HILLSBORO, N. C., Sept. 12, 1895. EDITOR RECORDER:

At the meeting of the County Board of Health in Hillsboro last week, Dr. Parris, as a member of the medical board of Orange county, recommended water works for the jail, which he said was in ber that any bill has ever been very bad sanitary condition. He described an awful state of affairs.

Maj. Hamilton said the commissioners could do nothing for want of money. Dr. Jordan, of Caldwell Institute, seemed to think in such an extreme case as this it was the commissioner's business to find the money. He mentioned a case where an innocent man from his section of the county was put in jail-such a jail-he said such a place was not fit for the worst of criminals, much less an innecent man.

Within the past two years there have been 21 men incarcerated in this disease-breeding hole at one time. Among the number was one Lockley Ashley, innocent in the sight of men, but who had been touched by the hand of God. This poor man, whose friends ere too poor to keep him at home, laid in a common jail more fell on Monday to \$97,710,772. than two years. Application was made for his admittance to the ranteed just as represented State Hospital time and again, but there was no room for poor Lockley Ashley. In the meantime, however, those in better circumstances than the friends of Lockley Ashley, gained admittance for their afflicted. The RECORDER would like to ask who is responsible for such treatment of crazy persons. For the last ten years it has his assessment to support the why he must also pay to support the insane in the county jail is not to be explained. We fail to remember where any governor has urged in his message to the legislature the necessity of preparing more room for lunatics, nor do we rememless citizens are being sent to unhealthy jails because, it seems, the spare rooms of the hospitals for the insane have been engaged in advance and are held for any of the rich na-

ed in the upper story. The state is growing in poppoliticians talk, the number of insane is increasing, and the RECORDER would like to know why an additional wing is not added to the asylums, and the long-talked of scandal of inhuman treatment to crazy people given a rest.

# Mexican Mustang Liniment

Sprain cured and crutches thrown away. Bad Gall on his horse's neck cured in 3 days.

DURHAM, N. C., Jan. 11, 1898. Lyon Mfg. Co., Brooklyn, N. Y.

Gentlemen:-For fifteen years I have used Mexican Mustang Liniment, and I consider it the best liniment on earth; I am never without it. I recently used it on a bad gall on my horse's neck and it cured it in three days. I had, also, a bad sprain in my log and had to use crutches several days. As soon as I began to use Mustavg Liniment I felt relief, and in a few days was entirely well. I recommend it to any one needing a liniment for bosses or for self, with confidence the they will get their money's worth. Yours, JNO. R. HUTCHINGS.
