

MR. THAD R. MANNING, editor of the "Gold Leaf," is popular in Henderson. We are pleased to see it. He was not a candidate yet he received a complimentary vote of one hundred and twenty odd for commissioner. See what an influence a man wields when he becomes a benedict.

THE Raleigh correspondent of the Richmond "Whig" informs that paper that "the financial report of Durham shows the town entirely out of debt and \$3,000 in the treasury. They are now fearing a surplus problem." No danger of a problem, good sir. If you could but see some of our side-walks and streets you would know where we could put it to do the most good.

THE attack upon Judge Fowle is winning new converts. The paper that published the attack has been brought over. Hear it: "The Landmark" warns to any man who is slandered, and it is very clear that Judge Fowle has been. Our correspondent "Democrat" sees the matter the same way, and, having accepted rumor for fact, now has the manliness to publish a card disavowing his belief of the charges which, with the best of motives, he gave currency to last week. It is time now for these slanders to stop. Judge Fowle should be defeated fairly or not at all. We believe that if only the truth is told on him he cannot be defeated, for the people, remembering his party services and admiring his brilliant talents, are with him. The "Landmark" is in sympathy with them. It is time that justice were done this man. There is no occasion for promoting laggards, bomb-proofs or new recruits over the head of this party veteran. He has earned his reward in half a dozen campaigns of extraordinary power and effectiveness. Why not give it to him this year?"

Manly words.

SENATOR Vance, in the ninth article of his series on the "Needs of the Nation," contributed to the Baltimore "Sun," discusses as a phenomenon of great importance the tendency at the present time of capitalists engaged in production to combine to fleece the public with the help of laws made at their instance. They act together to get unthinking or corrupt legislators to frame tariffs, grant charters and pass all sorts of laws to enable them to exact tribute from the people. The surest way to accumulate wealth, it is found, is to get things so fixed by law that part of the earnings of the millions must fall into one's lap. Hence the prosperity of the sections and States which are favored by the tariff. Hence, too, the wealth of trusts, railroads and other unregulated monopolies which fatten upon the people under the protection of the law. Monopoly and restriction are now the rule. Freedom of trade among ourselves is almost wholly lost, the price and movement of almost every necessary of life being dictated by some soulless corporation, trust, pool or association. The reform of the tariff will help to lessen these evils, but their eradication must be the work of the intelligent statesmanship of the future.

THERE will necessarily be much litigation and delay over the affairs of the smashed State National Bank. It is stated in the Wilmington "Messenger," by the Raleigh correspondent, that the depositors have reached the conclusion that 50 cents on the dollar will be about the size of their receipts after the adjustment and collection of accounts. The receiver says there ought to be a first dividend by July 1, of its amount he has no idea.

A NEW YORK electric light lineman, while making some necessary repairs Friday, touched what he supposed was a dead electric cable. The cable was not dead, but full charged with the electric current, and the result was that the unfortunate lineman was dead in an instant. It is supposed that the wire he took hold of on the supposition that it was dead was crossed at some point by a live wire, thus diverting the fatal current.

The Charleston *World* reports green peas selling at one cent a quart and blackberries at two quarts for five cents.

The New York *Star*, which paper started the egg problem, says that the answer is 21, because there was not a full day and a half left.

Over one hundred counties in Georgia favor prohibition.

An earthquake is reported to have occurred very recently in Japan Sea.

President Cleveland donated \$100 towards establishing a colored orphan asylum at Lynchburg, Va.

A stock company with a capital of \$150,000 has been organized to build a new hotel at Savannah Ga.

One thousand men have been thrown out of employment at the Platt mines, Birmingham, Ala.

The bill for the execution of criminals by electricity has passed both houses of the New York State Legislature.

A recent dispatch states that the Irish Bishops have notified the Vatican of their adhesion to the Papal rescript.

It is reported that Bismarck, at the request of the German Emperor and the Czar, will ask the Porte to depose Prince Ferdinand of Bulgaria.

Averaging \$12.68.
The sale at Lockhart's Banner Warehouse Friday was something like old times. He sold 41,814 lbs. for \$531,054; averaging \$12.68 per hundred. This shows that the Durham market is sustaining its reputation in making tobacco bring all it is worth, and that Capt. Lockhart does not intend to be left on high averages.

A correspondent of the Hillsboro *Recorder*, quotes an Orange county man as saying, when he heard that White, Raleigh bank thief, had said that notwithstanding all his vicissitudes he had not lost his religion "Well, if such religion as that will save a man the devil had as well shet up shop and rent out hell for a goose pasture."

The *Wadesboro Intelligencer* is now running in its columns a report of the trial and libel suit between Mr. J. L. Stone of Raleigh and the editor of that paper and as soon as it is through the paper Mr. Hearn proposes to issue a pamphlet with Mr. Stone's picture which will be mailed to any address upon the receipt of 10 cents. The suit was brought about by Mr. Hearn exposing in his paper the cotton seed swindle of Mr. Stone, which was an imposition upon the farmers. Every farmer should send for his pamphlet, as it is of particular interest to them.
