Bedford City Land and Improvement Company.

CAPITAL AUTHORIZED, \$1,000,000

This company owns and controls 600 acres of land situated in the western portion of the town, which is the most available part of the city for residences and manufactories.

ADVANTAGES OF THIS CITY.

It lies on the Norfolk and Western Railroad, and on the surveyed route of the Pittsburg and Atlanta Railroad, which will be one of the greatest trunk lines in the United States. It is at the gate of the great Southwest and situated at the foot of the Peaks of Otter Mountains, and from which it gets its unlimited supply of

PURE AND WHOLESOME WATER.

MANUFACTORIES: Berry Bros. Plug Tobacco.

This is the best equipped factory in the State, and its output the largest in the Sixth district (which includes Lynchburg and Danville.) Bowling, Wright & Co., Smoking Tobacco—also the largest manufacturers in their line in this district. The Liberty Woolen Manufacturing Company. The best equipped woolen mills in the State of Virginia, working principally on government contracts. Profits for seven months in 1889, \$11,000 (see report of directors.) Besides this, there are eleven other tobaccoists in the town doing a large and profitable business, two steam flouring mills, four cigar factories, two planing mills, one foundry and plow works, and one box factory.

MANUFACTORIES PROJECTED:

Brossius Steel and Iron Manufacturing Company, capital stock \$500,000. Broom factory, capital \$10,000; machinery ordered, and will be in operation at an early day. Ice factory, capital \$12,500; machinery ordered. Furniture factory, Carriage and Wagon Works. Mattress factory. R. W. Coffee Machine Company, capital \$1,000,000. This company owns one of the most valuable patents in connection with the manufacture of tobacco in the world, and will soon erect buildings to manufacture these machines, giving employment to two hundred hands. This alone will make this a great city. The stock books of the company are open; a limited amount of the stock offered at fifty cents on the dollar.

This is a good investment; safe and sure.

**THE
MODERN TOBACCO BARN!**

The Modern Tobacco Barn Co., of

High Point, N. C., are prepared to furnish the only stick yet devised, that will distribute Tobacco leaves in a curing barn in such a manner that each leaf can get the same amount of heat and air on every side at the same time and insures a uniform cure, the Mechanic has done the distribution, the Operator has little to do with it nor can he crowd the Tobacco Barn if he tries

There are now one million Sticks in use in three States, 200 thousand 1-2 feet Sticks in the common log barn on tier poles, they have given entire satisfaction, as a thousand testimonials will show and hundreds will testify that the use of the Sticks one season has doubled the value of their crop. The Sticks and Baskets together furnish the Farmer with the most complete outfit yet devised to save all the leaves grown in his fields and making them marketable at the highest figures.

The MODERN BARN complete is the best plan in the world to cure and handle Tobacco in, the next best thing is the MODERN BARN STICKS on tier poles in the log barn.

Liberals discounts given to Farmers' Clubs and the Farmers' Alliance in Virginia, North and South Carolina.

Correspondence Solicited. Address,

**FREE HOMES
IN THE GREAT WEST**

A REMARKABLE OFFER—
READ IT.

Akron, Colorado, has probably within the past three years experienced the most rapid as well as the most healthy growth of any city in the west. It is surrounded by a country unsurpassed by any on earth for the richness and fertility of its soil and the beauties of its climate. Any, and everything that can be raised in Iowa, Illinois, Indiana or Ohio can here be grown in the greatest profusion. Wheat grown in the near vicinity of Akron, took a diploma for being the best grain of the kind exhibited at the Nebraska State fair, held at Lincoln, in September, 1889. And all crops grown in this latitude can be raised here as successfully as anywhere on earth.

There are yet thousands of acres of government land vacant, which can be taken under the homestead, pre-emption and timber culture acts, which a person can have for the taking. A bountiful government will make you independent in a few years if you will but act now. The surface of the country is nearly a perfect level, but still sloping enough to afford good drainage. No breaks or draws such as ruin or deface so many western farms. No protracted struggle with rocks. Your first glance at the country would remind you of one vast meadow, only waiting the plow of the husbandman to transform it into an Eden of beauty and productiveness.

The citizens' advertising committee of Akron have placed in the hands of the West Side Improvement Company, one thousand city lots that are to be given away for advertising purposes, and any person who will aid them in advertising their advantages can have one of these lots FREE OF CHARGE by directing a communication to J. FAENDRICH, Sec'y at Akron, Colorado, and sending him the names of ten people who are interested in the west, and liable to be looking for a western location and sending four cents in stamps for return of deed. These lots are now worth from \$50 to \$125, and will, in the course of a year, if the predictions of knowing ones prove true, be worth four times what is now asked for them. It is an opportunity never before offered to secure an ABSOLUTE TITLE to a piece of property in an enterprising and growing western city.

The lots referred to are 25x132 feet in size and all the streets upon which they abut are 60 and 80 feet wide. They are in what is known as "Glenwood," an Akron, Colorado, suburb, and the citizens' committee through Mr. Faendrich, its Sec'y, guarantees them to be smooth, level and upon a slightly elevated, overlooking the town of Akron. The title is also guaranteed to be ABSOLUTELY PERFECT.

Akron contains a set of business men who are alive to her advantages as well as her interests, and this year \$30,000 is being expended by them to induce people looking for a western location to settle amongst them. They want and are determined to have 50,000 people in this city by 1895.

They want laborers in their coal mines, they want capitalists to develop their silver and gold mines.

Akron is to day the largest and most prosperous city in the state east of Denver. It is a division station of the B. & M. R'y and is the southern terminus of the Akron & Holyoke R'y, which will, in all probability, be built to Colorado Springs in the near future. Akron is in the line of the Northwestern R. R. building into Denver, and it is sure to catch it, and the Beaver Valley branch of the B. & M. will also be built to Akron. The B. & M. shops are there and material is now on the ground to greatly enlarge them. The railroad employ 250 men at that point now. The city is and will be the railroad center of that portion of the state. The population is now nearly two thousand and by January first next, they believe it will be 5,000. A United States land office was recently located at that point which means much to that city. It will bring every settler upon the public domain in that section to that city. It will be, and is, head quarters for land seekers for that entire portion of the state.

COLORADO EXCURSIONS.

On May 20th, and in June excursions will be run from all points of the east and south to Akron. The rate will be one fare for the round trip, over the Chicago, Rock Island & Pacific from Chicago and intermediate points, and over the Missouri Pacific from St. Louis and the South to Omaha, Nebraska. From Omaha take the B. & M. R. R. to Akron.

The above offer of a free lot applies only to those who will, prior to June 20 aid them in a reasonable way, in making these excursions a success.

LOADED DICE. They can be loaded on any die, and will throw any number you wish. Send for box "History of the Microbe Killer," given away by B. BLACKALL & SON, Drugist, Durham, C. N. Sole Agent.

Passed It with Fear and Trembling.

[Cleveland Plain Dealer.]
The Tariff and the Silver bill were both passed by the House under caucus domination and gag rules, with the hope on the part of many Republicans voting for both measures that they will be rejected by the Senate so changed as to lose their principal characteristics. The suspicion that their hope may be disappointed would throw them into a agony of fear as to the action of their constituents when the question of continuance in their seats comes up.

A Battle With Moonshiners
[Greensboro North State.]

A regular battle occurred Monday morning between a party of revenue officers and a number of illicit distillers in Stokes county, near the Virginia line, in the neighborhood well known to Uncle Sam's men, and called by them the Smith settlement.

The officers, six or seven in number, had been on a raid and had destroyed eight stills and poured out thousands of gallons of beer, and were on their return to Greensboro when they met an old man who told them that he was a friend to them and hoped they would be able to break up the business. He knew where there was a still, he said, and gave them explicit directions to find it. He refused to accompany them because he said they would kill him if he were suspected of furnishing information. The officers followed the road pointed out by the old hypocrite for a short distance when they came to a thick body of woods. Not finding things as described by their "friend" they grew suspicious, and their suspicions were soon confirmed. They had been caught in the trap so skillfully set for them.

It appears that the moonshiners had been stationed in the woods and the old man derailed to decoy the revenue men to the place desired. No sooner were they well into the woods than the blockaders opened fire on them, the first volley wounding Mr. Eugene Murrow's horse in the head. The officers returned the fire and about 70 shots were exchanged, Shuble Murrow received a shot in the leg, and his horse was slightly wounded.

The officers reached here Tuesday and report that the blockaders all escaped, but they think two of them were badly wounded.

MASON & HAMLIN
ORGAN AND PIANO Co.

Boston, New York, Chicago

Nothing Succeeds LIKE SUCCESS.

The reason RADAM'S MICROBE KILLER is the most wonderful medicine, is because it has never failed in any instance, no matter what the disease, from LEPROSY to the simplest disease known to the human system.

The scientific men of to-day claim and prove that every disease is CAUSED BY MICROBES, —AND

RADAM'S MICROBES KILLER

Exterminates the Microbes and drives them out of the system, and when that is done you cannot have an ache or pain. No matter what the disease, whether a simple case of Malaria Fever or a combination of diseases, we cure them all at the same time, as we treat all diseases constitutionally.

Asthma, Consumption, Catarrh, Bronchitis, Rheumatism, Kidney and Liver Disease, Chills, and Fever, Female Troubles, in all its forms, and, in fact, every Disease known to the Human System.

Beware of Fraudulent Imitations!

See that our Trade-mark (name as above) appears on each jug. Send for box "History of the Microbe Killer," given away by B. BLACKALL & SON, Drugist, Durham, C. N. Sole Agent.

"Why doesn't he take Hood's Sarsaparilla?" is the general inquiry of friends when a person suffers from any disease of the blood.
