Fighting Randall Over the Rules.

Members may protest as much as they please that no personal significance attaches to the proposed change of the House rules, but we fear it is a mistake. We confess that it looks very much as though the whole business was inspired by the haters of Mr. Randall and the proposition to change is prosecuted chiefly by his implacable enemies. Exposed in its nakedness, it is claimed by some to be simply a mean effort to humiliate one of the most loyal Democrats, and, perhaps, the ablest public man of the Union; and if so the transaction from beginning to its present stage is ex-ceedingly discreditable to those en-gaged in it. If many of the men who
