"MAN'S INHUMANITY TO MAN."

Every man who labors is entitled to enjoy the fruits of his labor, and if he does not there is something wrong in our economic system.

CAMPAIGN OF EDUCATION.

Any religion that can laugh at misery and treat misfortune with contempt is no religion at all but savagery.

Power and wealth and talent

given to some and carries with it the responsibility of an accounting as to its proper use, and if we believe the scriptures a rigid investigation of such stewardship will be had.

When Adam fell, a curse was pronounced against man by the offended Jehovah;

to wit, "By the sweat of thy brow shalt thou eat bread." This was a command as well as a punishment.

INFORMOUS AND CRIMINAL.

The "sound money" manipulators in this and other States are restoring to all kinds of schemes to delude and mislead the people.

GO SLOW.

Nobody now pretends that Cleveland represents his party. It is declaring for silver, while he is carrying out a gold bug policy

sovereign and unworthy her stewardship.

Robert Burns never wrote to better effect than when he said "Man's inhumanity to man makes countless thousands mourn."

Disease can only be cured by applying proper remedies and removing the cause.

It will never be otherwise until justice prevails. Man is not a beast. He is human and made in the image of his maker.

His restlessness is the very best evidence of his immortality.

The waters of the oceans and the great lakes are never still. The cadence of their murmurings is an assurance that their waters will not become stagnant and generate death-dealing vapors.

"PARTY PERFDITY AND DISHONOR."

Hoke Smith the democratic secretary of the interior, has retired from the cabinet, because a democratic president was displeased at him for supporting the democratic nominee for the presidency.

It is understood that President Cleveland is in favor of the nomination of a "sound money" ticket at Indianapolis as the best means of electing McKinley,

HOW TO INCREASE WAGES.

Monopolies are the bane of the working man. It lessens competition in trade and increases profits. It restricts and circumscribes enterprise.

CONCERTED ACTION NEEDED.

A special in yesterday morning's Raleigh News-Observer from Rocky Mount, says: "Several days last week the sales of tobacco continued until after 4 o'clock p. m., and each of the two days over 75,000 pounds were sold.

ALL BOSH.

All this talk on the part of employers of labor, about working men being paid a fifty cent dollar, and their employers being benefited to the extent of 47 cents in the dollar of his wages, under free silver is rot.

and teaching party in subordination.

When first elected he was the party idol and heralded as a new prophet who would do all things well.

Yet he is like the average politician, except that the aforesaid politician, sometimes repent of their meanness. Cleveland never does. As an example, the position of certain North Carolina politicians in this campaign indicates that they have repented of their brutal neglect of that grand old man Zeb Vance at the State Fair in '93 just after he had declined to become a Cleveland cuckoo.

IGNORANT AND INDIFFERENT.

The silver sentiment is stronger in the West and South because those sections are inhabited largely by native-born Americans, while the gold sentiment appears to be strong in the East because the masses of the population are so ignorant that they are indifferent.

NO "UNDERSTANDING" WANTED.

Dining with Dave Hill and arriving at an "understanding" with the sulking gold bug leader of the New York democracy, is not calculated to strengthen Bryan very much in the South and West.

RUINS ENOUGH HERE NOW.

Ruskin once complained of America because there were no "ruins" here. If Ruskin could visit us now he would find things different, and have no cause to complain on this score.

ty, writers that a card will be issued tomorrow saying that call for the Greensboro convention, purporting to be signed by I. F. Dorch, J. W. Gulick, W. T. Hollowell, R. G. Powell, L. E. Pridgen, H. F. Porter, J. J. Spiers, and others of Goldsboro, is a forgery.

They will say they signed no such card, and did not authorize any person to sign such card for them.

Such conduct as the above is not only infamous but criminal and should be prosecuted vigorously. Same thing happened in this section not long since. Here it was not difficult to trace the forgery to its source, and that a foreigner. Are the descendants of the revolutionary heroes going to tamely submit to such arrogance?
