### Elections by the People.

It is noticed that the State legislator, who has better op-portunity for testing the public pulse than his national contemporary, is moving to enlarge the privileges of the elector rather than condense those he already than condense those he already enjoys. This fact is given prominence by the action of the legislatures in Ohio, Illinois, and other States in passing joint res-solutions calling on Congress to submit an amendment to the Constitution providing for the election of United States Sen-

ators by the people. Had this plan prevailed in the State of Illinois last November its legislators would not now be engaged in a deadlock on the Friday, and cut down a tree Townships, Durham county, N. C. Ww. H.
