

How War May Deprive You of a Hudson Super-Six

TABLE OF QUANTITY AND INCREASE IN COST OF MATERIALS USED IN THE HUDSON SUPER-SIX.

In each 7-passenger Hudson Super-Six Phaeton the following amounts of materials are used:

	The Cost in 1914	The Cost Now	Increase in Per.
250 lbs. frame steel	\$1.25 per cwt.	\$5.25 per cwt.	320
335 lbs. sheet metal	2.75 per cwt.	8.15 per cwt.	297
110 lbs. aluminum castings	28 per lb.	29 per lb.	3.79
210 lbs. cast iron	13.25 per ton.	43.00 per ton.	325

Our leather increase, which is one of the most important items, is 48 per cent. Other upholstery items have advanced 100 per cent. Our wheels have advanced 80 per cent in price; our front and rear axles 20 per cent; the components of our tires, rubber and cotton, have advanced 75 per cent and 150 per cent respectively. We use 48 pounds of copper in each Super-Six; it costs 100 per cent more than a year ago.

These are times when no one who will want an automobile within the next twelve months can afford to put off buying.

The only certain way of getting a Hudson at all, or to obtain it at present prices, is by buying now.

War conditions so greatly affect material supply and costs that future car production is uncertain.

Note how costs have increased in the essential materials as shown in the above table.

All materials have gone up in price at an unprecedented rate.

Pig iron sold at an average price of \$16 a ton for a period of 25 years before the war. It is now \$50 a ton.

All automobile manufacturers have or soon will make new price advances. They have had to on account of increased costs. On cars which have sold in the \$1,000 to \$1,300 class are now priced in the Hudson Super-Six class.

Cars which have made no record for performance or endurance and which have sold in the \$1,000 to \$1,300 class are now priced in the Hudson Super-Six class.

Increased costs are similarly affecting all makers. None can permanently escape them.

Hudson Prices Not to Advance Now.

The Hudson factory is now in production with materials bought at last year's material prices. When they are all gone, then Hudson cars, too, must go up in price.

The number unsold and in production is limited. All dealers know the amounts of their allotments and so far as we are able, they will get their full supply.

Dealers who have not made arrangements in the way of stocks and rely upon factory supply to meet their wants will have to take their chances in getting cars along with the men who put off buying.

Materials Growing Difficult to Get--Costs Increasing

Buy Hudsons for Less Now Than Later.

As long as the present supply lasts, Hudson Super-Six cars can be bought at present prices.

Compare them with the prices now asked for cars which have shown no such proofs of endurance.

Go minutely over the claims and recommendations made for any car; check its price with that of the Super-Six and then take into consideration the character of dealer representation and service offered by the different cars and decide.

Who has made such demonstrations of endurance?

No other manufacturer has established important records as an indication of the performance capabilities of his cars. In fact, since Hudson first began to make records for speed, acceleration, power and endurance, there have been no other interesting tests announced by other makers.

Before Hudson began to make new records, it was the custom of many makers to use the speedway and the cross country run to prove their cars. We did not resort to a new method to prove Hudson performance. But what the Super-Six has done has apparently proved how hopeless it is for any to attempt to equal its records. At any rate, no one now disputes Hudson supremacy with any proof that any car equals or excels it.

By deciding now you can get a Hudson Super-Six at a price not much above what is asked for cars which formerly sold at a much lower price.

If you wait, the inevitable adjustment of prices will again force you to pay the true difference.

It is needless with most buyers to explain the greater value of the Super-Six. You no doubt have long preferred to own a Hudson. Now the question of its costing more than some other car should not deter you. But your decision must be made soon if you want to get a Hudson Super-Six. Other cars haven't even a price advantage now.

Phaeton, 7-passenger \$1950
Speedster, 4-passenger 1750
Cabriolet, 2-passenger 1850
Touring Sedan 2175
Town Car 2925
Town Car Landaulet 3025
Limousine 3225
Limousine Landaulet 3625

Catarrah Cannot Be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrah is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrah Cure is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarrah Cure was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrah Cure is what produces such wonderful results in catarrah conditions. Send for testimonials, free. F. J. CHENEY & CO., Props., Toledo, O.
