Try a Change.

A well-known medical authority is so strong an advocate of change that he says: "Change your climate if you can; if you cannot do that, change your house, failing your house, change your room, and if not your room, then rearrange your furniture." If possible every family should go away once a year for a weeth? year for a month's stay under different surroundings; if this is not possible, changes of a week at a time will probably save you a doctor's bill if you have become "run down" health. Make as many expeditions as you can during the summer; go once a week if possible and you will find them more efficacious to build up the strength than any tonic that can be administered If possible get different food for the family at such times than they are daily accustomed to, even if it is not as delicate. A change of food will often stimulate a jaded appetite. When children or grown people begin to lose appetite and seem listless, better than a stock of tonic for blood is a visit complete change of scene and
