Royal Baking Powder

ABSOLUTELY PURE

North Carolina Sends GREETINGS TO GEORGIA

What One of Her Most Prominent Citizens Writes About One of Georgia's Great Remedies.

TO THE PUBLIC: After several months use of King's Royal Germetuer, I most pronounce it in many respects the most marvelous medicine I have ever seen or known for the multitude of its remedial virtues. First, drawing upon experience, I know that it will cure catarrh. I succeeded the Rev. Dr. Hawthorne as the pastor of a Baltimore church just twenty-one years ago. Removal to a colder and more changeable climate with want of care in protecting myself, brought on an attack of catarrh which has continued with me ever since until I commenced taking Royal Germetuer some months ago, from the use of which I am now quite entirely well.

2. It is, as claimed, really a positive cure for stomach troubles, such as indigestion, dyspepsia, sick headache, etc. This I know from experience.

3. I have never found a better nerve tonic and general invigorator. It gives healthful and refreshing sleep as a cure for insomnia, and by all means to take the place of the bromides, chloral and other deleterious if not dangerous drugs. It is a fine tonic for public speakers taken both before and after speaking, as I know from experience, and no other tonic or stimulant is needed in rallying from the exhaustion of public and especially outdoor speaking. In fine I used to smile at the enthusiastic testimonials of my personal friends, Rev. Drs. Hawthorne and Henson, concerning Royal Germetuer, but having used a dozen bottles of it and been made well, "every whit whole," I can but adopt the language of the queen of Sheba and say: "The half has never been told."

Very respectfully,
G. W. SANDELLIN,
State Auditor of North Carolina.

We are endorsed by thousands of our best known people, and are authorized in saying that Germetuer will permanently cure Rheumatism, Neuralgia, Indigestion, Bowel and Liver Troubles, Female Diseases, Catarrh, Asthma, Bladder and Kidney Diseases, Skin diseases, such as Scrofula, Eczema, etc., Paralysis, Epilepsy, Erysipelas, Insomnia, and General Debility.

Germetuer cleanses and purifies the blood, invigorates the stomach, tones up the general system, and thus brings health and happiness. It is not a nauseous compound, but is as pleasant to take as a glass of ice lemonade.

We have a handsome book printed on tinted glazed paper, containing the photographs and testimonials of some of our best people. Write for one, which will be gladly furnished.

You will find King's Royal Germetuer for sale by all Druggists. Price one dollar per bottle.

KING'S ROYAL GERMETUER CO.
Atlanta, Ga.

FOURTEEN HORSE AND CATTLE POWDERS

No horse will die of Typhoid, Cholera or any other disease if he has taken FOURTEEN HORSE AND CATTLE POWDER. It is the only medicine that will cure all these diseases. It is the only medicine that will cure all these diseases. It is the only medicine that will cure all these diseases.

For Sale by W. M. YEABBY
Druggist, Durham, N. C.

DR. HILES' HEART CURE

Send Her Back.

During the past year there has been more or less discussion on signs and omens.

What are volcanic fires, the fierce roar of the tornado, the flashing portent of the Aurora Borealis, the shivering ague shake of the earthquake and the destroying bacilla-angel of cholera to a woman in our midst with an arm like a thunderbolt and a fist like a pile driver?

The fact is the volcano won't hurt you if you keep away from it; the Aurora Borealis is harmless; the tornado only passes current in Kansas; the sunspots are not dangerous, and even that horrible nightmare of song, that bold, unprincipled travesty on melody, that crazy-quilt of music, "Ta ra boom de aye," will not injure you if you will quietly kill, without remorse, the villain who sings it.

But there is a peril you can't get away from. It is no more—it couldn't be—nor less—unfortunately—than a female pugilist. This woman has been imported from Australia and turned loose in the United States, and it is said can lick her weight in wild cats. No other woman can stand up before her long enough to say seat, and that is by long odds the quickest word in the dictionary. "This said she can whip John L. Sullivan easier than Corbett did, and do Jim up in a ten-round tussle."

What an awful example for our wives, mother-in-laws and our sweethearts!

Of course this charming creature may not knock us all out herself, but think of her teaching your wife to "hit straight from the shoulder," and then imagine the result of an argument in the family. Think of her showing your mother-in-law how to catch you behind the ear with her right white bringing you a stinging blow on your dinner with her terrible left; of her instructing your sweetheart in the manly art of self-defense! You come home late for dinner and begin remonstrating with your wife about the biscuit being burned, and she quietly "lays you out" with a "neat left hander." Your collar button gets lost and you begin asserting your rights by throwing things around the room promiscuously, and the first thing you know that vigorous dexter hand is punching your nose until you see more stars than are in the Milky Way. Even the sweet privilege, dear to every American male citizen, of telling how good a cook your mother was will be denied you. In fact our privileges and liberties are all in peril. The young man, the old bachelor, the benedict will all be in the consume and be compelled to "stand around" in a manner that will be touching, gloomy, peculiar. No talking back, no slack lip, no jaw; all must be serenity and obedience, docility and slavery.

Paralysis, superinduced by the price of a supper your angel induces you to buy, is nothing to be thought on by having a bold, vigorous fist playing like a battering ram upon your proberis, and with artistic touch draping your two eyes in deep mourning. Indeed, we are standing in the shadow of troublous times—and our doom is sealed unless we at once bundle up that female woman pugilist and ship her back to Australia instant. But who is going to do the bundling?

SAVED MY LIFE

Would Have Scratched Myself to Death but for Cuticura. Best Doctors Two Years. Hills \$125.

Expended \$2.50 for Cuticura Remedies. I am Today a Well Man, With a Smooth Skin.

I was afflicted two years with a disease the doctors called eczema, herpes, or such things. I was treated by three different doctors, the best I could find, but they did me no good. My doctor told me to get a bottle of Cuticura, and to use it as directed. I bought two boxes CUTICURA, two boxes CUTICURA OINTMENT, and one box CUTICURA RESOLVENT. I used the CUTICURA OINTMENT, and soon saw the result. I was cured. I am today a well man, with a smooth skin. I can now do my work as usual. I can now do my work as usual. I can now do my work as usual.

Cuticura Resolvent

The new Blood and Skin Purifier, internally to cleanse the blood of all impurities and poisonous humors, and externally, the great Skin Cure, and CUTICURA OINTMENT, an exquisite Skin Beautifier, externally to clear the skin and soothe, restore the hair, instantly relieves and speedily cures every species of itching, burning, scaly, crusty, purifying, scurfy, and hereditary diseases and humors of the skin, scalp, and head, with loss of hair, from itching to age, from pimples to eruptions.

ACHING SIDES AND BACK.

county was defeated by the Third party and Republican fusion candidate by a majority of 19 votes.

In Brunswick county the returning board threw out most of the Third party ballots because they were printed on cream-tinted paper and were water-marked—contrary to law.

In the city of Wilmington the Republican candidate for State Senator only received one vote. As this was cast in the ward in which the candidate lives he is accused of having cast it himself.

Burke county went Democratic on the national, State, judicial and congressional and legislative tickets. The Republicans elected their county ticket. The Democratic candidate for sheriff was beaten by only 23 votes.

A Commission Suggested. The suggestion that Congress pass a law authorizing the appointment of a commission to prepare a revision of the tariff is made in answer to the demand that President-elect Cleveland shall call a special session of Congress as soon as he enters upon the discharge of the duties of his office, a demand which meets almost as much, if not more, opposition as it does favor among Democrats.

The commission idea, it is thought by its proposers, will likely receive more general favor, for the reason that it provides a way by which no delay shall ensue in the matter of tariff reform, while at the same time avoiding all the objections that may be raised to an extra session. The plan described is to have the commission appointed as soon as President Cleveland goes into office, so that it may work on a revision that shall be ready for consideration by Congress when it meets in December. The work being done by experts and disinterested agents of the government, it is presumed, will commend itself to the favorable judgment of the new Congress, and in a short time after organizing Congress will be in a position to enter upon a general system of tariff legislation.

A Lost Art Recovered. Scientists in Quebec say that one of the most wonderful discoveries of recent years is that just made by a blacksmith of that city. It is the long-lost art, known to the pyramid-builder of Egypt, of hardening copper. Axes and other edged tools, made of hardened copper have been exhibited by him, which in edge and temper rival the best of steel of the present day. He presented a sheet of this hardened copper one and three-quarters of a line in thickness and had it tested at the government rifle range in Quebec. At the first shot, fired from forty yards distance, the bullet was shivered into a thousand fragments; on the second, the missile, striking the copper more fairly, was completely flattened, but remained embedded in the plate, which it merely dented slightly, without cracking in any way. This is claimed by experts to be vastly superior to anything like circumstances, and the matter is soon to be brought under the immediate notice of the British lords of the admiralty.

The spirit of progress struck the Mississippi Funeral Directors' Association in its recent session at Kansas City. It was decided to urge the Legislature to pass a bill requiring undertakers to be educated for their duties. They held to the opinion that before a man enters the business he should pass an examination on various diseases, especially contagious ones, and on sanitary laws governing the destruction of contagious germs.

The popular vote of the last election, as near as can be ascertained, is about as follows: Cleveland, 795,000 Harrison, 172,000; Weaver, 19,500. Cleveland's popular majority over Harrison is 625,000, and over both Harrison and Weaver, 693,500. This is an unprecedented majority for a candidate who was defeated four years ago in the electoral college by 65 votes while at that time he had a popular majority of 95,534. This time Mr. Cleveland has received the largest majority ever given any candidate in the history of our country.

The number of patients in the State Insane asylum is now the largest on record.

Dixon's Robin Hunt—It May Cost Him \$905.

The news comes from Albany that Rev. Thomas Dixon may think he has settled for his violation of the law in shooting robins and other song birds on his recent shooting excursion, but he has not. Special Game Protector John W. Lish has reported that the Rev. Thomas Dixon killed 25 robins, 3 thrush, 1 crowbird, and 1 yellow wren, and that he was fined \$155 therefor. The game and fish commission met recently, and, after considering the case of the sporting parson, directed the chief game protector to prosecute him for full penalties besides the fines which were inflicted under section 82 of article 4 of the game laws, making his act a misdemeanor. He will now be prosecuted under the remaining part of section 82, which makes him liable for \$25 for each bird killed, or \$750 in all. This, added to the \$155 he has already paid, will make his little amusement of killing robins and wrens cost him \$905.

Mamie.

Out in Kansas winds blow loud and strong, and thunder roars frightfully now and then. Such a storm came up one night when little Mamie had been put to bed upstairs. She was scared, and began to cry. Mamma ran up and comforted her: "God is up here with you Mamie, and he won't let the thunder hurt you." Mamie was reassured, but mamma had scarcely got down stairs when a particularly loud clap of thunder upset the little one completely, and she cried out: "Mamma, you come up here and stay with Dad, and let me go down there with Gamma!"

Hugged and Kissed in Public.

SHARTOWN, Md., November 19.—One of the many odd bets which have been made on the peninsula on the election was paid last night at Puckham. John Masten and Martin Woolley wagered that if Cleveland was elected Masten was to publicly hug and kiss the wife of Woolley, who is the handsomest woman in the neighborhood. Last night they met at the town hall and paid the bet before an audience of nearly five hundred people. The strangest part of the proceedings occurred after Masten had hugged and kissed Mrs. Woolley. It seemed that the two women had made a similar wager, consequently Woolley hugged and kissed Mrs. Masten.

Set Your Houses in order.

Astronomers the world over are pretty well stirred up over the appearance of the new comet, which some think is the Biela comet, which was discovered in the winter of 1825 '26, and which afterwards, in 1845, broke into two parts. It is as yet small, and visible only through the glass, but the observers tell us that it is approaching the earth at a very rapid rate. It is moving directly towards us and if it keeps up its present direction there will either be a collision, which will knock us all into nothing, or else there will be a mighty close shave. What the result of a bump against the earth would be may be faintly imagined when we are told that the comet has a nebulosity of 30,000 miles, which shows it to be a monster of the largest size. It is pointed as directly at the earth as if shot out of a gun, and it is authoritatively stated that it is approaching us so rapidly that within two weeks it will appear in the heavens "many times larger than the diameter of the full moon."

Busted Town Booms.

A lesson might be learned by towns trying to get up unhealthy booms, like many that occurred within a few years in the South, in the Northwest and perhaps in other sections, by the experience of certain persons in the West, where the dead booms abound. The Omaha Bee says: "There are twenty well built towns in Kansas without a single inhabitant to waken the echoes of their deserted streets. Saratoga has a \$35,000 parsonage, and a number of fine business houses, yet there is nobody even to claim a place to sleep. At Fargo a \$10,000 school house stands on the side of the hill a monument to the bonedrying crabs. A herder and his family constitute the sole population of what was once an incorporated city."

State Democratic Chairman.

Simmons says that the Democratic majority in the State is about 43,000.

COLLEGE is the place and now is the time to study SHORTHAND, TYPEWRITING (including books), \$50; BOOK-KEEPING, WRITING, ARITHMETIC &c., (including books) \$50; TELEGRAPHY (including batteries, instruments, paper, and pencils) \$50; PROFESSIONAL COURSE IN PENNING (including materials), \$35; \$10 added to each of the above scholarships when payments are made in instalments; Fifteen Dollars on entering and five dollars per month thereafter. Ladies and gentlemen attend day and night sessions. Four teachers; over 100 students, and they are coming faster than ever. Highest endorsements from best business-men in Richmond. Special classes in Writing, \$3 for twenty lessons; Forty-five cents for stationery. We use our own books, blanks, and pens. This College is now the practical embodiment of six schools and is growing in patronage and influence constantly, last month having been the most successful in the history of the school. Two of our boys, 19 years old, recently took positions at Sixty-five dollars per month. The College has been a decided success. Business-men are requested to call on us for Book-keepers, Stenographers, etc. Address

1113 East Main St. nov-9-4t. RICHMOND, VA.

Next House.

WASHINGTON, Nov. 19.—The complete list of Representatives in Congress elected last week made up from returns received by the Democratic National Committee, and compared with those received by the Clerk of the House, agrees substantially with the estimate sent out by the Associated Press. It shows that the Democrats have elected 223 members, the Republicans 125 and the Populists 7, giving the Democrats a majority of 92.

Brogden's Sentence Affirmed.

The Supreme court has filed a decision in the interesting case of Willis Brogden, brother of ex-Governor Curtis H. H. Brogden, who was convicted of killing a neighbor named Sauls, in Wayne county. He was tried for murder, but was convicted of man slaughter and sentenced to ten years in the penitentiary. He appealed. The Supreme court affirms the judgment of the lower court and Brogden, who is of a well known family, will at once be taken to Raleigh and placed in the prison.

In North Carolina.

The cotton oil mills at Raleigh find it impossible to procure seed to enable them to run them steadily.

Several colored citizens of Winston are arranging to organize a hook and ladder company at once.

Grand Master Guder has appointed G. Rosenthal, of Raleigh, grand secretary of the Grand Lodge of Masons to succeed Donald W. Bam, deceased.
