the "Durham Whiffs," which daily appear in the columns of the Raleigh News and Observer, in his last contribution of "whiffs" from this place, took occasion to bestow a compliment upon our talented young townsman (the legal fraternity, to whom we do not append our hearty endorsement). Mr. Fuller, since his debut in midland has conducted himself particularly and professionally in such manner as to have thoroughly ingratiated himself in the good opinions of affections of our people, and has consequently acquired a lucrative place among those having business before the courts. The following is what the writer in the News and Observer said:

"When W. Fuller became a member of the bar of Durham he brought with him a mind weighted with legal lore and he went about

saturating society with what he gleaned from the paths of knowledge. Every keg stood upon its own bottom, and illustrating this maxim his course took that of independent action, choosing to lay aside what he might gain from a father's name made resonant with power and influence. Much is in the future to distinguish this young man in the struggles to which he may fall heir."

A MODEL SHOW.

Opening of W. W. Cole's Great Circus—Opinion of the Show by a Prominent St. Louis Critic.

The St. Louis Globe-Democrat of April 21st, gives an extensive description of W. W. Cole's colossal show, and in the course of the review are found the following pleasant remarks from the pen of Sam F. Cary, the famous St. Louis critic. He says: "The attendance at the initial entertainment yesterday afternoon was large, while the crowd at the evening performance filled the spacious tents to overflowing. The splendid and startling acts witnessed in the three rings at one equal to anything ever presented in the city. The success of the Cole show is in the entirely new features offered each year. The performance yesterday contrasted emphatically the often repeated assertion that 'circuses are all the same.' The public has almost been persuaded that there is nothing new in a circus. Mr. Cole has done everything possible to dispel such impressions by engaging for this season the best artists of every clime. A first-class entertainment, such as characterized this show's opening, is advertised by those who viewed it, and Mr. Cole is sure to reap a rich harvest during the remaining days of his stay in the city. It is not surprising to say that the audiences were pleased; they were delighted, and gave expression to their approval in demonstrative applause. Nor is it necessary to detail the individual performances when there was such transcendental excellence. Each was a star in a particular line, but the marvellous ceiling walking of Mile. Almee, who is appropriately styled the Human Fly, excited the utmost astonishment. The troupe of Arabs gave the crowds some marvellous leaping and tumbling exhibitions, which were no less remarkable than their feats of strength and picturesque groupings in the form of pyramids. Other new features added this season are a troupe of Mexicans, who give realistic pictures of Mexican vauvenco life, which are decidedly interesting; the wonderful horse, Blondin, that walks the tight rope, and the singular bovine freak, the living cow with two distinct and fully developed heads. These who want to see a circus, in every respect what it is represented to be, will have the opportunity to do so on Friday, Oct. 2nd.

DURHAM WHIFFS.

Cor. of the News & Observer.

September 10, 1885.

The sale horn blowing up the buyers every morning is a musical and invigorating sound. Some of our buyers propose an improvement—that is, the warehouses organize their respective forces for a brass band and discourse music before commencing sales.

At the Cincinnati exposition of 1880 and 1882 Capt. E. J. Parrish, the wide-awake warehouseman of all the tobacco States, exhibited the finest specimens of North Carolina bright leaf tobacco, and at both had the highest prizes, namely, a silver medal and \$25 cash, awarded him. There were thousands of hogheads from all the tobacco growing States on the list. This is another item for North Carolina's possibilities. Whether he has competed with other tobaccos he has never failed to take first prize with North Carolina brights.

The tobacco year, which will expire 1st of October, will show Durham's tobacco receipts 16,000,000 pounds of leaf tobacco, an increase of three millions over receipts of last year.

A strong firm of warehousemen Lea & Warren are recognized to be their influence among farmers is marked in a high degree, and confidence was never better placed than in this concern. The commanding figure of Mr. Lea is one of the imposing sights at a sale, and when his stentorian voice calls the support of the tobacco men to his aid they rally around him and form a phalanx which insures a big success to the Durham market. The new Green warehouse, 100 feet front and 200 feet in depth, now course of construction, for this firm. VEGAS.

The Durham Bull Fertilizer.

For Wheat, PRICE \$30 PER TON. Guaranteed Equal to anything on the Market.

See what some of our best planters say about it. It pays big to use it on wheat sold directly to the farmers at wholesale prices. Distributed by the leading Fertilizer dealers all over the State.

Durham Fertilizer Co.—I used half ton of your Durham Bull Superphosphate on a portion of my Wheat crop last Fall. I found it acted well—was well pleased with the result. I used 125 lbs. to the acre, with my Wheat drill. Think it as good, if not better, than any Wheat Fertilizer on the market. Pleasant Grove, Alamance Co., N. C. JAS. W. LEA.

Mr. S. T. Morgan.—I take pleasure in saying that I have tried one ton of the Durham Fertilizer on Wheat, and am much pleased with the result. I used a ton on 9 acres of old field, sowing 8 1/2 bushels of wheat, and raised from it 136 1/2 bushels of wheat. It is now doing well on my growing crop of cotton and corn. C. W. JOHNSTON, Chapel Hill, N. C.

Durham Fertilizer Co.—Dear Sirs.—In reference to your Wheat Guano, I will say that I used it the past season on Fall Oats—with the very best results. On 30 acres which I manured with your Fertilizer, I raised over 600 bushels of the very best seed Oats. When I did not use your Fertilizer my Oat crop was a perfect failure. These are facts and speak in thunder tones as to the merits of your goods. I am now using your Tobacco and Cotton Nutrients, which is giving me entire satisfaction. Yours Truly, DUNCAN CAMERON, N. B. Mr. Cameron is the largest farmer in the county. The 600 bushels of Oats raised on 30 acres by use of your Fertilizer, is more good seed Oats than was grown by the remainder of townships in which he lives. DURHAM FERTILIZER CO.

Durham Fertilizer Co.—Dear Sirs.—In regard to your Wheat Fertilizer, I have to say that our section raised the poorest crop of Wheat I have ever known. My own crop was far from a good one. I used your Wheat Fertilizer on a portion of my crop. When I did not use it my wheat was hardly worth cutting; where I did use it the wheat was good, covered to the crops of my neighbors. Am satisfied it increased the yield more than 75 per cent. Your Truly, ALEX. G. FLEMING, Dutchville, Granville Co., N. C.

TWENTY REASONS WHY FARMERS SHOULD PURCHASE THE Improved Keller Drill.

FIRST—Because it is the strongest Drill in America. SECOND—Because it has the best mode of feeding wheat, oats, barley and grass seed of any Drill in the country. THIRD—Because the Fertilizer Attachment is no experiment, but has been tested for ten years past, and is the most positive one in use. FOURTH—Because it has got the best Spring Hoe—and the only Check Link in the country. FIFTH—Because it has less cog and gear wheels than some other Drills by one-half. SIXTH—Because it is the easiest and most simple Drill in the world to keep in order. SEVENTH—Because it is the only Drill that can be changed to sow deep or shallow by moving the Slide Block. EIGHTH—Because you can get repairs for our Drill more promptly than any other. NINTH—Because the tire on our wheels are 2 1/2 inches wide, and will not cut into soft ground, as narrow tires will. TENTH—Because the spokes in our wheels are made of the best hickory, and driven into the hub with a heavy steam hammer. ELEVENTH—Because it costs less to keep our Drill in repair than any other make of drill in the market. TWELFTH—Because you can change the desired depth of sowing the fertilizer with out stopping the Drill or putting on wheels. THIRTEENTH—Because it is the best finished and most durable Drill in the market. FOURTEENTH—Because the grain sower has the most positive force fed in the market. FIFTEENTH—Because the grain sower cannot be made to bunch grain like many other drills do. SIXTEENTH—Because the grass seeder can be used in front or behind, as desired. SEVENTEENTH—Because the grass seeder is a positive force feed, and will sow dirty timothy, or clover seed. EIGHTEENTH—Because any person can take it apart and put it together with a screw-driver and wrench. NINETEENTH—Because there are 14,000 now in use and giving the best satisfaction. TWENTYTH—Because it received the highest award, a Diploma and Gold medal at the World's fair lately held at New Orleans.
