That card is the winning one in the North Carolina campaign in the North Carolina campaign which best provides for regaining the Democrats, who have been seduced by the impracticable promises of the third party, and for bringing out the large reserve vote. Undoubtedly these two prime ends can be best obtained by a policy which comes the nearest to a house to house canyass. house to house canvass.

A Precinct Campaign.

A large number, if not a majority, of the Democrats who have been deluded by the third party cry are men who do not party cry are men who do not read the newspapers and seldom hear political speaking. This class can only be reached by their active neighbors, who may influence them by argument and by inducing them to hear Democratic speakers.

Again there is no mode of campaigning so calculated to bring out the large silent reserve vote as the house to house neighborhood canvass.

I tried the Curroura Remedium and they did everything for one. My head and body were covered with some kind of cores, and I tried almost everything I could think of, and finally I tried the doctor, but nothing helped me. After reading your advertisement, I thought I would try Curroura Resenters. I bought the Curroura, Corroura Soar, and the Curroura Resouvers, and one work after I began using them my sores dried up, and I have not had them since.

Miss. E. A. JONES, McIntosh, Ga. Thave been using your CUTICURA REMAINES for several years, especially the CUTICURA, and it has never failed to do what is claimed for it. It is about the only remedy I keep in my house all the time. I would not be without it for money. I think it is the best skin cure in the world. I use it for all kinds of sores, new or old, and it always cures them.

General Field, the People's party candidate for Vice-President, says he is hopeful of splitting the solid South. Voters, think of this statement. What does it mean? General Field knows that he cannot be elected. Why then is he hopeful of splitting the solid South? What good will it do General Field to break the solid South? It would break the solid South?
