The bill differs in many respects from the bill on the Senate calendar. The first section directs the United States District or Circuit Judge, on petition of ten or more citizens of any city or county in his judicial district, to appoint three qualified voters a Board of Supervisors, not more than of Supervisors, not more than two to be of one party. This board is to be empowered to demand from the register a copy of his books, and after a posted notice they are at the polling place to purge the books of persons not qualified to vote.

Other sections of the bill require the register in advance of

quire the register in advance of election to register such persons only as the Board of Supervisors decides to be qualified to vote for the Representative in Congress. A Weakness of the Solons.

Wilmington Sia Mr. Lineback, Rep., represen-tative in the Legislature from Forsyth county, has introduced a bill to prohibit members of the Legislature from accepting free passes on railroads. Mr. Line-back is anxious to make a record, and begins this early where other reformers left off. Solons as a general thing seem sent to prison that they may obtain food. How the hearts of the top-notch tariff apologists must throb with joy when they hear this news! Their scheme to have a weakness for free passes, and tumble to them as unanimously as the juvenile has accomplished one of its purboy does to red top boots, notwithstanding the protests of the anti-free pass reformers.
