

DUKE BUILDING, VIEWED FROM THE ATHLETIC GROUNDS.

Trinity College.

(CONTINUED FROM PAGE 1)

15th, 1896, the sum of one hundred thousand dollars as a permanent endowment fund. The gift was conditioned upon granting to women all the rights granted young men as students at Trinity College. Besides this donation, Mr. Duke had previously given one hundred and fifty thousand dollars to the college.

In June, 1898 Mr. W. Duke gave one hundred thousand dollars to be added to the endowment. This gift raised his donations to this fund to two hundred thousand dollars.

Julian Carr Endowment Fund.
In 1887, Col. J. S. Carr, of Durham, N. C., gave ten thousand dollars to the endowment fund. This amount was applied to the chair of Philosophy, which chair was named in honor of Mr. Carr.

Loan Scholarships.

J. A. Cuninggim Scholarship.
In 1896, Rev. J. A. Cuninggim, D. D., a member of the North Carolina Conference, donated one

thousand dollars to the college, the income from which will be loaned to worthy young men to pay their tuition fees. When the loans are paid to the college, they will be added to the principal of the scholarship, so that it will constantly increase in value.

J. M. Odell Scholarship.
Established by Mr. J. M. Odell, of Concord, N. C., and is worth one thousand dollars.

The J. A. Odell Loan Scholarship was established by Mr. J. A. Odell, of Greensboro. It is worth one thousand dollars.

The George Watts Loan Scholarship was established by Mr. Geo. W. Watts, of Durham.

These Scholarships are under the same regulations that govern the Cuninggim Scholarship.

The Choice of a College.

There is no question that involves so much, as the choice of the college at which a young man is to be educated. Colleges have characters as well as individuals, and each college makes men, after its own type. In the choice of a college, therefore, is the choice of

the principles that will constitute the elements of the future character.

The colleges should be positively Christian. That is, it should have a positive faith in Christ, and this faith should be the controlling influence of the college. The Bible should be emphasized, as much importance should be given to Paul as to Plato.

It should be a college free from the fads of social vagaries and dissipations. These not only cost money, but endanger character and dissipate all purposes to study.

It should be a college where the student can have personal access to his professors. Mere professional relations cannot inspire the noblest purposes. These are born out of personal relations.

It should be a growing college. Men and colleges sometimes get grown and fossilize. Only growing professors can create energy in their students. These are some of the items that should control in such an important choice. The monetary cost should always be subordinated to these higher ends.

Advantages of Location.

Trinity College is the only male literary college in North Carolina located in a city. Our ancestors thought that it would endanger the moral character of students if colleges were located in towns or cities, but the facts have long since refuted their ideas, and almost all of the large colleges and universities are located in towns and cities. The educational influences of such environments are necessary. Students enjoy advantages in a city not to be had elsewhere, and come in contact with the questions that are prominent in the minds of the nation. They enjoy the best social and religious influences. Any young man's education is crippled who is denied these advantages.

The Trinity Park High School.

There is a crying need in the South for a better standard of high schools. We have been paying more attention to schools for higher education than to preparatory schools. Of course the quality of the former depends to a great extent upon the quality of the latter. To have high standards of work in college we

must have high standards of preparatory work. Students should enter college ready for college work and college methods, and not have to be prepared after they get there. The step from the high school to the Freshman class should be a natural advancement in the education of the student and not a sudden revolution in his life in which "old things" must be entirely abandoned and altogether new ones learned. He should be prepared to take hold of the college work as soon as he enters without any halting or post preparation. As was said, the need of this class of work has been for some time felt and expressed by our college instructors. In the North and in some of the Central States a great deal of attention is being paid to high school work. And some of the Northern high schools, as for instance, the Lawrenceville High School, and the Phillips Academy, do better work than a great many of our so-called Southern colleges. It is no wonder then that Southern graduates go North and take post-graduate work. We need to pay more attention to the high school work, and then our colleges will be able to do more for their students in the four years of college life.

It was with a view to these facts that the Trinity Park High School was established. Its purpose is to prepare students to enter college. It is distinctly a high school, hence it does not pretend nor propose to prepare students for the Sophomore nor the Junior class in college, but for the Freshman class. It will not attempt to prepare students for the Sophomore class in college until the

next September. This school has the great advantage of being near a live, progressive college, where it can receive the influence of college life and environment. This is an influence of no small value both to the teachers and pupils of the school. The teachers have the opportunity of keeping fully abreast with the times in their peculiar lines of work and the students get the use of a college library and the inspiration of a college atmosphere.

Still the High School is a distinct institution. It has its own buildings, its own faculty, its own student, its own fees, and its own methods of working. The only direct connection that it has with the college is that the President of the College is president of the High School also, and the High School students are allowed to use the college library, for which they pay a library fee.

The course of study embraces instruction in English History, Latin, Greek, Mathematics (Arithmetic and Algebra), Geography and Physics. One hour is given to each recitation. There are three classes, Junior, Intermediate, and Senior. Students who enter are expected to be at least twelve years old and ready to begin the study of Latin. Those who finish the three years' course are prepared to enter the Freshman class in any of our colleges.

The Faculty of the High School consists of five regular teachers: J. F. Bivins, Headmaster; F. S. Abridge, P. V. Anderson, S. W. Sparger, and W. K. Boyd. Mr. D. W. Newsom, a Senior in Trinity College, teaches penmanship in the High School. In a faculty of this size, the

teachers have time to devote a great deal of attention to the work in their special departments.

The High School buildings are situated about four hundred yards from the Main Building of the College, in a beautiful oak grove. It is decidedly one of the prettiest locations for a school to be found anywhere. The buildings themselves are beautiful structures, and add greatly to the appearance of the Park. The work did not begin on them until July 19, but it would be impossible to find more handsome, more complete, or better constructed high school buildings anywhere else in the South. The Main Building is truly a work of art. It is a three-story structure, built of faced brick, covered with slate and trimmed with granite. It is 48x78 feet and contains five recitation rooms, an auditorium, cloak room, office, reading room and society hall. These rooms are all beautifully finished. The lumber used in the building is the very finest quality of North Carolina pine. There is hardly a knot to be found in any part of the building. The recitation rooms are furnished with patent desks and hyloplate blackboards. The building is heated by the hot air system.

The Dormitory building is an attractive wooden structure of three stories. It contains twenty-four rooms, all well finished. Each room contains a grate. The building is lighted by electricity and is furnished with all the modern conveniences. Three boarding houses are located near the High School building, two of which contain dormitories also. Members of the faculty will room in the main dormitory building.

It was with a view to these facts that the Trinity Park High School was established. Its purpose is to prepare students to enter college. It is distinctly a high school, hence it does not pretend nor propose to prepare students for the Sophomore nor the Junior class in college, but for the Freshman class. It will not attempt to prepare students for the Sophomore class in college until the

next September. This school has the great advantage of being near a live, progressive college, where it can receive the influence of college life and environment. G. A. Oglesby, Mr. V. Ballard, Mr. E. J. Parrish, Mr. W. H. Branson, Durham.
Members from the W. N. C. Conference.
Term expires December 31, 1903.—Col. J. W. Alspaugh, Mr. Jas. A. Gray, Winston; Mr. W. R. Odell, Concord; Mr. F. Sikelecher, Asheville.
Term expires December 31, 1901.—Col. G. W. Flowers, Taylorsville; Rev. J. R. Brooks, D. S. Greensboro; Rev. R. H. Parker, Morganton; Hon. W. J. Montgomery, Concord.
Term expires December 31, 1899.—Hon. Kope Elias, Franklin; Rev. S. B. Turrentine, Charlotte; Mr. P. H. Hanes, Dr. W. S. Creasy, Winston.

Members from the Alumni.
Term expires December 31, 1903.—Hon. F. M. Simmons, Raleigh; Prof. O. W. Carr, Greensboro; Mr. R. A. Meyer, Charlotte; Rev. N. M. Jurney, Goldsboro.
Term expires December 31, 1901.—Rev. T. N. Levy, D. D., Greensboro; Rev. J. B. Hurley, Wilson; Mr. Robt. L. Durham, Gastonia; Rev. W. C. Wilson, Mt. Holly.
Term expires December 31, 1899.—Dr. Dred Pascock, Rev. P. L. Groom, D. D., Greensboro; B. B. Nicholson, Esq., Washington; Mr. A. H. Stokes, Durham.

Faculty and Officers.
John C. Kilgo, A. M., D. D., President and Professor of Avera School of Biblical Literature.

William H. Pogram, A. M., Professor of Chemistry, Geology and Astronomy.
Robert L. Flowers, (U. S. N. A.), Professor of Pure and Applied Mathematics.
William I. Cranford, Ph. D., (Yale), Professor of Philosophy and Greek.
John S. Bassett, Ph. D., (J. H. U.), Professor of History and Political Science.
Jerome Dowd, Professor of Political Economy and Sociology.
Edwin Mims, M. A., Professor of English.
A. H. Merritt, A. B., Professor of Latin and German.
W. P. Few, Ph. D. (Harvard), Professor of English.
J. I. Hamaker, Ph. D., (Harvard), Professor of Physics and Biology.
C. W. Edwards, A. F., Professor of Modern Languages.
W. F. Gill, A. B., Assistant in Latin and Greek.
W. H. Adams, Assistant in Book-keeping.
John C. Kilgo, Treasurer.
W. H. Pogram, Secretary of Faculty.
J. P. Breedlove, Librarian.
D. W. Newsom, Private Secretary of President.

Committees.
Schedule Committee—Flowers, Bassett and Cranford.
Athletic Committee—Few, Flowers and Dowd.
Library Committee—Few, Bassett and Hamaker.
Lecture Committee—Bassett, Mims and Hamaker.

Societies.
Historical Society—President, W. K. Boyd; Secretary and Treasurer, W. H. Willis; Librarian, J. E. Pogram.
Scientific Club—President, Prof. W. H. Pogram.

Current Topics Club—Director, Edwin Mims.
Hesperian Literary Society—President, J. H. Barnhardt; Vice-President, F. T. Willis; Secretary, W. A. Sessions.
Columbian Literary Society—President, L. C. Nicholson; Vice-President, J. M. Culbreth; Secretary, R. B. Etheridge.
Y. M. C. A.—President, J. H. Barnhardt; Vice-President, S. A. Stewart; Secretary, J. P. Breedlove.

Christian Educator—Editors, W. I. Cranford, Robert L. Flowers; Business Manager, H. E. Seeman.
Archive (by Senior Class)—Editor, D. W. Newsom; Associate Editors, R. B. Etheridge, F. W. Willis, W. N. Parker, J. H. Barnhardt, Edw. R. Welch.
Annual Publication of Historical Papers—Published by the Historical Society.

Athletics.

The athletic interest of the institution are under the supervision of a committee of the Faculty consisting of Dr. W. P. Few, Profs. R. L. Flowers, and Jerome Dowd, all of whom are greatly interested in athletics. There is also an Athletic Association consisting of members of the Faculty and members of the student body. The officers of this association are, President F. H. Hanes, Winston, Vice-President H. M. North, Laurinburg; Secretary and Treasurer, C. L. Homaday, Hartford.

The regulations of the Faculty under which athletics are conducted are:

No student of Trinity College

BRAXTON CRAVEN MEMORIAL HALL.

shall take part in any athletic contest, or have any connection with College Athletics who was not present at the beginning of the term in which the contest takes place, and who is not taking full work and making a passing grade.

This resolution shall be interpreted to mean that one who takes part in College Athletics must be duly entered on the first day of the term, either in College or (for this year only) in the High School; must carry at least fifteen hours of recitation work a week, and must make a grade of seventy and above.

It shall be the duty of the Athletic Committee to keep a list of all members and managers of teams, and before each game, to find out from the professors of the College if all these are making a passing grade. If any are falling below this mark it shall be the duty of the Athletic Committee to declare all such non-eligible to take part

will be the best in the State. The prospects for the baseball team are very fine. W. W. Ford, of Raleigh, is captain, Marion Cobb, manager, L. L. Henderson, assistant manager.

The Boston baseball team will practice at the Park this season. Manager Seele will bring his men there in March for several weeks' practice. This will be of great benefit to Trinity's team.

Woman's Building.
Young women are admitted to all the departments of Trinity College on the same terms as young men. This step was taken because very many of our Southern women are ambitious for the highest training, given to young men. This ambition is laudable and just, and to meet this demand all the classes of Trinity were opened to them by action of the Trustees, June, 1897.

Trinity College has an endowment of three hundred thousand dollars, besides nearly two hundred thousand dollars in equipments. It is the best endowed college in the South Atlantic States, and therefore, puts more invested capital at the disposal of its students than other colleges in this section of the United States.

While there is no course of music in the college, yet the Southern Conservatory of Music is located near Trinity Park, and furnishes to young women studying at Trinity a rare opportunity to perfect themselves in this art.

The Mary Duke building is designed as a boarding home for young women. It was built and furnished at a cost of five thousand dollars, and is equipped with every modern convenience. Rooms are furnished with everything except bed covering and towels. Board, including room, furniture, baths, lights, heat, servants, parlor and table will not cost over fifteen dollars per month.

This building is located in easy reach of class rooms, laboratories and library. Young women are under the same system of government as young men. There is no cloister idea in the government, and no restraints that endanger health. A high womanly honor is expected to govern the conduct of young women who enter college.

College students demand outdoor recreations, and for this purpose have provided racing track, tennis and ball grounds. If young women expect to do successful work in male colleges, they must have equal opportunities for recreation. Nothing has done more to impede intellectual and physical development among young women at college than the restraints imposed upon them in the ordinary regulations. If a young woman lacks the strength of character necessary to conduct herself properly, she should not attend any college, and especially a male college.

During this year twenty young women have matriculated in the various classes of the college. They are meeting every requirement, and show ability to do a high class of work. They are happy and enthusiastic students. It is to be hoped that many of our young women will avail themselves of the advantages here afforded for broad lines of intellectual work.

When the work is completed

PRESIDENT'S RESIDENCE.

SOUTH ENTRANCE TO TRINITY PARK.
