That Party is the Democratic Party.

No word has been more abused in our country than the word loyalty. Loyalty is allegiance due to truth and country - that is to say, to the sovereign. Truth is moral and intellectual sovereignty, to which all men owe unfaltering allegiance. whatever may be the cost to them-selves. In a monarchy loyalty is due to the reigning family, when it does not interfere with the fundamental and irrepealable allegiance due primarily and solely to truth; because to be loval to a false system

-a system that is founded on a lie -is treason to truth, which, as Fichte says, "neither buys nor sell," and from which allegiance cannot be transferred. I hold that the truest loyalists in the British Empire are the Land Leaguers of Ire-land, and in Russia the Nibilists; for they fight, each in its own way, against governments founded on the false theory that equal rights are not due to the people, but that obedience is due to the classes that rob the masses.

We hope the farmers of the country will read all the Republican rot about the new tariff law, and think

Congress reduced the duty on binding twine in order to reduce the price to the consumer; what about that story that the tariff does not increase the cost?.

Congress increased the duty on wheat and corn and pork and other things, for the pretended reason that it wanted to increase the price of what the farmer sells. What, then, becomes of the Republican statement that an increased duty does not mean an increase of price?

The farmers are finding out pretfast that increased duties on manufactured goods do increase prices; the duty must be added to the foreign price of the imported article, and the domestic manufacturer, makes his price as near as he can to

A CARD.

[Hillsboro Observer. ] Having, in the past, been acting mainly with the Republican party, but believing to do so longer would be sinning against light and knowledge as well as the best interests of my people and country, I hereby absolve myself from the Republican party, and in the future will act with the Democratic party whose principles, I honestly believe, will best preserve the safety and well being of society, and best promote the interests, honor and prosperity of our whole people. I am impelled to such a course, not to court favor or popularity with any man or set of men, or any organization or party by whatever name known, but because to remain longer a Republican I would be endorsing Reed, Lodge, McKinley & Co., and to do so I feel that I would be false to myself and to those who are dearer to me than M.
