## SUMMER HEALTH RESORT,

Amid the Pines—the Healthiest Place in America—Health Giving Mineral Waters.

Southern Pines, Moore Co., N. C., on the Raleigh & Augusta Air Line Railroad, thirty miles north of Hamlet and twenty miles south of Raleigh, situated on a high and mountain or range of high hills, has been tested for two summers as a health resort for those suffering from all forms of blood disease, indigestion, kidney complaint, general debility, and nervous disorders. This place was first brought to the attention of the public as a winter resort, but it is found to be equally delightful as a summer resort. Being higher than the surrounding country there is a delightful breeze at all times. Absolutely no malaria or cause for malaria exists at this place, and those suffering from malaria or the after effects of any kind of fever find relief here.

There are three mineral springs located on the property; the virtue of which has been tested beyond a doubt. Persons who cannot visit the place may have the water shipped to them in barrels, or half gallon bottles at reasonable rates. But the most satisfactory way is to visit the place and drink the water fresh from the springs.

Grapes fresh from the vines are said to be a great cure for many disorders, and the hundreds of acres of grapes coming into bearing this season will enable visitors to give the grape cure a test.

Good bathing in the pure crystal waters in the swimming pools, or hot and medicated baths can be had.

The Hotel Oxone is open for summer boarders, and offers special attention to invalids. Rates reasonable, and table supplied with better food, better cooked, than usually found in summer hotels. Experienced cooks are employed.

For more detailed information address HOTEL OXONE Southern Pines, N. C. May-11-14

## DURHAM RECORDER.

WEDNESDAY, July 20, 1892.

The Encampment Grounds. Quartermaster General Harrell has made good progress with encampment arrangements. There will be over 400 tents. Those for the First and Second regiments are on the planks of the camp, with the streets facing the sound. The camp grounds have a frontage of some 1,450 feet. There are four large pavilions and in rear of two of these tents are pitched. The tents for the officers of the general staff who will be on duty are at the front and centre. Gen. Glenn, Col. A. L. Smith, Col. Hubert Haywood and Col. Harrell are these officers. There will be three officers of the regular army and a detachment of regular artillery men. The battery of heavy guns and mortars is at the centre of the camp, in front of Wrightsville inlet. The elevation is the highest for a great many miles along the coast, and the view is a splendid one.—Charlotte News.

PRESIDENT HARRISON appears to be unable to reward the colored statesman of Charleston, S. C., Dr. Crum, for the assistance that the latter furnished at Minneapolis in causing the President's re-nomination. Whether or not Senatorial courtesy had anything to do with the result, is not stated, but the nomination has been withdrawn and the sable Doctor will have to be provided with a fat place in some other direction.

POSTMASTER-GENERAL Wanamaker has made a hard fight against the provision in the postoffice appropriation bill to provide for the fast mail service now carried out between Tampa, Fla. and Springfield, Mass., and benefiting the people of the entire Atlantic coast region, but especially those in the South Atlantic States. In this matter he presents the rather unusual spectacle of a cabinet officer laboring to decrease the efficiency of the service rendered by his department. Mr. Wanamaker was at the Capitol early last week button holding Republican Senators and trying to secure the passage of the bill in a shape acceptable to him. On the other hand, several business men from the section affected by this measure were urging upon Senators of both parties the necessity of restoring the provisions of this service which the Senate committee has stricken out. The merit of the whole matter is that the administration wants to punish a few Democratic States in the south. The friends of the fast mail service did not propose to give up without a determined fight. They succeeded in having the Senate restore the appropriation.

It Will Elect Him. The nomination of Grover Cleveland at Chicago, was the marvel of American political history. A defeated candidate for the presidency presented for the third time for the nomination; stubbornly fought to the end by the solid delegation from his own State, the empire and pivotal State of the Union, who voiced through the most eloquent men of the party their declarations that his nomination imperiled success—received on the first ballot the vote of more than two-thirds of a national convention of 900 men. It was the expression of the unflinching faith of the people of the country in the pre-eminent honesty, ability, courage and patriotism of the man which thus lead the party to override all precedent, and courageously placing itself on high ground, make its appeal to the voters of the States. Such action was wonderful. But his election in November will be but natural. He asks now not a third but a second election, and standing as he does upon a platform so representative of the people's cause, what gained for him two-thirds of the convention will get for him a majority in the electoral college.

## -ONE WORD.-

I come to you with a small affair that you may need. In England, the Continent and many foreign countries, myself and wares are well known. Many American families on their return from abroad bring my articles with them, for they know them pretty well, but you may not be one of these.

Confidence between man and man is slow of growth, and when found, its rarity makes it valuable. I ask your confidence and make a reference to this Journal to endorse that confidence. I do not think it will be misplaced.

I make the best form of a cure—an absolute one—for biliousness and headache that can be found in this year. The cure is so small in itself, and yet its comfort to you is so great—20 minutes being its limit when relief comes—that it has become the marvel of its time. One and a half grains of medicine, coated with sugar, is my remedy, in the shape of one small pill, known to commerce as—DR. HAYDOCK'S NEW LIVER PILL. It is sold in the markets of Europe, but is new to North America. The price is as low as an honest medicine can be sold at 25 cents. Send a postal card for a sample vial, to try them, before you purchase.

DR. HAYDOCK  
63 Fulton St., N. Y.

In ancient times, kissing a pretty girl was reckoned a cure for a headache. It is difficult to improve upon some of these old remedies.
