Durham, Route 2.
 April, generally speaking, is the real beginning of the farming year. The rain and the sun has gently thawed the frost from mother earth. Still, nature is not the only part of this universe which takes on new life in the spring—humans as well as other animals become changed from what they were in winter. From passive or dormant creatures we leap into life. Revenge is a two-edged sword. Be careful lest in dealing the blow you are not yourself hurt.

From Lillian, Route 1.
 Guess it is not necessary to say anything about farming, for that seems to be a thing of the past. Nevertheless, we will yet have time to plant and work our crops. Some of our neighbors have been planting some cotton, but only those who had plenty of seed to plant again.
 Am glad to note that we have very little sickness in this neighborhood.
 The entire community was made sad when the news of the death of Squire John Lynn was received. He was one of the oldest and truest citizens. May the Great Comforter cheer the bereaved family and friends of the deceased.
 Mrs. Sallie Ferguson and son, Calvin, spent Sunday afternoon with A. Ferguson and family.
 Mr. and Mrs. J. E. Ferguson spent last Sunday with Mrs. Candace O'Neal.
 J. W. Carpenter, of the State Hospital, spent Saturday night in this section. His many friends were glad to see him, and his best girl was all smiles Sunday.
 Charlie Ross, who came home recently from Trenton, N. J., on account of his health is much improved, and I hope he will soon entirely regain his health.
 J. G. Ferguson, of East Durham, spent sometime recently in

this community on business.
 Mr. Candace O'Neal and son, H. M. O'Neal, are going to put in a new cotton gin, which will be modern in every respect.
 Samuel Egerton has purchased another mule. As he sold the first bale of cotton of any one in the community last fall, it will be well to watch him this year or he will sell two bales before any of us get a start.
 Archie Gray, of Lillian, Route 1, sometime ago found a dress suit case near the residence of J. N. Horton, and as yet no owner has called for it. The owner can get his suit case by applying to the above address and giving a description of the case.

A Lazy Liver
 May be only a tired liver, or a starved liver. It would be a stupid as well as a savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.
 If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distress in "small of back," gnawing or distressed feeling in stomach, perhaps nausea, or "rising" in throat after eating, and kindred symptoms of weak stomach and torpid liver, no medicine will relieve you more promptly or surely than Dr. Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.
 The "Discovery" is non-secret, non-alcoholic, is a glyceric extract of native medicinal roots with a full list of its ingredients printed on each bottle-wrapper and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the age and are recommended to cure the diseases for which it is advised.
 Don't accept a substitute of unknown composition for this non-secret medicine of known composition.
