### New Tomato for 1900 LIVINSTON'S MAGNUS.

This very distinct and most promising new variety. of the color of meauty and acms, is the latest addition by Livingston to the Tomato family. It is thicker, heavier, and more solid than either of the above, making it easily the mest handsome sort in cultivation. The form is perfect, uniform, large and attractive. Flesh very firm. It is a robust grower, with short joints softing its fruit clusters closer together than most varieties, and is therefore a heavy cropper. It is especially adapted for shipping, and is remarkably fine for forcing indoors and out. Order at once.
