EDITORIAL OPINIONS.

That was more than a joke when Chauncey Depew told the distinguished presidential guests himself.-News and Observer.

We have no suggestions to offer the president, and wouldn't offer them if we had, but incidentally we will remark that the talents and accomplishments of Hon. William L. Wilson, of West Virginia, seem to us to be much bet ter suited for the office of secretary of state than for that of postmaster general.-Danville Register.

We have written nothing of the recent decision of the United stitute. States supreme court in the case of Debs. We take little stock in the present court, and its decisions are quite as apt to be wrong as right. Debs goes to jail, but the decision is alarmingly sweeping and dangerous and unworthy of any court in which alleged democrats sit. It not only strikes down the possibility of future railroad strikes, but it strikes down the rights of states and sets up a gigantic central power with the authority of a despot .- Wilmington Messenger

R. shops met with the misfortune yesterday of getting three fingers of his right hand caught in the cogs of a machine at which he was working. They were mangled so that Drs. Duguid and Primrose, who dressed the hand, had to remove the first joint of one finger. It is expected to save the others. Mr. Styron has the sympathy of his friends, and they are glad that the results were no worse.-New Berne Journal.
