

WITNESSES ALL KILLED.

A Way they Have in Kentucky of Spiriting Away Witnesses. LOUISVILLE, Ky., Dec. 22—The French feud in Perry County, Ky., has lasted since 1876; and since '86 13 murders have resulted. The last two victims of the vendetta were witnesses, and were shot down in a court room. The men were run down and killed at Hindman, Knott county, last week. The news has just reached Louisville by mail, but the affair occurred December 10. The men slain were John and Andrew Sloan, the last surviving witnesses against Frank French and others indicted for the assassination of Joseph C. Everson. Martin Combs and several more of the Everson following of the famous French feud at Hazood, French country, Richard Vance, and another man whose name cannot be learned, who were also important witnesses against French, had providently been slain, though no particulars of their murder can be learned. The removal of the Sloans, leaves the Commonwealth almost without witnesses, and it seems doubtful if French and his fellow assassins can ever be brought to justice.

John C. Calhoun's Homestead. A Charleston special says. In the United States District Court to-day Judge Simonton issued an injunction restraining R. W. Simpson, executor of Thomas G. Clemons, from conveying Fort Hill, the homestead of John C. Calhoun, over to the State of South Carolina. Clemons was the son-in-law of Calhoun, and when he died last summer he left a will devising Fort Hill and personal property to the amount of \$10,000 to the State for an agricultural college. This was a great surprise to Clemons's relatives, as they thought he was a very poor man. They wrote to a grocer not long before his death authorizing him to supply the old man with groceries.

The heir to the estate was Miss Isabelle Lee, daughter of Gideon Lee, a New York stock broker, and great-grand daughter of John C. Calhoun. Her father at once began to look after her interests. Suit was begun and the injunction to-day was the first step in the litigation. The acceptance of the bequest was made an issue in the last campaign, and was the occasion of much bitter political feeling. There is a large element in the State who regard the acceptance of the bequest as robbing Miss Lee of her birth-right. The matter is now before the Legislature, where some sharp debates are taking place. The property has been accepted by the House, but it is thought the Senate will reject it.

A. H. Kaufman Assigns. Richmond, Va. In the clerk's office of the Richmond Chancery Court yesterday, a deed of assignment was recorded from Abraham Kaufman to William S. Dashiell, trustee. The property conveyed consists of boots and shoes store fixtures, &c., now in the store of said Kaufman, at No. 1539 east Main street. After providing in the first, second, and third clauses for the payment of rent, of a note of \$300 to L. Nachman, and of \$400 to indemnify L. Nachman from loss by reason of his being security for Kaufman, the deed provides for the payment to Kaufman of \$1,904.50 allowed him under the homestead exemption laws. Other liabilities are placed in the fifth class, to the amount of \$2,082.67. An inventory accompanies the deed, showing the value of the stock and fixtures of \$2,600.02.

The International Copyright bill should be passed at this session of Congress. The "appeal" that has been circulated by the opponents of the measure amounts simply to a plea that dishonesty is the best policy, and bears the earmarks of the London publishers who have petitioned the British Government to interfere against the proposed law.

A STORY FROM THE ROCKS

A Geological History of the World that Develops Strange Facts.

Geological history brings before us, says Archibald Geikie, many facts well calculated to impress our minds with the great antiquity of our planet and the marvelous chain of changes by which the present order of things has been brought about. We learn from it that the mountains and valleys have not come suddenly into existence, such as we now see them, but have been formed gradually, by a long series of processes similar to those which are now slowly doing the same work. We discovered that every part of the land under our feet can yield up its story if we only know how to question it. And, strangest of all, we find that the races of plants and animals which now tenant the land and sea, are not the first or original races, but they were preceded by others still more remote. We see that there has been upon the earth a history of living things as well as dead matter. At the beginning of that wonderful history we detect traces merely of loamy forms, like the foraminifer of the Atlantic ooze. At the end we are brought face to face with man—thinking, worthless, restless man, battling steadily with the powers of nature and overcoming them one by one, by learning how to obey the laws which direct them.

Pleasant Paragraphs.

The average journalist has a tender spot in his composition and likes to say a pleasant word for his patrons and friends when he has an opportunity. In the course of each recurring year he manages, when noting the hopes, aims and doings of these patrons and friends, to work into his journal graceful and often helpful little paragraphs, for which no charge is ever made, and which sometimes the parties spoken of fail to see, or what is worse, fail to gratefully remember.—N. Y. Tobacco Leaf.

Yes, this is one of the advantages of patronizing the "home press." But many people fail to look at it in this light. They apparently lose sight of the fact that their home paper is working in season and out of season for the upbuilding of the community in which it is published, and that in various ways it is constantly contributing to the prosperity of its patrons in the manner above spoken of. The home paper not only does a great deal of gratuitous work, but much that is lost sight of altogether, or worse is unappreciated in many instances.

Mad Dog Racket.

Captain Lee Nelson and his son, Dewitt, of Stokes county, were biten recently by a dog, supposed to be rabid, and went to Greensboro to try the virtues of a mad-stone, which was expressed to them from Charlotte. The dog had put in his work through pants and underwear, and so the stone would not adhere, it being supposed that in so doing no poison was transmitted and quite as probable that the animal was not a genuine specimen of the rabid affected canine, for there is a great deal more scare than actual reality in this mad dog business, any way, although it is but the first laws of nature to protect one's life and his upon the safe side.

Gen. Agnus for Secretary of War.

Among the names now in circulation for a cabinet position is that of Gen. Felix Agnus, publisher of the Baltimore American. Gen. Agnus is put on the slate as being the coming Secretary of War. He entered the volunteer service during the late war as a private and came out with the rank of brigadier general. He was twice wounded in battle, and his record during the war was brilliant. He is a prominent member of the Loyal Legion and of the Grand Army. His republicanism is well known, and he is now said to be considered the next candidate of that party for Governor of Maryland.

He Paid in Advance.

We are told that there is a boarding house in Roanoke, the proprietor of which three times a day fires off one barrel of a double-barreled shot gun to let his boarders know when their meals are ready. A new boarder the other day asked the proprietor why he did not fire off both barrels, and was paralyzed at receiving the reply that "the other barrel is kept loaded to colled my bill collect my bill from such rascals as you." The new boarder paid in advance.

A Judge Resorts to the Shotgun Policy.

Judge Junkin missed his man the other night, when he shot at the fellow who was stealing his fence rails. It may be that His Honor's "shotgun policy" will be attended with better success hereafter, if he should again have occasion to cast his bullet in the midnight air.

AN INTERESTING STORY

TOLD BY AN OLD SOLDIER.

Lee Camp Soldiers' Home. RICHMOND, Va. November 3, 1881. HUNNICUTT MEDICAL CO.—Gentle: Some eight years ago I was attacked with Sciatica, and suffered for several days at a time the most excruciating pain. It continued getting worse, although receiving the best medical treatment and using almost every remedy that was suggested. I finally got a bad and suffering as much I was unable to attend to my business, and went to the "Soldiers' Home." A short time after being there, in reading the Atlantic Constitution, I saw your "HUNNICUTT'S RHEUMATIC CURE" advertised and so highly recommended by citizens of Atlanta that I at once wrote to you for some, and in a few days received three bottles. I commenced taking it as soon as received, and before one bottle had been used I felt its benefits. I took the other two bottles and scarcely ever felt a pain. Ascertaining that this GREAT AND ONLY CURE FOR SCIATICA AND RHEUMATISM was for sale by Owen & Minor, I bought one bottle more and used that, and since then I feel like a new man, without a pain, from that unbearable disease, SCIATICA, and I cheerfully recommend it to all afflicted with Sciatic or Rheumatic, as a SURE CURE. Respectfully, T. W. HUNGERFORD.
