VOL. 73.

DURHAM NORTH CAROLINA WEDNESDAY DECEMBER 4, 1892.

NO. 37.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

## Royal Baking Powder

ABSOLUTELY PURE

### North Carolina Sends GREETINGS TO GEORGIA

What One of Her Most Prominent Citizens Writes About One of Georgia's Great Remedies.

TO THE PUBLIC: After several months use of King's Royal Germetuer, I most pronounce it in many respects the most marvelous medicine I have ever seen or known for the multitude of its remedial virtues. First, drawing upon experience, I know that it will cure catarrh. I succeeded the Rev. Dr. Hawthorne as the pastor of a Baltimore church just twenty-one years ago. Removal to a colder and more changeable climate with want of care in protecting myself, brought on an attack of catarrh which has continued with me ever since until I commenced taking Royal Germetuer some months ago, from the use of which I am now quite entirely well. 2. It is, as claimed, really a positive cure for stomach troubles, such as indigestion, dyspepsia, sick headache, etc. This I know from experience. 3. I have never found a better nerve tonic and general invigorator. It gives hearty and refreshing sleep and as a cure for insomnia ought by all means to take the place of the bromides, chloral and other deleterious if not dangerous drugs. It is a fine tonic for public speakers taken both before and after speaking, as I know from experience, and no other tonic or stimulant is needed in rallying from the exhaustion of public and especially outdoor speaking. In fine I used to smile at the enthusiastic testimonials of my personal friend, Rev. Dr. Hawthorne and Henson, concerning Royal Germetuer, but having used a dozen bottles of it and been made well with "every whit whole," I can but adopt the language of the queen of Sheba and say: "The half has never been told."

Very respectfully,  
G. W. SANDERLIN,  
State Auditor, of North Carolina.  
We are endorsed by thousands of our best known people, and are authorized in saying that Germetuer will permanently cure Rheumatism, Neuralgia, Indigestion, Bowel and Liver Troubles, Female Diseases, Catarrh, Asthma, Bladder and Kidney Diseases, Skin Diseases, such as Scrofula, Eczema, etc., Paralysis, Epilepsy, Erysipelas, Insomnia, and General Debility.  
Germetuer cleanses and purifies the blood, invigorates the stomach, tones up the general system, and thus brings health and happiness. It is not a nauseous compound, but is as pleasant to take as a glass of ice lemonade.  
We have a handsome book printed on tinted glass paper, containing the photographs and testimonials of some of our best people. Write for one, which will be gladly furnished.  
You will find King's Royal Germetuer for sale by all Druggists. Price one dollar per bottle.

Let Speculation Alone.  
It may be that the present crop of cotton will not go beyond 6,000,000 bales. Possibly it will fall a trifle below that estimate, and its price may be still further advanced.

The danger is that the situation will invite speculation. In past years the people of the south have lost millions of dollars in futures. They now see a chance to get their money back, and they are yielding to the temptation.

But it should be recollected that certain speculators are interested in forcing prices down, and they may be successful. No man is shrewd enough to forecast the result. It will be argued by other speculators trying to force prices up. There will be plenty of men in New York to look after that part of the business. The safe course for our people is to let futures alone. We have found that out in the past.

A southern expert discussing the subject also gives this piece of advice:

One word more of warning; do not settle your acreage for next year on the basis of present prices. An increase even in acreage will strengthen the bears and lower the price of cotton. Cut down for '93 the acreage of '92, and put the land in vegetables, in fruit, in sheep, or in corn. The cotton of '92 cost the producer less than the cotton crop of any recent year. By diversifying products and reducing still further your acreage, the cotton crop of '93 should cost less than that of '92. There is more hope of relief in this direction than in any government aid.

This is sound counsel. A further reduction of acreage next year will be to our advantage, and diversified agriculture will make us independent.

It is no time for the south to plunge into the folly of speculation or into the other folly of increasing our cotton output.—Atlanta Constitution.

A Boa-Constrictor Among the Bananas.

As a merchant on Louisiana avenue was unloading a wagon of bananas yesterday a small boa constrictor dropped from one of the bunches. There was a general stampede, during which the native coiled itself and waited developments. In a few moments a large crowd had assembled at a safe distance, and his snakeship was discussed at long range. The cold pavilic atmosphere were not conducive to a great amount of hilarity on the part of the snake, and after a little while he tied himself in a dozen bow knots, tucked his head out of sight, and went to sleep. It was a fatal mistake for a moment later he was a prisoner, and now he poses in coils as the chief attraction in a museum on Twelfth street.—Washington Post.

The Senate Committee on Immigration, it is stated, is unanimously of the opinion that measures should be taken to restrict immigration, but each member of the Committee appears to have a plan of his own. The country is pretty well agreed that undesirable immigrants should not be permitted to come into the United States, but the difficulty appears to be as to where the line shall be drawn.

A Manufacturing Town.  
For a manufacturing town, Durham presents advantages equal to any, if not excelling many whose enterprises are doubted that of hers, and yet we wait and linger. This should not be so. There are numerous manufacturing which could be started and operated here at a very small cost, and we earnestly believe that the profit derived would be more than the interest that our moneyed men are receiving on their bonds. Not only this, but it would increase population, which always means the increase of business, and both together mean life and prosperity, and we know of no better time to put Durham forward than now.

At Amesbury, Mass., the Hamilton Woolen company, controlling sixteen mills, has increased the wages of all employees, except spinners, seven per cent. The spinners were given an increase of ten per cent. recently. Yet they said Cleveland's election would ruin the country.

A Needed Reform.  
The Federal pension system needs a complete investigation and overhauling.

It is stated that there is now a deficiency of \$36,000,000 in the pension appropriation for the fiscal year. Instead of the pension roll being one of honor, it is almost a roll of dishonor. The most audacious frauds are written all over, and perjury is one of its closest companions. The time has come to call a halt. This system of pensions must be overhauled, and the deserving and dependent soldiers must no longer be classed with the almost numberless frauds whose names make the pension roll one of dishonor, and a disgrace to the country.

We recall the fact that in 1860, when our population was 30,000,000, the total expenses of the Government were from \$82,000,000 to \$100,000,000 less than we now pay annually for pensions alone. This imposes a tax equal to three per cent. upon five billions of dollars, or nearly twice as much as the national debt in 1860, when it reached its highest point.

The war ended twenty-eight years ago, and think of it, there are on the U. S. pension roll about 700,000 pensioners, a much larger number of persons than were mustered into the Confederate service. We know there are thousands of brave Union soldiers who repudiate and condemn the present fraudulent pension system.

Reform it! Reform it!!

Crisp and Casual.  
France will spend nearly \$2,000,000 for arms and ammunition for the cavalry alone next year.

The people of many of the South Sea Islands manufacture their entire suits from the products of palm trees.

Cuban barbers lather their patrons with their hands from a bowl made to fit under the chin. No brush is used.

It is proposed by leading bicyclists to build an asphalt road thirty or thirty-five feet wide from Chicago to New York.

It is claimed that an electric plant has been discovered in India which will influence a magnetic needle twenty-five feet distant.

A full grown elephant is capable of carrying a load of two tons.

Greek women went barefoot indoors and wore sandals when walking abroad.

Several thousands of hair pins, in many styles, have been recovered from Pompeii.

The State of Washington is one of the heaviest consumers of condensed milk in the country.

Nearly 40,000 people in Great Britain pay a guinea a year for the privilege of displaying their crests on their stationery and plate.

The German Socialists report that they control seventy newspaper organs, of which twenty-two are political dailies. The subsidies granted to some of them amount to 66,000 marks a year.

Let us Pull Together.  
Now that the excitement attending national contests has been settled by an almost unanimous verdict of the American people in favor of an honest and economic administration of the government by servants chosen, because of their record and adherence to principles laid down by the fathers of the Republic, it is the part of good citizens of all parties to lend their untiring aid to the extent of strengthening the hands of our rulers. The disappointment engendered by politics should be laid aside and all of us do what in us lies towards the advancement of our material interests.

If business is not what we would have it, let's get right down to a hard business share, with a liberal spirit in all that tends to push our town and individual interests forward. Jealousies and petty bickerings will never materially help to work out our own financial and industrial salvation.

It only needs that we should pull together to assure the future of our town. Will we do it?

At a wedding which was celebrated in New York recently the wedding cake was the same one which had done service at the wedding of the bride's mother. It had been carefully preserved for the latter event.

Let Them Go by All Means.  
Atlanta, Ga. Dispatch, 22d ult.

Well-known, responsible colored preachers in Atlanta are advising their people from the pulpits to emigrate to Africa. The cause is due to a combination of circumstances. First an alleged discrimination against negroes on the railroads in Georgia stirred up a feeling among the colored race. Then an order issued by the Consolidated Street Car Company assigning seats to colored people, added fuel to the fire.

In Bethel church, on Wheat street, last Sunday night, the negroes were advised by the preachers in the pulpit to "leave this Georgia and go to their own country, Africa, where they would have equal rights and help govern." Among other prospects this pulpit orator held out "street cars of their own." Other negro preachers are holding out emigration to Africa as the only future salvation (in a worldly sense) of the American negro race.

These sermons are having marked effect on those who hear them, and it may be that a bona fide emigration to Africa will set in. One of the negro preachers has signified a willingness to lead the way.

Cleveland Gets a Coon.  
New York Times, 23rd ult.

Among the gifts which have been sent to Mr. Cleveland by enthusiastic persons in various parts of the country, that which came to him yesterday morning by Adams Express from the town of Selma, Ind., was nearest to being a white elephant although it was anything but elephantine in size.

A small deal box was left by the expressman, which was opened with some caution by the butler, when a lively young coon hopped out and tried to appear unconcerned in his new surroundings. No name of the sender accompanied the animal, and while the members of Mr. Cleveland's family were gratified by the attention they didn't know what to do with the coon.

It was finally decided to send him to Central Park, where he would have comfortable quarters and be able to grow up and fit himself for a life of illustrious coonhood; so they sent him over there and Superintendent John W. Smith received him with distinguished consideration, and introduced him to the rest of the coons, with whom he proceeded at once to make himself at home.

Ten-ton Meteor Falls in Colorado.  
NEW CASTLE, Colo., Nov. 30.—About 9 a. m., yesterday a stone, weighing probably ten tons fell from the sky, striking the earth a mile northeast of the town. It sank deep into the earth, and was in a heated condition when discovered.

REPRESENTATIVE Buchanan, of New Jersey, who escaped the Democratic landslide two years ago and was elected to Congress, arrived in Washington a few days ago to attend the closing session of the Fifty-second Congress, which convened today, is unnecessarily concerned about the possible short-comings of the next administration. He thinks that the Democrats will encounter trouble after the 4th of next March because of divisions that may possibly occur. Of course the Jersey representative would be greatly pleased to see Democratic factions pulling in contrary directions, but he need not trouble himself on that account. The people who won the victory at the late election will know how to manage affairs with becoming decorum when they come into their own.

It is stated, and upon what is said to be trustworthy authority, that no more pension decisions, establishing a precedent in line of duty cases will be rendered during the remaining months of the present administration. While the work on the cases not on file will be relaxed, precedents will not be established. And the incoming administration should investigate and reform the whole business.

THERE is no reason in the world why Durham should not have the largest trade this season she has ever had. Every business man should use all of his energies in this direction and advertise liberally. There is nothing like the judicious use of printers' ink, and keeping the people informed.

### Trinity College Endowment.

Since the removal into its elegant home in Durham, Trinity College has started out upon lines more progressive and lines that are destined to make it a great center of learning. There is to be a better business system, relieving the versatile president of the financial burdens of the institution. To this end a finance committee, composed of E. J. Parrish, H. J. Bass and W. H. Branson, has been appointed, and Mr. V. Ballard has been elected treasurer. But this was the beginning of the steps taken to advance the interests of the College. Rev. Andrew P. Tyer, presiding elder of the Charlotte district, has been elected financial agent for the purpose of raising a larger endowment for the institution. Mr. Tyer is a capable man who has won success in every undertaking to which he has addressed himself. Yet a young man he is one of the most popular presiding elders of his conference, and will resign that work to serve the college only in response to the earnest call of his church. It is believed that he understands the work mapped out for him and that he will be instrumental in largely increasing the endowment during the coming year. The Methodists are not only very numerous in North Carolina, but many of them are likewise prosperous and wealthy. Mr. Duke and Mr. Carr have shown a generosity most commendable, and given largely, but Trinity College will never have the large endowment it needs if those who are interested in its success sit back and wait for two or three wealthy men to give all that it needs. These two men have conceived and done nobly, but we doubt if they would have been so generous if they did not believe that, when suitably located and well equipped, the masses of their church would respond with like liberality, in proportion to their ability, to the needs of the college. The truth is that the methodist in North Carolina have not done half as much for education as they ought to have done, considering their number and wealth. But they are waking up, and under the earnest labor of Mr. Tyer, Dr. Crowell, Dr. Reid and others, we look to see an endowment that will enable the college to grandly perform its mission to the church and to the State.—North Carolinian.

It costs \$7.50 to fight a duel in Kentucky. Men who scorn the absurd formalities prescribed by the code and shoot on sight get off more cheaply. They go to the Legislature.

Flies are so pestilential in Siam that every soldier is compelled to assist in reducing their number by catching enough every day to fill a matchbox.

The English Court of Queen's Bench has decided that grocers may weigh paper with tea, coffee, sugar and such commodities without being guilty of fraud upon the purchaser.

Algeria is the greatest cork producing country in the world, having 2,500,000 acres of cork forests, of which 300,000 are made to yield regular crops. The finest cork is obtained from that province.

### DURHAM'S REMEMBRANCES.

Some Donations to the Oxford Orphan Asylum.  
The following paragraphs are taken from the Orphan's Friend:  
Mr. Geo. W. Watts, of the firm of Duke, Sons & Co., sent us his check for \$50, as a Thanksgiving offering. Main Street, M. E. Church, South, Durham, lends all of the churches in the State in donations to the Oxford Orphan Asylum. A check for the handsome sum of \$645.00. That generous congregation gave about the same amount last year.

While in Durham, the week before Thanksgiving, the superintendent received from Mr. T. J. Lamb, clothier, a nice suit of clothes, of which one of our little boys is the happy possessor, who joins in sincere thanks to the kind donor.

Col. J. S. Carr, President of the Blackwell Durham Tobacco Company, sent us a check of \$100, for that prosperous and liberal Company. Col. Carr gives largely, but he never gave a hundred dollars to any institution or enterprise that deserved it more or will appreciate it greater than the orphan children at this Asylum. May he live long and prosper.

A thoughtful, kind, Thanksgiving act, was the sending of a box of dry goods, including 2 pairs blankets, 3 quilts, and 30 pairs shoes by the Durham Supply Co., of Durham—bill amounting to \$89.33 received. We thank our good friends sincerely, suspecting that true friend to the Asylum, our brother, Brodie Duke, to be largely responsible for the kind deed. To all concerned, we tender grateful thanks.

Health is one of those things that people are always either hunting or throwing away.

## SAVED MY LIFE

Would Have Scratched Myself to Death but for Cuticura. Best Doctors Two Years. Bills \$125.  
Expended \$2.50 for Cuticura Remedies. I am To-day a Well Man, With a Smooth Skin.

I was afflicted two years with a disease the doctor called ringworm, herpes, or salt rheum. I was treated by three different doctors, the best of them, but they did me no good. I decided to try Cuticura. One told me I would have to go off to some healing springs to get well. I saw your advertisement, and wrote to you over a year ago. I was at the time, and I sent by mail to him the back some of the CUTICURA REMEDIES. He bought two boxes CUTICURA, two tubes CUTICURA SOAP, and one bottle CUTICURA RESOLVENT. I soon thought that for your CUTICURA REMEDIES coming to my relief. I am now to-day a well man; my neck, shoulders, and arms are as smooth as they ever were. I have had good health ever since I commenced to use the CUTICURA REMEDIES. I am spreading the fame of it everywhere I go, for it has healed me of suffering humanity. It was the CUTICURA REMEDIES which saved my life. I would have scratched myself to death. I have given your medicine now for nine months, and so the name of the disease has shored up since.  
A. H. MARRY, Sheppardsville, Mo.

## Cuticura Resolvent

The new Blood and Skin Purifier, internally (to cleanse the blood of all impurities and poisonous elements), and CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally (to clean the skin and scalp, and restore the hair), instantly relieve and speedily cure every species of itching, burning, scaly, crusty, scurfy eruptions, and hereditary diseases and humors of the skin, scalp, and blood, with loss of hair, from itching to ringworm, from pimples to scrofula.

Sold everywhere. Price, CUTICURA, 50c.; SOAP, 25c.; RESOLVENT, \$1.00. Prepared by the FORTY-NINE AND CHESTER, CONCORD, N.H.  
How to Cure Skin Diseases, 61 pages, 50 illustrations, and 100 testimonials, mailed free.

PINKETTES, blackheads, red, rough, chapped, and oily skin cured by Cuticura Soap.

ACHING SIDES AND BACK.  
Rheumatism, kidney, and other pains and weakness relieved in one minute by the Cuticura Anti-Pain Plaster. The best and only pain-killing plaster.

DR. MILES' HEART CURE.  
For the most reliable cure for all Heart Diseases.  
DR. MILES' MEDICAL CO., Elkhart, Ind.
