The Eletropoise is an Instrument for the Cure of Disease Without Medicine.

BASED on new theories of the cause and cure of disease, it deals with the electrical and magnetic conditions of the body and the gases surrounding it n the atmosphere, controlling the these conditions at will. IT IS NOT ELECTRICITY. DISEASE is simply impaired vitality. The Electropoise constantly adds to the vitality and only assists NATURE, IN NATURE'S WAY, to throw off the trouble.

Sufferings Intense. Head nearly Raw. Body covered with Sores. Cured by Cuticura Remedies.

I bought a bottle of CUTICURA RESOLVERY, one bux CUTICURA SALVE, and one cake of CUTICURA SOAP, for my son, aged thirteen years, who has been afflicted with ecrema for a long time, and I am pleased to say that I believe the remedies have cured him. His sufferings were intense, his head being nearly raw, his care being grose except the gristle, and his body was covered with sores. His condition was frightful to behold. The sores have now all disappeared, his skin is healthy, eyes bright, cheerful in disposition, and is working every day. My neighbors are witnesses to this remarkable care, and the doubting ones are requested to call or write me, or any of my neighbors.

Stubborn Skin Disease I used the Cuttuma REMEDIES for about four months for the treatment of a very stubborn case of shin disease, something like extreme. I will state I tried a great many other advertised remedies and had been treated by local physicians, and all to no purpose. The Cuttures Exempts did the work, and my body when I commenced was absolutely covered.

This is the right stand to take.

Personalities.

We believe Republican principles are antagonistic to the welfare of the people and that Democratic principles afford the remedy to right the evils the people are laboring under. This, we think, can easily be shown and a campaign of edu. shown, and a campaign of education, pointing out the evil tendency of Republican princi-ples and the wisdom of Demo-cratic principles, will accom-plish better results than personal abuse.

The people are looking for relief from oppressive burdens and they care nothing for personal matters, unless they are of such a character as to effect the public welfare.

A Republican Scheme, they cannot hope to break the solid South by a strict party fight between the Democratic and Republican parties. By cunningly taking advantage, however, of the third party movement, they hope to gain Before the National Conven-tions were held, several of the the electoral votes of a few and with prudent, patriotic Re-publican leadership would have been doubtful in the Presidenthe third party. In either case, it will be a Democratic loss and

Decided Answer,
Washington, D. C., Aug. 6.-|Special correspondence.|-Chairman Committee is in Washington this week and is reviving the old scare about proposing to carry a lot of Democratic States in the South. The object of this is two-fold. First it helps to encourage the workers in other States, and next it is supposed to divert the attention of Democrats from the actual battle-ground. The States upon which Mr. Carter claims to have his cagle eye are Alabama, the two Carolinas, and West Virginia. It is true that conditions exist in some of these States which would make them debatable ground if the Democrats were apathetic and If they can only get into a mint of money were used on the biased observers consider that the Democrats have a much better show of carrying Illinois and Wisconsin in the west and New Hampshire and Massachusetts in the east than the Republicans have of getting the vote An army in the field in Penn- of the States above named.
